

# Accidents Happen

Sometimes people bump into each other.

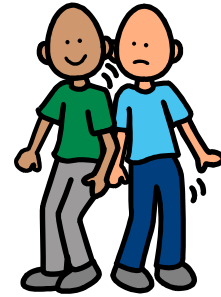

That's okay.

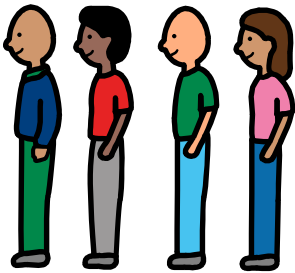

Accidents happen sometimes.

Accidents are things that can happen and it is no one's fault. Accidents are not on purpose.

People bumping into each other is usually an accident.

People bump into each other when:

they line up

play at recess

get lunch

are in the classroom

When someone bumps into me I can try to stay calm and remember it was just an accident
