

# ALAMEDA K-5 SCHOOL IMPROVEMENTS

Alameda School is now safer and will function better thanks to the **PPS School Building Improvement Bond** and a Seismic Rehabilitation Grant from the State of Oregon.

Work included:

**Complete roof replacement with seismic strengthening, new skylights and mechanical equipment added**

**Seismic strengthening of the 1953 addition**

**Seismic strengthening of the cafetorium**

Alameda is one of five schools that were successfully upgraded this summer. All the work was completed on time and on budget.
