

Grant Modernization

The Grant High School modernization begins master planning next spring. Groundbreaking in summer 2017 and completion in fall 2019.

Grant Modernization

- Grant High School is one of 3 PPS high schools to be modernized as part of an 8-year \$482 million school building improvement bond. Grant's modernization will completely reconfigure and update learning spaces with a focus on indoor environmental quality, sustainability and historic preservation.
- Full modernizations retain the historic character of the school while bringing those buildings up to code and concurrently creating a more modern learning environment.
- This is considered the most cost-effective, sustainable way to improve Grant.

Get Involved

- In the Summer of 2015 a *Design Advisory Group* (DAG) will form. The DAG is a group of school and community stakeholder representatives who will help provide feedback for the Grant modernization plans. While DAG members are appointed, their meetings are open to the public.
- In the fall of 2015 a series of *Public Design Workshops* will take place providing the Grant community a voice in the design process.

Transition to Marshall Campus

- Grant students will move to Marshall High School for the 2017-18 and 2018-19 school years. Meetings to discuss how this will work and how it will impact students, families, and the neighborhood will be announced at: <http://GrantBond.pps.net>
