

LEWIS ELEMENTARY SCHOOL IMPROVEMENTS

Lewis Elementary School is now safer and drier thanks to the **PPS School Building Improvement Bond**.

Work included:

Removing the old roof materials and installing roof-level seismic upgrades.

Installing plywood sheathing, new insulation, membrane roofing, vents and mechanical hoods.

Meriwether Lewis is one of five schools that were successfully upgraded this summer.

All the work was completed on time and on budget. Over the next 8 years, Portland Public Schools will upgrade up to 63 schools.
