Discussion:

1. Sarah announced the upcoming Community Workshop will take place on Saturday February 22nd at the Charles Jordan Community Center. Additional information is available on the PPS website.
2. Lorne provided an overview of the current design.
3. Glen provided a summary of the changes to the design from the last DAG meeting. The Preliminary Floor Plans are attached to the end of these meeting minutes.
4. A question was asked why doesn't the new design tear down all the buildings and build a new school that would be cheaper? Lorne responded that it is actually cheaper to rehab older buildings today than to build new.
5. There was a conversation surrounding Enhanced Electives.
 - a. A question was asked if the curriculum of the Enhanced Electives has been established yet.
 - b. Greg said the spaces will be built and the curriculum for the spaces will follow.
 - c. Sarah talked about how the Community Workshop will address Enhanced Electives.
 - d. Franklin High School currently has an established shop program so the size of Roosevelt's Enhanced Electives is influenced by other specific needs the school has that take up square footage.
 - e. Bobbie thinks a more robust conversation is needed concerning the Enhanced Electives.

6. Abby asked if there was a space dedicated for Student Government. There will be conference rooms available and there could be dedicated storage for the Student Government but the room could be used by other groups.
7. The sustainability goals of the project are to meet at least LEED Silver equivalent.
8. Daylighting will be provided in all learning spaces.
9. The seismic goal of the project is to achieve a life safety goal equivalent.
10. The Learning Garden is intended to be used by students. Currently Portland Parks and Recreation run a community garden at a site near Roosevelt.
