We are an **Inclusive Community** that **Cares, Collaborates, and Perseveres.**

2022-2023

Glencoe Elementary is an Inclusive Community that Cares, Collaborates, and Perseveres

Glencoe includes, welcomes and celebrates everyone in our community. Glencoe is a school where all members care about one another and our surroundings. We successfully collaborate in and out of the classroom for the betterment of our community. We persevere by engaging with challenging academics, setting goals, working hard and never giving up.

WHAT IS SCHOOL CLIMATE?

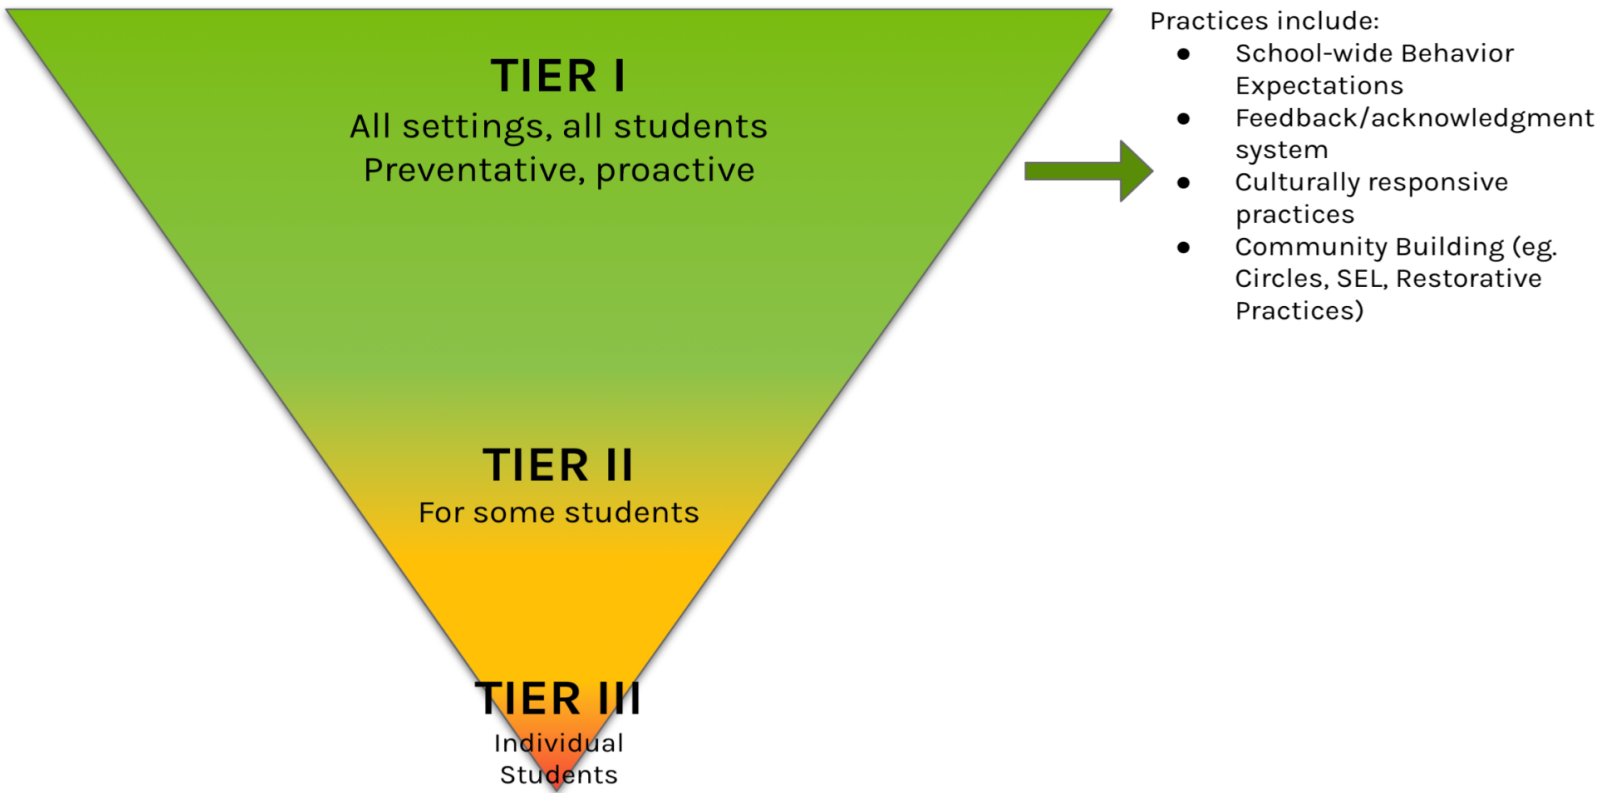

MULTI-TIERED SYSTEMS OF SUPPORT

School Climate is the most integral component of a Multi-Tiered System of Support (MTSS) framework. MTSS is focused on prevention and problem solving for all students using decision making based on data. MTSS uses evidence-based instruction, intervention and assessment practices to ensure that every student receives the appropriate level of support based on their level of need. Attention is focused on creating and sustaining Tier I support (universal), Tier II intervention (targeted group), and Tier III intervention (individual) systems to help eliminate barriers to learning and enable every student to successfully reach their full potential.

SCHOOL CLIMATE OVERVIEW

School Climate encompasses culturally relevant, restorative practices with a racial equity and social justice lens, as well as school wide social emotional learning opportunities for all students in their classrooms.

MTSS FOR STUDENT SUCCESS

CULTURALLY RESPONSIVE POSITIVE BEHAVIOR INTERVENTIONS & SUPPORTS (CR-PBIS)

Our definition of cultural responsiveness within SWPBIS includes the following core components:

1. Identity
2. Voice
3. Supportive Environment
4. Situational Appropriateness
5. Data for Equity

[CR-PBIS](#) (Culturally-Responsive Positive Behavioral Interventions & Supports) uses implementation science to help students to develop positive behaviors. At the most basic level, CR-PBIS can be described as a three-pronged approach:

1. Explicitly **teach** co-constructed expectations of the school and classroom community,
2. Actively **acknowledge** kids when they are following the expectations,
3. Instructionally **redirect** behavior using restorative practices.

Research shows that when school staff acknowledge positive behaviors at least three times more often than redirecting behavioral mistakes, positive behavior increases significantly.

The school climate team uses disaggregated data to make decisions and to develop the systems and practices of a school. The unique racial, cultural and linguistic makeup of the school is explicitly addressed at every decision point.

The school climate team brings together all stakeholders to:

- Develop and promote school values
- Develop common area expectations for all parts of the building
- Design lesson plans and schedules to teach common area expectations throughout the year.
- Create and maintain systems to acknowledge students who are following expectations. This may be acknowledgement tickets, assemblies, or awards for individuals, classes, grade levels, etc.
- Develop school wide policies that are proactive, preventative and restorative.
- Build corrective discipline systems (i.e. a flowchart) and calibrate clear definitions of student behaviors.

How do we make certain that PBIS is culturally responsive?

- We use the [Panorama Successful Schools](#) survey data and {empathy interviews &/or surveys} to systematically assess and review student and family voices and adjust our practices to reflect the needs of our community.

RESTORATIVE PRACTICES

Restorative Justice is a philosophy grounded in the belief that positive, healthy relationships help us thrive. When we do things that impact others and create harm to those relationships, it is our individual and collective responsibility to make things right.

Restorative Practices are the skills and processes that help us build, maintain, and repair relationships to form healthy, supportive & inclusive communities. Restorative Practices are best utilized when intentional time is devoted to community building.

Community Building Circles that allow classroom communities to develop relationships by asking a series of low impact questions to get to know one another. Circles should be done as often as possible to insure relational trust is developed over time.

Restorative Inquiry is an essential restorative practice. A series of guiding questions are asked to understand all parties involved in a conflict, disagreement and/or any level of harm. The questions get to the root of a conflict and help solve the conflict by giving voice to the person who was harmed.

- What happened?
- Who was harmed and how?
- What can be done to make things better?
- What do you need to move forward?
- What support do you need to keep this from happening in the future?

RACIAL EQUITY & SOCIAL JUSTICE (RESJ)

The Board of Education for Portland Public Schools is committed to the success of every student in each of our schools. The mission of Portland Public Schools is that by the end of elementary, middle, and high school, every student by name will meet or exceed academic standards and will be fully prepared to make productive life decisions. We believe that every student has the potential to achieve, and it is the responsibility of our school district to give each student the opportunity and support to meet his or her highest potential.

Glencoe prioritizes racial equity work aligned to the vision set forth in the [PPS Graduate Portrait](#) that is committed to Culturally-Responsive Positive Behavioral Interventions & Supports, Multi-Tiered Systems of Support, Restorative Practices, Equity, and Social Emotional Learning.

We as a community must foster and promote a collective vision for public education so that every student -- regardless of race, gender, socioeconomic situation, special need or ability -- has access and opportunity to kindle his or her unique spark, and to build the knowledge and skills to achieve their goals.

We owe our students this.

-- Guadalupe Guerrero, Superintendent, Portland Public Schools

SOCIAL EMOTIONAL LEARNING

Social and Emotional Learning (SEL) is an integral part of education and human development. SEL is the process through which all young people and adults acquire and apply the knowledge, skills, and attitudes to develop healthy identities, manage emotions, and achieve personal and collective goals, feel and show empathy for others, establish and maintain supportive relationships, and make responsible and caring decisions. ([CASEL](#))

In PPS, we embrace Transformative SEL—which is a form of SEL implementation that concentrates SEL practice on transforming inequitable settings and systems, and promoting justice-oriented civic engagement.

“Transformative SEL” is a process whereby young people and adults build strong, respectful, and lasting, relationships that facilitate co-learning to critically examine root causes of inequity, and to develop collaborative solutions that lead to personal, community, and societal well-being. This form of SEL is aimed at redistributing power to promote social justice through increased engagement in school and civic life. It emphasizes the development of identity, agency, belonging, curiosity, and collaborative problem solving within the CASEL framework. ([CASEL](#))

[CASEL’s 3 Signature Practices](#) intentionally and explicitly help build a habit of practices through which students enhance their SEL skills: self-awareness, social awareness, self-management, relationship skills, and responsible decision-making. They provide a framework for supporting teachers in fostering a supportive environment and promoting SEL. The 3 Signature Practices can be put into practice without extensive professional learning. They can be incorporated into any K-12 [lesson](#), [community meeting](#), or [staff meeting](#) through carefully choosing, effectively facilitating and thoughtfully debriefing a: [Warm Welcome](#), [Engaging Activity](#) & [Optimistic Closure](#).

To support current and future social and emotional needs, trauma-informed science reminds us of the need to:

- Elevate student’s **cultural assets, voice, and agency**
- **Strengthen relationships**, community, and sense of belonging
- **Affirm student identities** and lived experiences
- Incorporate social and emotional skill building into **academic learning**
- Establish consistent and **predictable routines**
- **Build trusting relationships** with students and families through clear and transparent communication

Programmatic Supports for all Students

SCHOOLWIDE VALUES AND COMMON AREA EXPECTATIONS (1.3)

Our School Values Statement: Glencoe is an **Inclusive** community that **Cares, Collaborates,** and **Perseveres**.

Inclusive - We are welcoming

Care - We are kind and respectful

Collaborative - We help and encourage others

Persevere - We keep working even when it's hard

Posters (with student, staff, family & community-produced values) have been made and distributed throughout the building in order to make them visible to students, staff and families. The intention is to send a consistent message about what our school community values and how it looks different in various common areas. This will help Glencoe ensure that our school values are inclusive and affirming.

These school values are important for the Glencoe school community, because these are the qualities that help students be successful in life. Our students need to understand and exercise Glencoe on a regular basis to master the skills to be successful and prepared to be college and career ready.

- These values are woven into our regular teaching practices in every lesson and in every class period throughout the grade levels, naming them with consistency and strategically teaching and reviewing them throughout the school year.

TEACHING EXPECTATIONS (1.4)

See Lesson Plans for teaching common area expectations in appendix

Yearly Schedule for Teaching Common Area Expectations

Teams have a process and procedures for staff to teach students the behaviors necessary to be successful in the school setting regardless of previous learning and without disrespecting families’ beliefs. When expectations differ between home or community and school, staff examine these differences critically, and if determined to be necessary, they explicitly teach the skills (including providing a clear rationale for having a different expectation at school and opportunities for practice and feedback until students demonstrate the skill fluently).

Active Supervision for [Glencoe](#)

Staff actively supervise while on duty by staying alert and proactively circulating within groups of students. Staff interact with students in a positive and constructive way. This includes acknowledging positive behaviors and actions, scanning for potential growth areas, modeling and supporting regulation strategies, and using restorative practices to reduce and repair harm.

DEFINING STAGE 1 AND STAGE 2/3 BEHAVIORS (1.5)

Behavior level calibration will be conducted by building staff in order to properly reflect the evolving needs of our community and to accommodate the diverse racial, cultural, linguistic and developmental needs of our school.

PROFESSIONAL DEVELOPMENT (1.7)

Over the course of the year, staff PD must explicitly address these five essential areas: teaching school wide expectations, acknowledging appropriate behaviors, correcting errors, requesting assistance (SIT Team), and understanding the influence of race, culture and language on student behavior.

CLASSROOM PROCEDURES (1.8)

Every teacher will have an Effective Classroom Practices Plan (E CPP). E CPPs will be shared with administration no later than the day before back to school night. Co-creating classroom practices reduces variability between classrooms and makes it more consistent for students.

Some sample plans are provided below and PD time will be provided in the first two weeks of school to complete these documents.

The Effective Classroom Practices Plan template, covers the essential features of effective classroom practices: Structure, teaching expectations, acknowledging positive behaviors, and supporting regulation & restorative practices. Here is a [link](#) to the ECPP Template that each teacher completes and submits.

[Glencoe's Guest Teacher Support System:](#)

Guest teachers play a vital role in maintaining a positive school climate in our school community. Their dedication along with our support as a school community enables guest teachers to provide safe and engaging classrooms where students continue to learn and grow in the absence of their permanent teacher. The following documents are part of our Guest Teacher Support System:

- [Guest Teacher Welcome Letter](#)
- [Guest Teacher Handy Reference Guide](#) (to be completed by each Glencoe teacher)
- Student Expectations for hosting a Guest Teacher

Staff can access the district templates/resources of the Effective Classroom Practices Plan & Guest Teacher Support System Resources [here](#)

FEEDBACK AND ACKNOWLEDGEMENT SYSTEMS (1.9)

Research shows that when staff "catches" a student exhibiting appropriate behaviors, those behaviors will increase and misbehaviors will decrease. Specific praise is extremely important in increasing the recurrence of appropriate behaviors. Some schools decide to give out acknowledgement "tickets", small slips of paper that are aligned with the school values. All staff hand out the acknowledgement tickets, along with specific praise, to students as they witness appropriate behaviors in the common areas, in classrooms, on buses, etc.

Description of our school-wide acknowledgement system:

SUPER GULL TICKETS

To encourage a positive school climate and recognize students for their efforts, staff will monitor and reward students acting in a manner that aligns with our value statement. Staff can give students or each other a SUPER GULL TICKET to be deposited into Glencoe's Super Gull Gallery. The gallery is a Plexiglass box labeled with benchmarks that indicate school wide rewards earned for each level achieved.

Staff members are strongly encouraged to award students tickets for inclusive, caring, collaborative and persevering acts. The Super Gull Gallery will be kept in the main hallway to hold the tickets. Growth toward our goals will be announced and encouraged at our

Wednesday Morning Meetings. Meeting of a school wide Super Gull benchmark will be announced over the VOIP system.

Glencoe Super Gull Awards

To encourage a positive school climate and recognize students for their efforts, staff will monitor and reward students consistently demonstrating the word of the month (the words are in our value statement). Students are nominated twice a month. The students’ names are read over the school intercom system and called to the office to receive a certificate and Glencoe Gull Bracelet. Available staff greet them in the office as they enter.

Glencoe Plan for Student Involvement

Glencoe students are able to get involved in a number of ways throughout the year. There are Meaningful Work jobs posted throughout the year that students can apply for. If chosen for the job, there is training and an adult supervisor. In previous school years, we have had equipment managers, assembly crews, recess set up folks, lunch tub managers, daily greeters, etc. Though jobs change daily, all students are encouraged to apply for jobs that interest them. Another way we will be utilizing student voices this year is through a Student Advisory Committee— a group of upper grade students to brainstorm community building activities, rewards for our school-wide program and other topics as needed.

TIER I EVALUATION

Evaluation of the Effects and Fidelity of the School Climate Practices

DISCIPLINE DATA (1.12)

Tiered Fidelity Inventory (CR-TFI) guides the action planning for the implementation of a positive school climate.

- Assessment component is completed three times a year in September, January and May
- A score of 80% or better indicates a well-implemented tier
- The TFI action plan is revisited on a monthly basis

Recent TFI scores

- 2020-2021: 47.5

Successful Schools Survey (SSS)

- Completed once a year in February by all students (grades 3-12), staff, and families.
- Reviewed by the School Climate Team and shared with staff, students and families. Used to monitor and adjust climate initiatives (In 2020-21 reviewed by whole staff).

Expectation Rotations

Generally there is a two day rotation where classrooms go to designated locations to learn about the common area expectations. Due to the uncertainty of this 2021-2022 school year, we will be utilizing [video expectation lessons](#). Some of these lessons were created last year during Hybrid. These lesson videos will be updated with new guidance and expectations prior to the first day of school. We will also be creating lessons for the cafeteria and playground.
