

# WILSON PATHWAYS

*Where Will Your Path Take You*

## **WHAT IS THE PATHWAYS PROGRAM**

Wilson Pathways provides students with the unique opportunity to learn through integrated lessons, apply knowledge through project-based learning, and develop career skills while still in high school. Students select a Pathway that interests them (Arts & Communication, Computer Science, Construction & Engineering, or Health Science), then follow a carefully designed curricular trajectory, specific to their Major.

## **HOW DOES IT WORK**

Complete three or more sequenced courses offered within the Pathway's Major, preparing a portfolio of accomplishments along the way.

## **A DISTINGUISHED GRADUATE**

In addition to the traditional high school graduation certificate, students earn a Pathway Certification of Mastery and receive a unique graduation cord. Students also have the option of earning an "Honors" distinction by taking three or more AP courses in beyond to their Major's coursework.

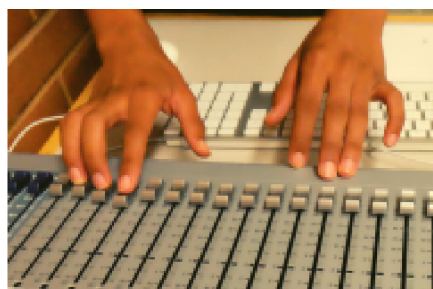

# WHICH PATHWAY IS RIGHT FOR YOU?

## **ARTS AND COMMUNICATION PATHWAY**

### **STUDENTS CAN MAJOR IN:**

- MEDIA ARTS
- MARKETING
- SOUND ENGINEERING
