

Mission:

Le Monde's mission is to educate children in a French immersion environment that honors the best international academic traditions and develops students who are inquisitive, reflective, communicative, and caring.

Le Monde French Immersion Public Charter School does not discriminate on the basis of race, creed, color, national origin, gender, age, marital status, sexual orientation including gender identity, or non-program related disability in providing access to student education programs, co-curricular activities, and employment opportunities.

- Weekly offerings of art, music, and physical education

What is a charter school?

Charter schools are public schools that are intended to provide innovative programs with specific educational philosophies and/or delivery models that offer additional options for students and families within the public school system. Charter schools are 501(c)3 organizations that enter into a contract with Portland Public Schools for sponsorship and they maintain a high level of autonomy in exchange for increased accountability. Charter schools are governed by Oregon Revised Statute (ORS) 338.

What is the relationship between charter schools and PPS?

PPS is responsible for oversight and monitoring of all charter schools sponsored by the district. PPS collects required annual deliverables, monitors financial stability and student performance, and ensures that the charter school is compliant with law and the contract.

How does a student enroll in a charter school?

Charter school enrollment must be fair and equitable, and may only be limited by the age of the student, the grade of the student, and the space available. If the charter school receives more applications than it has spots available in a particular grade/class, then it must conduct an equitable lottery to determine enrollment for that class/grade.

Le Monde French Immersion Public Charter School offers a full immersion program with French as the target language. The curriculum is comprehensive, with strong math, science and language instruction using innovative education methods from around the world. Le Monde emphasizes high standards of academic achievement, personal growth, and social responsibility to prepare each student for full participation in our global society.
