### Successful Schools Survey

What is the first thing that comes to your mind when you hear the phrase "successful schools?" We believe that successful schools are safe, healthy and welcoming learning spaces that are inclusive for all students.

Our annual PPS Successful School Survey is one of the most important tools we use in making decisions about school climate and culture.

We are excited to announce the 2023 Successful Schools Family Survey. When you take the survey, you help us understand your experience as a parent or guardian. This important information will guide

us as we determine the future of our schools. At Bridlemile, we use Successful School Survey results to inform our School Improvement Plan goals and determine our progress.

[Click here to take the survey!](#) Translations are available on the survey webpage. You can complete the survey from a computer, tablet, or smartphone. It should only take 15-20 minutes of your time. Select Bridlemile from the school list and answer the questions for that school. If you have children at more than one PPS school, please complete one survey for each school your children attend. If you have more than one student at Bridlemile, you may answer for more than one survey or you can answer for your eldest child.

For more information about the Successful Schools Survey, go to <https://www.pps.net/sss2023>
