

Low Cost Bikes for Low Income Children

Every year, SUN partners with the Community Cycling Center to provide children with refurbished bicycles, new helmets, and basic safety education. Registration begins **October 2** and spots are limited and filled on a first come, first serve basis. Students must qualify for free or reduced lunch, be between 30-56 inches tall and between 3-8 years old. There is a \$5 registration fee per bike and families must be willing to attend the giveaway event to get children fit to the bikes in early December. If your child qualifies and doesn't have a bike or has outgrown their bike, please send your contact information (names, address, email, phone), the child's date of birth, their height in inches, ethnicity, and language spoken to dmeisenhelter@impactnw.org as soon as possible.
