

## - Ockley Green Middle school -

September 8, 2020

Ockley Green Middle School

Good morning Ockley Green Community,

As you are aware, there are many areas in Portland that are being impacted by power outages. The district has shared a message below that is being communicated in various forms on the website and other places. As a school, we are evaluating the staff situation on a case by case situation. As of right now, Torey Frisina is the only staff member impacted and will not be holding classes today. If classes or teachers are impacted at Ockley Green MS, they will send out a message to their students and families via Remind. Students unable to log on because of power outages on Tuesday will not be penalized for their absence. Please reach out if you have any questions.

Thank you,  
Ockley Green Administration

### **District Message Below:**

Dear PPS Families and Staff,

Due to widespread power outages in the Portland metro area, we know a number of students and staff are without power at home, and unable to join their classes for distance learning today. Students unable to log on because of power outages on Tuesday will not be penalized for their absence.

Some students who have logged on today might have noticed that their teachers did not show up for a session. This is due to teachers losing power at home and being unable to log on, themselves. Families should expect to hear from their student's school in these cases.

Finally, there are multiple PPS schools currently without power and/or wifi at the moment. Teachers and staff will not be able to access those buildings until power returns. Please contact your building administrator to check on power in your building if you were planning on going in.

Thank you!

Current List of PPS Schools without Power:

Duniway

Llewellyn Elementary

Stevenson Elementary

Duniway Elementary

Kelly Elementary

Ockley Green Middle (building is closed due to construction so this does not impact instruction)
