I have been a student at Laurelhurst for nine years. My brother attended this school before me, so I my sister and I have been visiting since we were two. I can't say that I would choose to leave Laurelhurst but I know that my experiences here will always be a part of me.

"You never change your life until you step out of your comfort zone; change begins at the end of your comfort zone." - Roy T. Bennett

Thank you to everyone in the Laurelhurst School community, those staying and those who are making their departure.

Cold: the air and water flowing.
Hard: the land we call our home.
Push to keep the dark from coming,
Feel the weight of what we owe.

This: the song of sons and daughters
Hide the heart of who we are.
Making peace to build our future.
Strong, united, working 'till we fall.

Strong, united, working 'till we fall.

And we all lift, and we're all adrift together, together.
Through the cold mist, 'till we're lifeless together, together.

Quote/Memory: I remember my first day at Laurelhurst. I had mixed emotions about going to school. I was excited to be in a new place, but I was nervous I wouldn't do well or make any friends. But little did I know, here at Laurelhurst, I would make amazing friends and have amazing teachers. I wish I was graduating under different circumstances, but I am still grateful for the nine years I have spent here.

In 7th grade my social studies teacher, Ms. Bee, would have me run around the entire school everyday and make me do 50 jumping jacks to burn off the energy that I had from class. I also remember in Kindergarten, second grade, there was a lockdown and a police chase happened right outside the window. Our teacher must not have heard the phone because we just kept reading with the window wide open

Your Teachers and Staff
Will Miss You!

Mr. Lewis

Physical Education

Stay Active - Stay Healthy

Stay Happy

Mr. Matthew Sancomb

Science

In a world where you can be anything, be kind and confident. Each of you has so many skills and so much intelligence,

Don't be afraid to make some mistakes and make your dreams come true.. You will remember the lessons that come from inspiration and errors easily.

Dear 8th graders of the class of 2024,

Thank you for sharing your joy, your intelligence, your curiosity, your humor, and your challenges with me. You will always be a special class for me! Here are some ideas to share as you go on your journey.

Mr. Sancomb

Be yourself and know that your teachers care for you and believe in you. If you need a smile or a lift along your journey, look me up.

"Today, if a monkey shows up with a go-kart, your response should be, "let me get my helmet."

Life is (hopefully) a longer adventure than you can conceive, so **be patient**. Take your time and enjoy the ride. Try new adventures. Learn about something new. Do something uncharacteristic. Put down your electronics and appreciate moments and people that are right in front of you. That is where the best stories come to life.

Mrs. McKenzie

Third Grade

Some of my favorite memories with this group was the Third Grade Play, Creating Expert Brochures and The Egg Drop!!
Congrats to all of you!

**Mrs.Sweeney
Third Grade**

“Gary Indiana, Gary Indiana, Gary Indianna...” It was after this catchy song was sung in a chorus concert, that I would say “Gary Indiana” and you ALL would sing the song. It became a thing where we would just sing it out of nowhere MANY times a day. You will forever be one of my favorite classes. Congratulations!

Ms. Blakemore

Language Arts

It has been an honor to know such an amazing group of students. I have seen remarkable acts of empathy, kindness, inclusivity, humor, and creativity from you all. Despite the curveballs this year has thrown us, you have handled it with aplomb. I am proud to say that I got to be your teacher.

QUADRATIC FORMULA!

Robin Allison, Math Teacher

FRIENDS!!! I feel honored to have been your teacher this year. I learned so much from all of you. Thank you for all the laughs and the lessons.

Remembering math is good, but I hope you also remember...

Mistakes are a critical part of learning, don't give up

Sleep is important and never a waste of time

Speak up for yourself and your beliefs

Correlation does not imply causation

Question authority!
