

Eat Your Veggies Sampler

Each full flat contains 8 trays of 4 plants, for a total of 32 plants. A half-flat contains 4 trays of 4 plants, for a total of 16 healthy starts with 4 different vegetable varieties in every half or full flat.

Broccoli 'DiCiccio' is an Italian heirloom variety with a sweet, full flavor. After you cut the main head, it will keep producing many small florets that make wonderful raw snacks or are great in stirfries.

Cauliflower 'Snowball' is favored by gardeners for its productivity and reliability. Its large heads are well protected by its outer leaves, and it's resistant to downy mildew. Good flavor, too!

Cabbage 'Red Express' is an early, reliable variety with a beautiful deep red color. It's relatively resistant to splitting, and you can store it in your fridge for weeks. It's great for coleslaw, soups, and a wide variety of other dishes, and it's nutrient-packed.

Walla Walla Sweet Onions are a delicious addition to our sampler. It's easy to produce quality onions in good soil, and they can be eaten at any stage of maturity. Separate the onion plants and plant about 2" of the young onion start into the soil.
