Issue 307

September 12, 2011

### ALUMNI RETURN TO CAMPUS

Thanks to the class of 1971 for completing some painting projects at Wilson. We've had many comments from students, staff and parents that the hallways look much brighter. Thank you!!

### SENIOR GAINS SCIENCE EXPERIENCE OVER THE SUMMER

This summer, **Ulysses Duckler**, class of 2012, had a paid internship in the Regenerative Bioengineering Laboratory at Portland State University. The professor he worked with is Dr. Sean Kohles. Ulysses helped build and create computational models for a new bioreactor. This new bioreactor is one of only two of its type in existence, and is the most advanced of any bioreactor. He also helped assemble and operate a 15-foot long crash test sled, (which is even cooler than it sounds.) Ulysses presented his research at the Apprenticeships in Science and Engineering (ASE) symposium on the University of Portland campus on August 19. ASE is affiliated with Saturday Academy. The title of his research presentation is "Internship Experience in Computational Bioengineering and Injury Biomechanics." Ulysses says, "The internship was a very valuable experience and I learned so much about this field, the life of grad students, and working in a state-of-the-art laboratory. Thank you to **Ms. Feller** and **Mr. Gerber** for writing the recommendation letters that helped me get selected." Congratulations to Ulysses and his parents, **Lori Lieberman** and **Geordie Duckler**.

### FRESHMAN STAYS BUSY OVER THE SUMMER

**Conor Appleton**, incoming freshman at Wilson (and recent graduate from Robert Gray MS) had a very busy summer. Gaining invaluable job experience, he worked in the food pantry at William Temple House. Conor also kept up with his music over the summer and played his clarinet (with solo parts) with the Metropolitan Youth Symphony during their Summer Concert on August 27 at Marylhurst. In addition to honing his work and musical skills, Conor spent the summer keeping his competitive edge and staying in shape by swimming with the SWCC swim team. Way to go to Conor and job well done to his parents, **Kathy and Andrew Appleton!**

## **SUMMER EXPERIENCE FOR SOPHOMORE AS EXCHANGE STUDENT**

A small city in Austria and an island in the Mediterranean were two places sophomore **Chris Meabe** was able to visit over the summer as a Rotary exchange student. Chris's host family lives in Bad Ischl, Austria, amidst the Alps between Salzburg and Vienna. After flying there and joining the family on their vacation in Corsica, Chris brought his exchange brother to Portland to enjoy our Oregon lifestyle, with parents **Amy and Gary Meabe**. Both aspects of the exchange were fun and educational. Chris says, "Being an exchange student in another country makes you think about why we do things the way we do, and why cultural differences still exist even in developed countries."

## **PROFESSOR/DEPARTMENT CHAIR, COMPUTING TECHNOLOGY, AUTHOR OF 38 BOOKS**

After graduated from Wilson in **1968**, **Jan Harrington (Rabin)** received her B.S. in Psychology from the University of Washington in 1971. She received a Masters in Librarianship from the University of Washington in 1977. Jan headed east and received her Ph.D. in Information Technology from Drexel University in Philadelphia, PA in 1983. Since 1989, she has been at Marist College in Poughkeepsie, NY where she is an Associate Professor and Chair of the Department of Computing Technology. Jan is the author of 38 computing-related books, covering topics such as database management, data communications, computer security, and computer programming. Jan tells us that without a question, the **most influential teacher in her life was her junior English teacher at Wilson**, Francis Murray. "He taught me (and probably many others) how to write well," says Jan. "It stood me in good stead through writing a dissertation and 38 books." When asked about words of advice for current students at Wilson, she reflects that it's important to "finish high school; get some further education (college or trade school...) to develop marketable skills."
