WILSON ROBOTICS TEAM BRINGS HOME THE TROPHY!

May 08, 2015: Benson Polytechnic High School: Robotics teams representing Benson Polytechnic High School, Madison High School, and Wilson High School competed in the “First Annual World Robotics Soccer Invitational Championship”. The rather grandiose title describes a friendly challenge issued by Benson at the end of the regular FTC robotics tournament season. Teams were invited to modify their robots to play soccer. Teams had a month to design, redevelop, and test their retrofitted robots. The field of competition consisted of eight teams and their robots. Wilson was represented by two teams: Purple Milk (PM) and Dwayne “The Bot” Johnson (DTBJ). Our Wilson teams swept the competition, defeating all challengers. The final match featured a one-on-one scrimmage between PM and DTBJ. PM emerged victorious, narrowly defeating DTBJ (3:2) in the last seconds of the game. Congratulations to both Wilson teams for a wonderful showing.

YOU'RE INVITED! HUMAN FIRST MAY 21

What does it mean to shed our labels and be seen as human first? Not student, not teacher, not job, gender, or age: but *human*. This is the question explored by an exciting new play written and directed by award-winning playwright Matthew B. Zrebski along with the students of Wilson High School. A production of Kaiser Permanente's Educational Theatre Program, in collaboration with Oregon Children's Theatre, this unique theatrical experience features professional actors performing alongside Wilson High School students, excavating the complex issues related to mental well being, identity, and community. Please join us for this inaugural production, the culmination of an 8-week artist-in-residence program. See below for more information about the residency, and about how to bring *Human First* to your school.

Thursday, May 21st at 7:00 pm, Cosgrove Auditorium at Wilson HS. Free and runs One hour.

About Human First

Human First is a new artist-in-residency program and performance developed by Kaiser Permanente's Educational Theatre Program, in collaboration with Oregon Children's Theatre, designed to engage high school students on issues surrounding mental well being. A primary goal: remove the stigma from issues surrounding mental well being. Shouldn't young people be able to speak about and explore mental health issues with the same level of comfort as they do discussing physical health? Shouldn't we all? Why is mental health so quickly associated with mental illness? What issues in schools and in the daily lives of young people contribute to mental stress and mental health challenges, and how can we normalize the conversation about solutions?

Wilson High School students have spent 8 weeks investigating the theme of mental well being through theatre, visual art, poetry, and music under the leadership Teaching Artists from the Educational Theatre Program. This work has become the platform for a new play, penned by local award winning playwright and director, Matthew B. Zrebski, who also wrote the productions *Texting the Sun* and *1 ½* for the Educational Theatre Program. *Human First* is both scripted play and creative work generated by student participants throughout the residency. Professional actors perform side-by-side with Wilson High School students. The public performance also includes an installation featuring students' visual and written work. Thanks to the generosity of Kaiser Permanente, this program is offered FREE of charge. If you'd like more information, or if you're interested in hosting a *Human First* residency at your high school, please contact David Rosenbaum at David@octc.org. *Help us spread the word!* Forward this e-mail to anyone else interested in the issues impacting the mental health of students.
