ANNOUNCEMENTS

Forecasting for 2018-19

Counselors have started visiting classrooms to begin this year's online forecasting process. Here's how it works:

1. Counselors distribute forecasting forms in classrooms
2. Students mark their forms with their first choices and alternates
3. Parents review the form and sign to approve
4. Students enter choices into **Student Vue** (help is available in the College Center). Students can login to StudentVUE using their regular PPS username and password. If you do not know your PPS username and password, please contact your school office.
5. Students meet with their counselor (before and after school, during a free period, lunch or study hall) to finish forecasting.

For the forecasting schedule, online forecasting instructions, and the forecasting guide and forms, go to <https://www.pps.net/domain/764>.

Juniors and Sophomores: Signed forecast sheets are due to counselors by this Friday, January 12th. Please don't wait until Friday or the lines will be very long.

Pre-Ninth Grade Credits

All pre-ninth grade credits will remain on the student transcript unless they are requested to be removed by the end of the first semester of **freshman year**.

Why would students want a credit removed? Students sometimes want B's or C's removed because these grades appear to be lowering the grade point average early on. Some students want to strive for a straight-A average, and grades lower than an A from middle school would prevent that.

Important: Removing a credit doesn't change your placement in the next level but can impact your progression through graduation requirements. Removing a middle school Algebra credit, for example, would mean that the three math classes that count toward graduation would start with Geometry in 9th grade.

Please submit the request form to your counselor by mid-January if you wish to have a credit removed. You can find the form here: www.pps.net/cms/lib/
