

# Music through Code: Creating Music in JavaScript with Gibber

Want to learn to create catchy tunes and infectious beats live in front of an audience? What if you could learn to code in JavaScript at the same time?

Come join us for a workshop on creating music with code using the free algorithmic music tool Gibber. We'll learn how to make basic tunes, create samples on the fly, and code up songs that never stop changing.

**For teens in grades 6 - 12.**

**Thursday Feb 13**  
**4 - 6 p.m.**

**Hillsdale Library**  
1525 SW Sunset Blvd.  
503.988.5123
