## PRINCIPAL'S WEEKLY MESSAGE - From [Filip Hristić](#)

View all Principal messages [here](#).

Dear Wilson Families,

We've had more calendar changes this year than any other year that I can remember. These adjustments have not been easy on our students and staff, and I know that they have not been easy on our families either. Please see below for what distance learning will look like the week after [Memorial Day and for our last week of school](#). If you haven't heard already, PPS Board of Education voted to extend the school year to [June 10](#). I hope that these are the last calendar adjustments for the year.

We will not have finals during the last week of school. Instead, we will use the time to help students complete assigned work and finish the semester with success. If you have any questions, please reference our [distance learning master schedule](#), contact individual teachers or counselors, and don't hesitate to reach out to our admin team.

With Gratitude,

Filip Hristić, Ed.D.  
Principal, Wilson High School

## WHS Wins 2020 Economic Challenge State Championship

A team of four Wilson High School students are the Oregon State Champions in Economics. The team, consisting of seniors, Joshua Bromely, Emma Koontz, Nathaniel Nelson and junior, Ori Friesen, won the Oregon State championship on Saturday. The team will advance to the National Semi-Finals later this week. This is the first year that Wilson has competed.

The National Economics Challenge (NEC) is the country's only economics competition of its kind for high school students. It tests micro and macroeconomic principles as well

as knowledge of the world economy.

"It was wonderful to see Emma, Nathaniel, Josh, and Ori win the state competition," said Coach Josh Winicki, who is also the team's Economics teacher at Wilson. "They've been working all year long, meeting during lunch to review material and study old competition material. And I would also like to congratulate all the teams that competed, including two other teams from Wilson that made it to the State final round, one finishing tied for third."

"Mr. Winicki really brought economics to life for me," said team captain Koontz, "After taking his class last year, I was looking for ways to further my understanding of economics. When I learned about the challenge, competing seemed like an obvious way to maximize utility."

The Council for Economic Education (CEE) created the National Economics Challenge in 2000 to promote student interest in economics, reinforce classroom instruction, and to encourage teamwork and school spirit. In 2019, more than 10,000 high school students from the US and 2,300 from China participated.

### Verselandia is Virtualandia in 2020!

Since 2011, Literary Arts has produced the city-wide youth poetry slam Verselandia! This year, however, due to school closures and gathering bans, Verselandia! had to be reframed into a virtual event. Virtualandia is an opportunity for Portland and east Multnomah County high school students to still take part in a city-wide poetry initiative.

Video lessons will be uploaded on the Virtualandia Google Site weekly. Students can start the process at any time, however, in order to receive feedback on a poem, students can submit a poem between May 11 and May 20. At that point, students will be able to revise their work with the feedback and the help from the final video on revision. Literary Arts encourages students to use the hashtag #virtualandia on their own social media

accounts if they would like to share their work or document the process. Literary Arts will also publish a cohesive collection of student work online.

### **WHS Distance Learning Master Schedule**

Here is a working draft of the Wilson HS [distance learning master schedule](#). We hope that this document helps you and your student develop a daily and weekly schedule that works best for you and your family.

When you click on the link above, you will see that there are individual tabs for each department. You will also see separate columns for the four essential questions that we wanted to answer:

- What platform is each teacher using?
- When are assignments typically posted?
- When are assignments typically due?
- How can students connect with each teacher?

Please keep in mind that this master schedule may be changing slightly in the days and weeks to come. We will keep this document updated as much as possible. However, for most accurate and up-to-date information about each class, please visit each teacher's google classroom or contact the teacher directly.

Also, please let us know if you or your student need additional clarity or support. Students are expected to have about 2 hours of work/week/class. If your student is feeling overwhelmed or confused, please contact the teacher directly, email your student's counselor, or reach out to your student's grade-level admin ([link to staff list](#)). Thank you for your ongoing feedback and support.
