Parents know how lonely it is to care for a young person experiencing emotional, behavioral and mental health challenges. It can be frightening and isolating. It's hard to know where and how to reach out for help and information. As caregivers, we have experience navigating challenges on behalf of our children and families. And as a community, we have much to offer one another. This is what Reach Out Oregon is all about, a supportive community where you will find a support team: Parent to Parent
