All percentages are of October Enrollment.

Counts of students are unduplicated within a school and action. For example, if a student at a school received two out-of-school suspensions and one expulsion, that student will be counted once in the Expulsion column, once in the Out-of-School Suspension column and once in the Overall column. In this example, three incidents would be shown for that student in the Incidents row.

Caution should be exercised when comparing discipline data across schools and years. Although District policies and regulations increase consistency in addressing and reporting student discipline incidents, corrective action is based on an understanding of the individual student and ultimately determined by the best professional judgment of the administrator.

** For most of the schools and programs reported here, October enrollments are representative of the total number of students served throughout the school year, and thus a reasonable basis for calculating suspension and expulsion rates. However, for Alliance HS, an alternative high school serving 16- to 21-year-olds previously unsuccessful in traditional high school programs, the total number of students served during the school year may be as many as 2 to 3 times greater than October enrollments. Consequently, suspension and expulsion rates reported for Alliance HS should be viewed with caution. Pioneer Programs, similarly take students throughout the school year; therefore, October Enrollment is not a good representation of the total students served.
