## Free Meal Eligibility (2021-22 SY)

2021-2022

This report shows how many students are eligible for free meals. The enrollment data is as of October 1st, whereas the counts and percentages of students eligible for free meals reflect updates through November.

The federal government provides funds for student breakfasts and lunches through the National School Breakfast Program and the National School Lunch Program, respectively. Breakfasts and lunches are available to all students at a site based on three reasons (See Note column):

1. High poverty schools are labeled Community Eligibility Provisioning (CEP) schools. Through CEP, the federal government provides free meals to all students, including students who would not normally qualify for free meals. At CEP schools all students eat for free and therefore paper applications are not collected.
2. Head Start Pre-K is only available to students from low-income families, and all students are meal eligible.
3. In 2020-21 as a result of the pandemic, PPS was provided waivers from the United States Department of Agriculture (USDA) and Congress to operate the Summer Food Service Program (SFSP) and waivers that allowed PPS to apply that program to all schools regardless of area eligibility. In 2021-22 PPS received another waiver from USDA/Congress to operate the Seamless Summer Option (SSO) which is under the National School Lunch Program umbrella of Child Nutrition Programs in USDA. Again, this waiver allowed districts to use the program in all areas regardless of eligibility. Both SSO and SFSP allow us to offer meals to students at no cost. **Only the waiver was used in 2021-22.**

Free Meal by Direct Certification % is the percent of total students who receive free meals through Direct Certification. Direct Certification status is determined by state agencies and shared electronically with school districts. Students or families qualify for Direct Certification through a number of avenues such as eligibility for SNAP or TANF, Migrant Ed, or foster care.

Paper applications, supplied voluntarily by families, are used to determine students who can receive free or reduced priced meals based on the families income. The federal government provides free meals to families whose income is at or below 130% of the federal poverty level and reduced priced meals to families whose income is at or below 185% of the poverty level. Additionally, starting in 2015-16, the state of Oregon provides additional funding so all students living at 185% of the poverty level can eat for free. The USDA provides funds for the reduced priced meal and the state of Oregon covers the co-pay that would normally be charged to families.

The overall free meal percentage shows how many students can eat for free. This metric is not comparable across schools because paper applications are voluntary and CEP schools and Head Start do not collect paper applications. **Free Meal by Direct Certification % is the only comparable measure of economic hardship across all schools.**

For more information about CEP please see this website: <http://www.pps.net/Page/2088>

Federal income guidelines for 130% and 185% poverty for each school year can be found here: <https://www.fns.usda.gov/school-meals/income-eligibility-guidelines>.
