All percentages are of October Enrollment. Ethnicity percentages shown are students and incidents of that ethnicity divided by the count of students enrolled in October of that subgroup.

* Discipline counts and rates are suppressed where enrollment falls below 6 students. Percents based on a small number of students are not statistically sound and do NOT support comparison.

Major Discipline Referrals are out-of-school suspension (exclusion from school for at least one but not more than 10 days) and expulsion.

Counts of students referred are unduplicated within a school. For example if a student at one school received two out-of-school suspensions and one expulsion, that student will be counted once in the student row, with three major incidents being included for that student in the total incidents row for that school.

Caution should be exercised when comparing discipline data across schools and years. Although District policies and regulations increase consistency in addressing and reporting student discipline incidents, corrective action is based on an understanding of the individual student and ultimately determined by the best professional judgment of the administrator.

** For most of the schools and programs reported here, October enrollments are representative of the total number of students served throughout the school year, and thus a reasonable basis for calculating suspension and expulsion rates. However, for Alliance HS, an alternative high school serving 16- to 21-year olds previously unsuccessful in traditional high school programs, the total number of students served during the school year may be as many as 2 to 3 times greater than October enrollments. Consequently, suspension and expulsion rates reported for Alliance HS should be viewed with caution. Similarly, Pioneer Programs take students throughout the school year. Therefore October Enrollment is not a good representation of the total students served.
