## Enrollment Summary

### Enrollment by Program Type, October 2009

Elementary Schools	25,629
Middle Schools	5,211
High Schools	11,034
Selected Focus/Alternative Programs	1,642
Community Based Programs	1,206
Special Services	500
Public Charter Schools	1,374
Total Enrollment	<u>46,596</u>

### Enrollment by Grade, October 2009

Pre-Kindergarten	1,004
Kindergarten	4,073
Grade 1	4,007
Grade 2	3,782
Grade 3	3,730
Grade 4	3,542
Grade 5	3,496
Grade 6	3,318
Grade 7	3,254
Grade 8	3,253
Grade 9	3,349
Grade 10	3,121
Grade 11	3,165
Grade 12	3,502
	<u>46,596</u>

### Enrollment by Ethnicity / Race, October 2009

Asian / Pacific Islander	9.8%
African American	13.6%
Hispanic	15.4%
Native American	1.5%
White	54.2%
Multiple Ethnicities Specified	3.3%
Unspecified/Other	2.2%
	<u>100.0%</u>

Counts from Student Database (eSIS) Extract.

## Enrollment Report Footnotes

Program type (i.e., elementary, middle, high, etc.) reflects the most recent administrative assignment. In recent years enrollment counts are compiled on or about the first of October. An enrolled student is defined as a student who attends one or more schools or programs within the District. Regardless of the number of schools or programs attended, each student is counted only once; the counts are unduplicated. Schools and programs that are no longer in operation are designated as 'closed'.

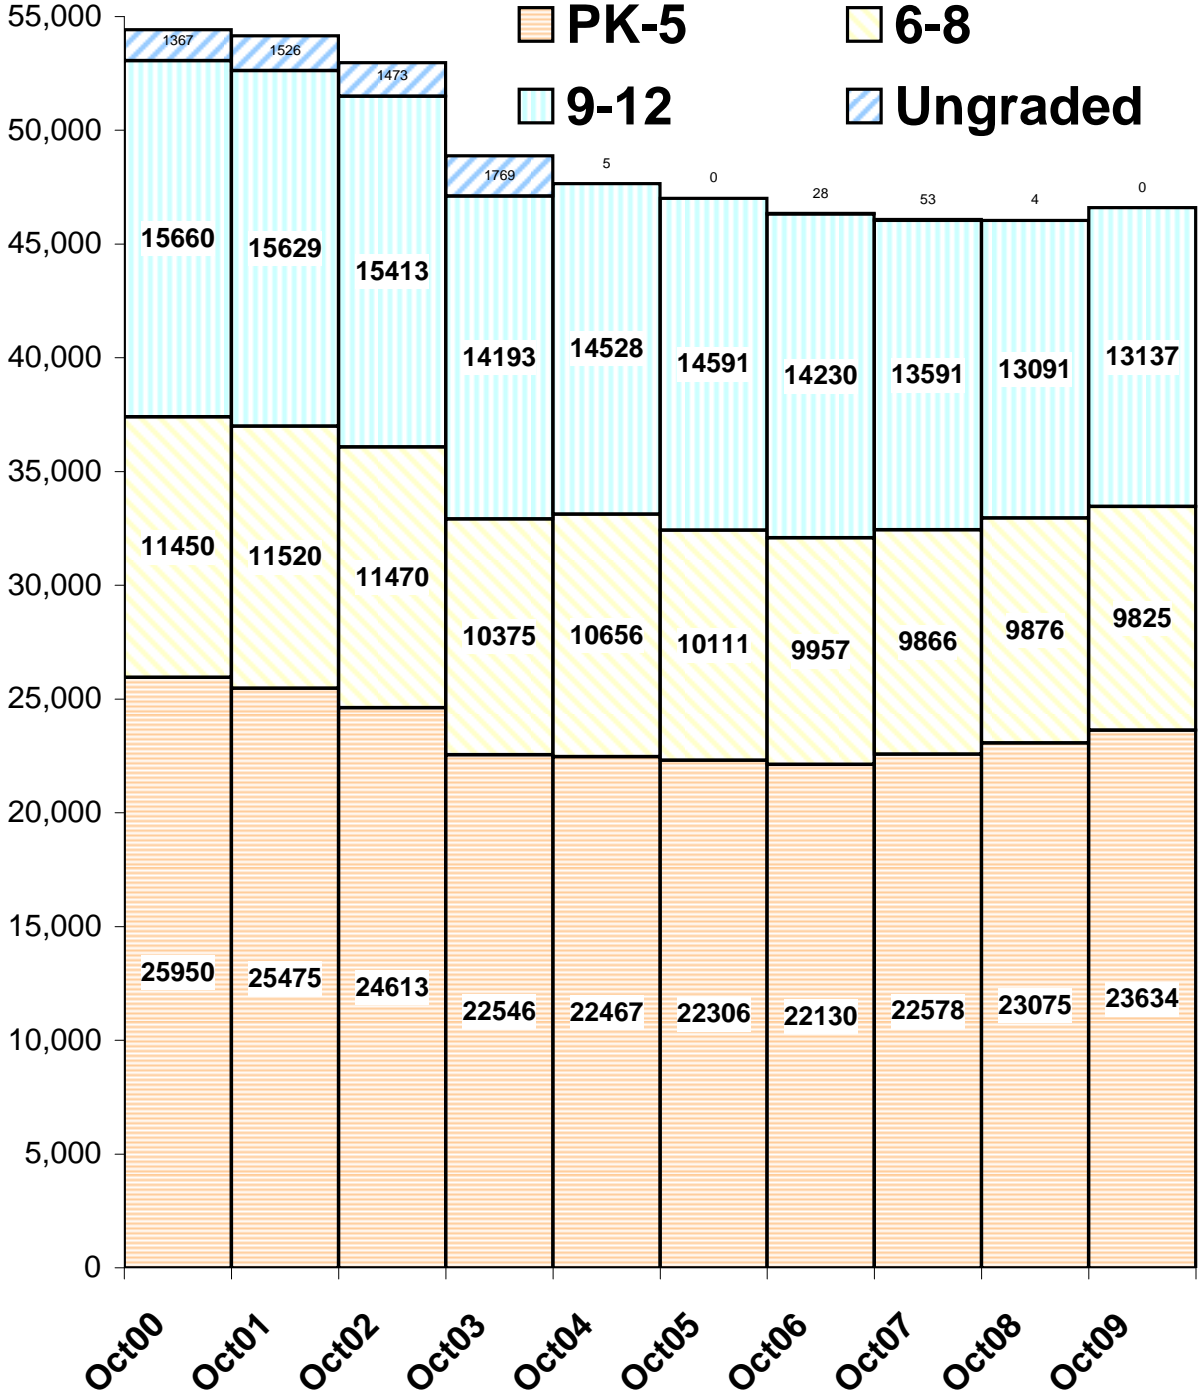

### Footnotes:

- (1) For the 2008-09 school year, Binnsmead closed and the Clark school moved from the Clark site into the Binnsmead site. The Creative Science School Program (CSSP) expanded and moved from Bridger Elementary to the Clark site.
- (2) The ACCESS Program is located at Sabin site but is a district-wide alternative education program drawing students district wide. Starting in 2008-09 the enrollment for ACCESS has been separated from Sabin elementary
- (3) For 2009-10, Scott and Rigler became K-8 Schools. For the 2008-09 school year, Scott and Rigler remained K-7 schools, and those students that matriculated from 7th to 8th grade attended at the Madison 8th grade academy.
- (4) For the 2007-08 school year, Clarendon ES and Portsmouth MS merged to form a KG-8 school. Enrollment counts for years prior to 2007-08 for Clarendon consist of grades KG-5 only. Enrollment counts for Portsmouth prior to 2007-08 are contained in the MS section of this report. Similarly, Hollyrood ES and Fernwood MS merged to form a KG-8 school (renamed Beverly Cleary) as did Rose City Park ES and Gregory Heights MS (renamed Roseway Heights).
- (5) For the 2007-08 school year, Kellogg MS was closed. Eighth grade students that would have been enrolled at Kellogg for the 2007-08 school year were enrolled at Franklin HS. Tubman MS was also closed and a new Young Women's Academy was opened on the Tubman campus as part of Jefferson High School.
- (6) Transitioned to KG - 8. Starting 2009-10 Laurelhurst, Rigler, Scott were K-8 schools. Starting 2008-09 Arleta, Astor, Boise/Eliot, Bridger, Clark, Creston, Faubion, Humboldt, Irvington, Lee, Lent, Marysville, Peninsula, Skyline, Vestal, Woodlawn were K-8 schools. Starting 2007-08 Beach, Clarendon-Portsmouth, Beverly Cleary, King, Roseway Heights, Vernon were K-8 schools.
- (7) Day and Residential Treatment Programs (Long term care and treatment).
- (8) No students enrolled for current school year.
- (9) For the 2006-07 school year, Meek Professional Technical HS, Portland Night HS at Grant, Marshall Night HS, and Madison Focus (shown in Madison enrollment in prior years) merged to form Alliance High School.
- (10) For the 2006-07 school year, Ockley Green converted from a Middle School to a KG-8, and Kellogg and Portsmouth no longer received sixth grade students.
- (11) For the 2005-06 school year, two high schools located at the Marshall campus, Linus Pauling Academy and Portland Academy of International Studies, merged into one school renamed Pauling Academy of Integrated Sciences.
- (12) Applegate, Edwards, Kenton, Richmond and Smith Elementary Schools were closed at the end of the 2004-05 school year. Whitaker Middle school was closed as well. Most elementary school-aged students residing in the Applegate neighborhood area went on to attend Woodlawn. Similarly, students residing in the Edwards neighborhood area went on to attend Abernethy, those at Kenton to Chief Joseph; those at Richmond to Abernethy, Creston or Glencoe; and those at Smith went on to Capitol Hill, Maplewood or Markham. Most middle school students residing in the Whitaker neighborhood area went on to attend Tubman. A new focus/option school was established at the Richmond ES site.
- (13) For the 2004-05 school year, the Environmental Middle School combined with Sunnyside Elementary and was renamed as Sunnyside Environmental School. In addition, the Odyssey program and its students (formerly at Chapman Elementary) moved to Hayhurst Elementary. The Family Cooperative program (formerly at Sunnyside) moved to Bridger Elementary.
- (14) Pioneer programs consist of elementary, middle and high school programs. It was formerly known as ES B Program at Youngson, MS B Program at Foster and HS B Program at Columbia.
- (15) As of the 2003-04 school year, enrollment summaries no longer include the following programs: Hospital Programs (Emanuel, Oregon Health Science University, Oregon State and Shriners Hospitals); M.E.S.D. Functional Living Skills; Portland Early Intervention Program (PeiP) and Columbia Regional Programs (Autism, Deaf and Hard of Hearing, Orthopedic and Vision Services). Administration of the Hospital Programs, Functional Living Skills and PeiP was transferred to Multnomah Education Service District (M.E.S.D.). Historically, enrollments reported for Columbia Regional Programs represent non-District students served by PPS staff on a part-time basis. For purposes of State reporting, membership (i.e., enrollment) the Columbia Regional Program students are reported by the resident District.
- (16) Brooklyn and Meek Elementary Schools were closed at the end of the 2002-03 school year. Most students residing in the Brooklyn neighborhood area went on to attend Grout Elementary, while those residing in the Meek neighborhood area attended Vernon Elementary. Similarly, Wilcox and Youngson Elementary Schools were closed at the end of the 2001-02 school year. Most students residing in the Wilcox neighborhood area went on to attend Vestal Elementary, while those residing in the Youngson neighborhood area attended Bridger Elementary.

Enrollment counts for the 2009-10 SY were derived from the eSIS Report 28-State Reporting (OR), Cumulative Average Daily Membership, effective 10/01/2009.

October 2009 Enrollment Summary based on 2009 Period 1 Cumulative Average Daily Membership Collection.

The new Federal definitions are that any student designated with Hispanic ethnicity will be counted in the Hispanic sub-group, even if the student also has one or more race designations). Non-Hispanic students with multiple race designations are counted in the Multi-Racial sub-group. Non-Hispanic students with only one race designation will be counted in that racial sub-group. Undetermined race and/or ethnicity in the current year student information system were updated with race/ethnicity in prior year student information system -- this mainly impacts the Asian / Pacific Islander subgroup, which will be separated into Asian and Hawaiian/Pacific Islander by the end of the 2009-10 School Year.

**Federal Child Nutrition (FCN)**

While school breakfasts and lunches are available to all students at most sites, some students are eligible for either free or reduced price meals based on family size and income information supplied voluntarily by parents. The federal government provides funds for student breakfasts through the National School Breakfast Program and lunches through the National School Lunch Program.

FCN data are based on data in eSIS, unless noted below.

Headstart by definition is 100% eligible.

Humboldt and King are Provision 2 schools where 100% of students are considered eligible for free meals; percentages shown represent Provision 2 base year eligibility.

Parry Center, Rosemont, Clinton Street, White Shield, Wildflowers are Residential Child Care Institutions and thus 100% of students are eligible for free meals.

Charters do not use the PPS Nutrition Services Program and FCN numbers shown may be lower than actual, but are what could be verified through eSIS. Cm2 Opal, Emerson, LEP, Self Enhancement Inc., FCN totals are those reported over email rather than eSIS.

## Notes

Classes taught by Special Education and ESL teachers are excluded from this calculation. Certain classes with questionable data are also excluded.

Data were extracted from eSIS and HRMS effective January 15, 2010. Student's room assignments were matched with teachers, course codes, period of the day.

Title-I is a federally funded program seeking the improvement of the academic achievement of the disadvantaged. Portland Public Schools allocates these funds to schools with Free and Reduced Price Meal Eligibility (F&RPM) Percent greater than 40% for PK-8 and greater than 75% for High Schools.

Class sizes in this snapshot include courses in addition to core courses. Snapshot as of January 15, 2010. As such these class size averages differ from 2008-09 SY class sizes shown on individual school profiles.

## Notes

Classes taught by Special Education and ESL teachers are excluded from this calculation. Certain classes with questionable data are also excluded.

Data were extracted from eSIS and HRMS effective January 15, 2010. Students' room assignments were matched with teachers, course codes, period of the day.

Title-I is a federally funded program seeking the improvement of the academic achievement of the disadvantaged. Portland Public Schools allocates these funds to schools with Free and Reduced Price Meal Eligibility (F&RPM) percent greater than 40% for PK-8 and greater than 75% for High Schools.

Class sizes in this snapshot include courses in addition to core courses. Since this snapshot as of January 15, 2010, these class size averages differ from 2008-09 SY class sizes shown on individual school profiles.

Average Daily Membership (ADM) represents the average number of students enrolled during the school year. ADM is calculated by dividing the total student days of enrollment (includes both days present and absent) by the number of school days (session days).

Average Daily Attendance rate is calculated by dividing the total days of attendance (all days each student is present) by the total number of student days (session days) offered by each school to these students.

**NOTE:** The data above should not be used for State School Fund calculations as necessary weightings have not been applied.

### Late Enrollee Ratio:

This is the percentage of students in a given school year who enrolled after October 1 compared to those who enrolled by October 1. The formula is  $A / B$ , where:

A = the number of students enrolled after October 1

B = the number of students enrolled by October 1

### Stability Index:

This is the percentage of students in a given school year who were enrolled at the same school through most of the school year compared to all students enrolled on October 1st. The formula used is  $A / B$ , where:

A = number of students enrolled in the same school through most of the school year

B = the number of students enrolled on October 1

Note: Calculation of stability changed starting in the 2004-05 School Year.

Prior to 2004-05, stability was determined by if a student was enrolled on both October 1 and June 1.

Beginning 2004-05, stability was based on a student being enrolled at the school at least 145 days, which is approximately 85% of the school year.

The revised method better accommodates non-standard school calendars, seniors who graduate (and cease attending) in May, and 'short' breaks in educational service.

All percentages are of October Enrollment.

Students may incur more than one referral, i.e., in-school suspension, out-of-school suspension (exclusion from school for at least one but not more than 10 days), expulsion or removal. Counts of students referred are unduplicated within a school; each student is counted only once in the total, but may be counted in multiple categories, e.g., a student received two in-school suspensions and one out of school suspension will be counted once in the in-school suspension category and once in the out of school category.

Total Incidents are the total Incidents reported to the Oregon Department of Education, where the action was taken was a Expulsion, Suspension in school, Suspension out of school, or Removal. Each incident is counted once by the highest action reported. Students and incidents with Low level Interventions and Delayed Expulsions not shown.

**Caution should be exercised when comparing discipline data across schools and years.** Although District policies and regulations increase consistency in addressing and reporting student discipline incidents, corrective action is based on an understanding of the individual student and ultimately determined by the best professional judgment of the administrator. Additionally, comparison with prior years is especially difficult as the discipline incidents reported to the ODE have changed.

<sup>1</sup> For most of the schools and programs reported here, October enrollments are representative of the total number of students served throughout the school year, and thus a reasonable basis for calculating suspension and expulsion rates. However, for Alliance HS, an alternative high school serving 16- to 21-year olds previously unsuccessful in traditional high school programs, the total number of students served during the school year may be as many as 2 to 3 times greater than October enrollments. Consequently, suspension and expulsion rates reported for Alliance HS should be viewed with caution. Pioneer Programs, similarly take students throughout the school year, therefore October Enrollment is not a good representation of the total students served.

Substitute Usage. This is the total number of days of substitute usage at each schools by individuals in teaching positions divided by the average number of licensed teachers (and others such as counselors and media specialists who receive substitutes when teaching classes) at the school during the year. This is a proxy for the average rate of substitute usage at each school. The weighted average for schools by type is also shown. Special education and ESL teachers are included in this measure.

## 7. COMMENTS/ISSUES

School is not making Adequate Yearly Progress; however, the school does not receive Title-I funds and therefore no sanctions apply. Most students register some time during their 3rd year of high school and on average are between 6 to 12 credits deficient.

Alliance High School is comprised of four campuses: FOCUS (Madison campus); Meek ProTech (Meek campus); Marshall Night (Marshall campus); and Portland Night (Benson campus).

#### 7. COMMENTS/ISSUES

A public charter school is a separate legal entity operating under a binding charter agreement with a sponsor. A sponsor is either the school district in which the public charter school is located, or, rarely, the State Board of Education. A public charter school is governed by its board of directors and not by the sponsoring district.

As a result, full data are either not available or not comparable for inclusion in these School Profiles. Therefore, Sections 1, 3 and 6 contain limited or no data. Enrollment and achievement history data depend on the formation date and grade span of the individual school.

Please direct questions about a charter school to the school. Charter school contact information and descriptions are available on the district's website. Click Schools on the main page, then scroll down to and click Charter Schools.

Please direct general questions to Kristen Miles at 503.916.3359 or [kmiles@pps.k12.or.us](mailto:kmiles@pps.k12.or.us).

#### 7. COMMENTS/ISSUES

First year of School Improvement status: Second year not making Adequate Yearly Progress (transportation for transfer sanction applies).

Recently transitioned to a K-8 configuration. Sixth grade was added in 2006-07, seventh grade in 2007-08 and 8th grade in 2008-09.

Enrollment for years prior to 2008-09 includes the Creative Science Program. The Creative Science Program moved to the Clark building in 2008-09 and is no longer included in Bridger's enrollment.

#### 7. COMMENTS/ISSUES

A public charter school is a separate legal entity operating under a binding charter agreement with a sponsor. A sponsor is either the school district in which the public charter school is located, or, rarely, the State Board of Education. A public charter school is governed by its board of directors and not by the sponsoring district.

As a result, full data are either not available or not comparable for inclusion in these School Profiles. Therefore, Sections 1, 3 and 6 contain limited or no data. Enrollment and achievement history data depend on the formation date and grade span of the individual school.

Please direct questions about a charter school to the school. Charter school contact information and descriptions are available on the district's website. Click Schools on the main page, then scroll down to and click Charter Schools.

Please direct general questions to Kristen Miles at 503.916.3359 or [kmiles@pps.k12.or.us](mailto:kmiles@pps.k12.or.us).

## 7. COMMENTS/ISSUES

School identified for Restructuring: Sixth year of not making Adequate Yearly Progress (transportation for transfer, tutoring services, and one or more other prescribed changes required). However, George MS has been rated as Satisfactory every year on the Oregon School Report Card, and scored in the higher range of Satisfactory on the new ODE ratings in 2008-09.

A boundary change occurred during the 2008-09 school year. Rosa Parks 6th grade students now attend George.

#### 7. COMMENTS/ISSUES

A public charter school is a separate legal entity operating under a binding charter agreement with a sponsor. A sponsor is either the school district in which the public charter school is located, or, rarely, the State Board of Education. A public charter school is governed by its board of directors and not by the sponsoring district.

As a result, full data are either not available or not comparable for inclusion in these School Profiles. Therefore, Sections 1, 3 and 6 contain limited or no data. Enrollment and achievement history data depend on the formation date and grade span of the individual school.

Please direct questions about a charter school to the school. Charter school contact information and descriptions are available on the district's website. Click Schools on the main page, then scroll down to and click Charter Schools.

Please direct general questions to Kristen Miles at 503.916.3359 or [kmiles@pps.k12.or.us](mailto:kmiles@pps.k12.or.us).

## 7. COMMENTS/ISSUES

A growing neighborhood school with significant grant funding supporting smaller class size, Lee has expanded after-school programming, made strong gains in academic achievement and established a warm school environment. Jason Lee recently completed its K-8 configuration, adding 8th grade in 2008-09 and has adopted a uniform dress code. For more information please contact Alexander Perrins, Lee's principal at (503) 916-6144.

#### 7. COMMENTS/ISSUES

School not making Adequate Year Progress. First year not making AYP so sanctions do not apply. Recently transitioned to a K-8 configuration. Sixth grade added in 2006-07, 7th grade in 2007-08 and 8th grade in 2008-09. Currently housed at the former Rose City Park location due to fire at Marysville building.

#### 7. COMMENTS/ISSUES

A public charter school is a separate legal entity operating under a binding charter agreement with a sponsor. A sponsor is either the school district in which the public charter school is located, or, rarely, the State Board of Education. A public charter school is governed by its board of directors and not by the sponsoring district.

As a result, full data are either not available or not comparable for inclusion in these School Profiles. Therefore, Sections 1, 3 and 6 contain limited or no data. Enrollment and achievement history data depend on the formation date and grade span of the individual school.

Please direct questions about a charter school to the school. Charter school contact information and descriptions are available on the district's website. Click Schools on the main page, then scroll down to and click Charter Schools.

Please direct general questions to Kristen Miles at 503.916.3359 or [kmiles@pps.k12.or.us](mailto:kmiles@pps.k12.or.us).

#### 7. COMMENTS/ISSUES

A public charter school is a separate legal entity operating under a binding charter agreement with a sponsor. A sponsor is either the school district in which the public charter school is located, or, rarely, the State Board of Education. A public charter school is governed by its board of directors and not by the sponsoring district.

As a result, full data are either not available or not comparable for inclusion in these School Profiles. Therefore, Sections 1, 3 and 6 contain limited or no data. Enrollment and achievement history data depend on the formation date and grade span of the individual school.

Please direct questions about a charter school to the school. Charter school contact information and descriptions are available on the district's website. Click Schools on the main page, then scroll down to and click Charter Schools.

Please direct general questions to Kristen Miles at 503.916.3359 or kmiles@pps.k12.or.us.

Building density index below 15 or above 20?	Yes

#### 7. COMMENTS/ISSUES

School made Adequate Yearly Progress for 2008-09, but is still in first year of School Improvement status. School must meet AYP for two consecutive years to be removed from School Improvement status.

Sitton added two full day Head Start classrooms in January 2010.

R&E report of 07/22/2009 set Meets and Exceeds rates for 3rd grade Reading at 62% and Math 50%, 5th grade Reading at 63% and Math at 52%. Sitton houses 2 Life Skills classrooms, accounting for 6 staff members and 26 students. This effects building density index. As a Title 1 school all of our staff is HQ and appropriately assigned.

#### 7. COMMENTS/ISSUES

Skyline is a candidate school for the IB PYP and MYP Programmes. 29.6% (87 of 294) of Skyline's student body is made up of transfers. There is limited space for additional student growth due to the increase in numbers over the past 5 years.

Building density index below 15 or above 20?	n/a

#### 7. COMMENTS/ISSUES

A public charter school is a separate legal entity operating under a binding charter agreement with a sponsor. A sponsor is either the school district in which the public charter school is located, or, rarely, the State Board of Education. A public charter school is governed by its board of directors and not by the sponsoring district.

As a result, full data are either not available or not comparable for inclusion in these School Profiles. Therefore, Sections 1, 3 and 6 contain limited or no data. Enrollment and achievement history data depend on the formation date and grade span of the individual school.

Please direct questions about a charter school to the school. Charter school contact information and descriptions are available on the district's website. Click Schools on the main page, then scroll down to and click Charter Schools.

Please direct general questions to Kristen Miles at 503.916.3359 or [kmiles@pps.k12.or.us](mailto:kmiles@pps.k12.or.us).

#### 7. COMMENTS/ISSUES

Wilson's enrollment numbers mirror reductions in students in PPS. We continue to attract over 85% of our neighborhood students and offer a full array of programs and services.

School not making Adequate Yearly Progress; however, school does not receive Title-I and therefore no sanctions apply.

# Enrollment Data Analysis

## 1. Budget and Staffing

School Budget Per Student – Dollars budgeted for current year at each school divided by the total enrollment at that school as of October. Funds included are general funds (personnel, supplies, operations); grant funds (including Federal grants such as Title 1-A), and special revenue funds (including tuition paid for fee-based full-day kindergarten, and funding of personnel through fundraising/donations). Capital expenditures and centrally budgeted functions such as utilities and custodial services, Special Education and English as a Second Language services are not included. (Source: PeopleSoft Financial System – Budget Office)

Budget Rank (range) – Rank of this school's Budget per Student from highest (1) to lowest (number in range) within schools of similar level (e.g., elementary - 27: PK/K-5; multi-level - 33: PK/K-8, PK/K-12); middle school - 10: 6-8; high school - 15: 6-12, 9-12.

Free & Reduced – Percentage of this school's students (as of October count), whose families meet the income or other qualification for Free or Reduced Price Meals under federal nutrition program guidelines. Under regulations, certain programs including Headstart, Residential Child Care Institutions, as well as two schools (Humboldt and King) are deemed 100% eligible. Community Based Alternative Programs and Charter schools do not use the PPS Nutrition Services Program and thus Free and Reduced data shown may be lower than potential eligibility, but are not verified through eSIS at this time. (Source: PPS Data and Policy Analysis; Nutrition Services; eSIS)

School Receives Title I Funds? - Does this school qualify for federal Title 1 grant funding in the current year? Yes or No. To receive a dollar allocation under this grant, the school percentage of students qualifying for Free & Reduced Price Meals (see above) must be 40% or higher, for elementary and middle schools; 75% or higher for high schools. Current year qualification for federal Title 1 grants is usually based on Free & Reduced percentages from the prior year. (Source: PPS Title 1 Office)

Special Education – Percentage of October enrollment at each school with records flagged indicating participation in Individualized Education Plans (IEP), that is, Special Education program students. (Source: eSIS Fall Membership Report)

English Language Learners – Percentage of October 2009 enrollment that are English Language Learners eligible for ESL/Bilingual Services based on a language other than English spoken in the home and a language proficiency assessment indicating limited English proficiency. (Source: ESL Department)

## Enrollment Data Analysis

Talented and Gifted – Percentage of October 2009 enrollment that have been identified as academically talented, intellectually gifted or TAG potential as measured by Talented and/or Gifted Program criteria. (Source: eSIS Membership Report)

Licensed FTE Allocation – An **FTE** (Full Time Equivalent) is defined as a regular staff (administrative, licensed, or classified) position scheduled to work eight hours per day. FTE does not count people, but positions. Two individuals who each work half time (4 hours per day) equal 1.0 FTE.

A **Licensed** FTE refers to certified staff such as teachers, counselors, media specialists, psychologists, social workers, nurses, athletic trainers, occupational speech, and physical therapists. For **allocation** purposes, licensed “equivalents” are used for comparison. For this calculation, two (2) classified FTE is equivalent to one (1) licensed FTE. Allocations are shown as licensed equivalent so that comparisons can be made across schools. Since principals choose different balances between teachers (licensed) and educational assistants (classified), a common measure – FTE in licensed equivalents is applied to allocate and compare resources across schools.

General Fund Staffing Allocations are based on each school’s average enrollment – Average Daily Membership, adjusted for projected demographic trends, and school reconfigurations. General Fund allocations were divided into three categories –

Administrative Support FTE provides for Principal/Assistant Principals and Secretaries, and Counselors (depending on type and size of school);

Ratio FTE based on a student to teacher ratio that varies by school level (for 2009-10 school year: elementary schools and multilevel schools 23.4:1; middle schools 23.4:1; and high schools 22.9:1);

SES FTE a socio-Economic Status Factor by which five percent of the FTE allocation is based on the percentage of students at each school who are eligible for Free or Reduced Price Meals under federal nutrition service program guidelines. In High Schools, only schools with percentage eligibility greater than 40% received an SES allocation.

Additional allocations shown as One Time Adjustments were made based on special circumstances or particular need. These include FTE allocations designated by Deputy Superintendents to deal with other special circumstances.

These first several categories are funded by general funds of the district. The remainder of the staffing information shown represents positions funded by Grant and Special Revenue sources that have special purposes and restrictions on use.

# Enrollment Data Analysis

Title 1 shows the amount of staff (in licensed equivalents) that were purchased with a school's federal Title 1 grant allocation. Within some general constraints, each school decides the proportion of its grant that is spent on staffing. This space will be blank if the school did not qualify for Title 1 funding.

Foundation and Fee-For-Service K shows the number of licensed equivalent FTE purchased by the school using local fundraising and donations (foundation) and fees paid by parents for Full Day Kindergarten programs. Note: These FTE are determined on a school basis and are not part of general fund allocations.

Other Grants is the number of FTE provided through grants other than Title 1. These might include state, federal or private grants obtained by the district or school for specific programs.

(Source: Staffing Management Tool (SMT), Budget Office)

## 2. Enrollment Characteristics

Enrollment – Enrollment counts include students enrolled in Portland Public Schools. Counts were compiled on the first school day in October of each year. An enrolled student is defined as a student who attends one or more schools or programs within the District. Regardless of the number of schools or programs attended, each student is counted only once; the counts are unduplicated.  
(Source: eSIS Membership Report)

PK – Pre Kindergarten students, K – Kindergarten students, 1 through 12 – first through twelfth grade, N/A – grade not available, or students not assigned a grade.

Projected Enrollment in 2014 (K-12) – Enrollment projection for students Kindergarten through twelfth grade developed by Population Research Center, College of Urban and Public Affairs, Portland State University. (Note that enrollments for 2005-2009 shown above may include Pre-K students and thus must be adjusted for comparisons.)  
(Source: Portland Public Schools Enrollment Forecast 2009-10 to 2020-21, Prepared by PSU Population Research Center, November 2009)

Racial/Ethnic Background - Percentage of various racial/ethnic backgrounds as reported in October 2009 enrollment counts. Hispanic Ethnicity includes students who are identified as Hispanic/Latino or Hispanic/Latino and any race. Asian includes Asian and/or Pacific Islander. Multiple Races category includes students who are identified as two or more races, exclusive of Hispanic/Latino, or Asian and Pacific Islander. (Source: eSIS Membership Report)

# Enrollment Data Analysis

## 3. Neighborhood Attendance Characteristics

Neighborhood PPS Student Population - Number of Portland Public School students who reside in the neighborhood boundary surrounding the school being profiled. The breakdown below describes by category where the PPS students who live in the neighborhood attend school. (Note: This number does not include students who live in the area but who attend private schools, are home-schooled, attend school in other school districts, or who do not attend school.)

Some special focus schools do not have a neighborhood boundary since they draw students from many areas of the District. This section is not applicable to schools lacking neighborhood boundaries.

Attending (Name of School in this Profile) – Number and percentage of neighborhood student population defined above that attend their neighborhood school. The percentage of neighborhood students attending their own neighborhood school is sometimes referred to as the school’s *capture rate*. Head Start Early Childhood Education is excluded from the neighborhood calculation, since its inclusion would tend to lower the capture rate at and near the limited number of schools at which the program operates.

Other PPS Neighborhood Schools - Number and percentage of neighborhood student population attending a neighborhood school other than the school in this profile.

Selected Special Programs/Focus Options – Number and percentage of neighborhood student population attending one of the schools or programs listed below that because of their design draw students districtwide: Benson High School, Richmond Elementary (Japanese Immersion), Winterhaven, Alliance High School, daVinci Middle School, Metropolitan Learning Center, Native Montessori Program, Portland Evening H.S., ACCESS program at Sabin Elementary, Odyssey Program at Hayhurst, Buckman Arts Focus School, Creative Science School Program, Ockley Green K-5 Arts, and Sunnyside Environmental School, Jefferson-Tubman Academy for Young Women and Jefferson-Johnson Academy for Young Men. Also included are the Japanese Immersion programs at Mt. Tabor and Cleveland; Mandarin Immersion programs at Woodstock, Hosford and Cleveland; Russian Immersion program at Kelly; Spanish Immersion programs located at Ainsworth, Atkinson, Beach, Bridger, Clarendon, Cleveland, Hosford, Lent, Lincoln, Rigler and West Sylvan. Not all special focus programs at high schools are included here due to shortcomings of the data.

When a neighborhood student attends a special program/focus option that is located at their neighborhood school, they are counted as attending their neighborhood school. For example, if a Hayhurst neighborhood student attends Odyssey program at Hayhurst, they are counted as attending Hayhurst rather than

# Enrollment Data Analysis

as attending a special program/focus option. This assumption is applied to Odyssey at Hayhurst, Buckman Arts, Sunnyside Environmental School, as well as Language Immersion programs located in Neighborhood Schools.

Neighborhood calculations for Roosevelt and Marshall Campuses are at the campus rather than the small school level.

PPS Charter Schools – Number and percentage of the neighborhood student population attending one of the District Charter schools: Arthur Academy, CM2’s Opal School, Emerson Public Charter, Leadership and Entrepreneurship High School, Portland Village School, Self Enhancement Academy or Trillium Public Charter.

Special Services – Number and percentage of the neighborhood student population attending special education administered programs not in schools, day and residential treatment, and other special services.

Community Based Alternative Programs – Number and percentage of the neighborhood student population attending contract based alternative programs such as Albina Youth Opportunity School, DePaul Center, LISTOS, Mt. Scott Park Center for Learning, NAYA Early College Academy, New Avenues for Youth, Open Meadow, various PCC programs, Quest Schools, POIC, YouthBuilders, and others.

## 4. Educational Programs

### Achievement Scores – Percent Meeting or Exceeding Benchmarks

Where available, a three year history is shown for Reading and Math test results for third, fifth, eighth and tenth grades as compiled in Portland Public Schools Research and Evaluation/Adequate Yearly Progress Reports. The scores for determining which students meet standards changed in 2006-07. The change made it harder for elementary students to meet/exceed standards, easier at high schools, and about the same for middle schools students.

<http://www.pps.k12.or.us/depts-c/rne/results/2009/>

## 5. School Environment

This section shows selected data intended to summarize important indicators of school environment. In each case two measures are shown: a measure of the school profiled and an average on this same measure across all schools in the relevant group. Thus each elementary school (PK/K-5) is compared to the average comprised of all elementary schools, each Multi-level school PK/K-8 or K-12 school is compared to the average across Multi level schools, each Middle School (6-8), against the Middle School average, and High Schools (9-12, 6-12)

## Enrollment Data Analysis

against the High School average. These measures are calculated on an annual basis and thus the numbers shown are for the 2007-08 school year.

Highly Qualified Teaching Assignments. Under federal government legislation associated with the No Child Left Behind Act (NCLB), public school teachers must meet a set of standards associated with the level and type of subjects that they teach. The numbers shown indicate the percentage of core academic subject teaching assignments taught by highly qualified teachers at each school and a district average for similar schools. NCLB defines core academic subjects as English, Reading or Language Arts, Mathematics, Science, some World Languages (French, German, Spanish, Russian, Latin and Japanese), Social Studies, and the Arts.

Teacher Experience. This is the average number of years of teaching experience of teachers at each school and the average of similar schools in the District. Average years are weighted by the full time equivalent for each teacher. Thus a half-time teacher would be half-weighted in the calculation.

Substitute Usage. This is the total number of days of substitute usage at each school by individuals in teaching positions divided by the average number of licensed teachers (and other such as counselors and media specialists who receive substitutes when teaching classes) at the school during the year, to derive a proxy for average rate of substitute usage at each school and the average of similar schools in the District. Special education and ESL teachers are included in this measure.

Average Daily Attendance. This number, derived from individual student data indicates the percentage of enrolled students who were present (in attendance) averaged across all school days during the school year. The Comparable District Average is the Average Daily Attendance for all schools in the comparable category (elementary, multi-level (PK/K-8, PK/K-12), Middle School or High School).

Average Class Size. This statistic for each school reflects the average number of students in homeroom or self contained classrooms (generally grades K-5, but sometimes also 6-8); or, for higher grades, on the average number of students in classes defined as “core” and other subjects. Classes taught by Special Education and ESL teachers are excluded from this calculation. This is a “snapshot” as of December 3, 2008. (Sources: eSIS and Staffing Management Tool (SMT). Students were matched with teachers, course codes, period of day, and room assignments.)

Stability Index. This is a measure of students who are enrolled for at least 145 days of the school year (approximately 175 days) divided by the official October enrollment count. Students who are not enrolled for the full year include those

# Enrollment Data Analysis

students who enroll after the start of the school year, students who leave before the end of the school year, and students who are enrolled sporadically. Those schools with results closer to 100% are likely to have a more stable student population than those with a lower percentage. Another measure (not shown in the school Environment section, but shown in the summary tables in the District Summary section of this publication) identifies the amount of student mobility there is in a school, by calculating a *Late Enrollee Ratio*, which measures how many students arrive after the first day in October.

Student Expulsions. Number of students expelled during the school year as a percentage of October enrollment. The comparable district average is based on average expulsions for the school type as described above.

Student Suspensions. Number of students suspended from school (out of school suspension) during the school year as a percent of October enrollment. If one student were to be suspended more than one time, the count would not be duplicated. The comparable district average is based on the average suspensions for the school type as described above.

## 6. Enrollment Indicators

These calculations are indicators that additional data and further review of the school may be needed.

Declining Enrollment. Student loss  $\geq 5\%$  since 2008 AND  $\geq 15\%$  since 2005? Yes if enrollment has declined by 5% or more compared to the prior year, accompanied by an enrollment decline of 15% or more over the past four years. No if enrollment has not met these conditions.

Neighborhood Capture Rate. Yes if the number of neighborhood students attending this school is less than 55% of Portland Public schools students who live within this school's neighborhood boundaries. No if 55% or more of neighborhood students attend this school.

Density Index. October 2009 Enrollment divided by Number of Classrooms. This is intended as an indicator of the classroom capacity of the building compared to the number of students using the physical space. A high number could indicate crowding; a low number might indicate potential excess capacity. This index is a broad indicator of capacity, and must be considered in light of actual space usage for special education classes, computer labs, Head Start classrooms, ESL and Title 1.

Number of Classrooms. Actual number of "potential" classroom space in a school including classrooms housing standard education programs, other district programs, outside programs/partnerships, Special Education classes, English

# Enrollment Data Analysis

Language Learner classes, and vacant rooms. Generally this number is greater than the number of rooms used for standard classroom purposes. (Prepared by PPS Facilities and Asset Management, Classroom Use Survey, December 2004, and updated for the placement of modular buildings since that date.)

Building Density Index. Yes if the school's enrollment divided by the number of classrooms is less than 15 or greater than 20. No if the school's enrollment divided by the number of classrooms is between 15 and 20. Note that a building density index greater than 20 means there is little or no room left for growth in that facility, whereas a number less than 15 may indicate the potential for excess capacity.

## 7. Comments/Issues

This section is intended for comments or mitigating factors with respect to the enrollment indicators (shown above) or for clarification of other data presented. This section is to be completed by the Principal and/or Deputy Superintendent. It may be left blank.

## Portland Public Schools Nondiscrimination Statement

Portland Public Schools recognizes the diversity and worth of all individuals and groups and their roles in society. All individuals and groups shall be treated with fairness in all activities, programs and operations, without regard to age, color, creed, disability, marital status, national origin, race, religion, sex, or sexual orientation.

Board of Education Policy 1.80.020-P
