PORTLAND PUBLIC SCHOOLS

Student Discipline Referrals, 2011-12

Major Discipline Referrals by Program Type, School and Ethnicity

(Percentage of Ethnic Group Enrollment in October)

			White		African American		American Indian / Alaskan Native		Asian/Pacific Islander		Hispanic		Multiple		Total	
ODE #	School	Type	#	%	#	%	#	%	#	%	#	%	#	%	#	%

All percentages are of October Enrollment, ethnicity percentages show are students and incidents of that ethnicity divided by the count of students enrolled in October of that subgroup.

*Discipline counts an rates are suppressed where enrollment falls below 6 students. Percents based on a small number of students are not statistically sound and do NOT support comparison.

¹ For most of the schools and programs reported here, October enrollments are representative of the total number of students served throughout the school year, and thus a reasonable basis for calculating suspension and expulsion rates. However, for Alliance HS, an alternative high school serving 16- to 21-year olds previously unsuccessful in traditional high school programs, the total number of students served during the school year may be as many as 2 to 3 times greater than October enrollments. Consequently, suspension and expulsion rates reported for Alliance HS should be viewed with caution. Pioneer Programs, similarly take students throughout the school year, therefore October Enrollment is not a good representation of the total students served.

Major Discipline Referrals are out-of-school suspension (exclusion from school for at least one but not more than 10 days) and expulsion. Counts of students referred are unduplicated within a school. For example if a student at one school received two out-of-school suspensions and one expulsion, that student will be counted once in the student row, with three major incidents being included for that student in the total incidents row for that school.

Caution should be exercised when comparing discipline data across schools and years. Although District policies and regulations increase consistency in addressing and reporting student discipline incidents, corrective action is based on an understanding of the individual student and ultimately determined by the best professional judgment of the administrator.

Race/Ethnicity. Definitions of race/ethnicity categories used in these calculations changed in 2009. In 2008/09, students who identified as Hispanic/Latino and one or more other category were included in the Multiple category. Beginning in 2009/10 such students were included in the Hispanic/Latino category. In 2009, the Asian/Pacific Islander category was divided into two separate categories. It is shown here combined for comparability with the 2008 data. Prior to 2010 there was a category for students of Undetermined or Unknown race/ethnicity. This category was quite small and no longer exists, so is not shown above.
