

SBAC Operational Tech Skills Grades 3 & 4

SBAC Tech Skill	Drag & Drop
NETS Standards	Standard 6. Technology Operations & Concepts <i>Students demonstrate a sound understanding of technology concepts, systems and operations.</i>
Guiding Questions	Choose one of the selected sites Demonstrate how to drag and drop by answering the following questions: <ol style="list-style-type: none"> 1. How do you draw a line from one object to another or across the page? 2. How do you use your mouse to select the object? 3. How do you move an object?
Guiding Questions 1/2-Friendly Answers	<ol style="list-style-type: none"> 1. In order to draw a line from one object to another or across the page, bring your cursor to the location where you would like your line to begin, then click and keep holding your pointer finger down. Finally, drag your cursor, while still holding your finger down to the object or location where you wish to place the line. 2. You use your mouse to select an object by clicking it and holding down the click with your pointer finger. 3. You move an object by clicking on the object with your cursor and holding the click down. You then drag the object, while still holding your pointer finger down, to the location you wish to drop the object.
1/2-Friendly Vocabulary	<ul style="list-style-type: none"> ● select - choosing something on a website, or computer program; usually it is highlight blue or will move when you select it ● drag and drop - picking up an object, or thing, on your screen and putting it down
Independent Practice	Students are to use any of these sites: <ul style="list-style-type: none"> ● Thinking Blocks ● Clean Up Your Grammar
Checking for Understanding	Circulate the room and have each student answer the 3 guiding questions through demonstrating the targeted skills.
