December 2, 2020

To the Community of School District No. 1J, Multnomah County, Oregon, and to the Members of the Board of Education:

We are pleased to submit the Comprehensive Annual Financial Report (CAFR) of School District No.1J, Multnomah County, Oregon (Portland Public Schools or the District or PPS) for the fiscal year ended June 30, 2020, together with the audit opinions of our auditors as required by Oregon Revised Statutes. Responsibility for both the accuracy of the presented data and the completeness and fairness of the presentation, including all disclosures, rests with District management. We believe the financial statements and related information reflecting the financial position and results of the operations of the District are stated fairly in all material aspects. All disclosures necessary to enable the reader to gain understanding of the District's financial affairs have been included.

To provide a reasonable basis for making these representations, District management has established and maintains an internal control structure designed to ensure that the assets of the District are protected from loss, theft or misuse and to ensure that adequate accounting data are compiled to allow for the preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP). Our internal control structure is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived; and (2) the valuation of costs and benefits requires estimates and judgments by management. The internal control structure is subject to periodic evaluation by management. We believe our internal control structure adequately safeguards the assets and provides reasonable assurance of proper recording of all financial transactions. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

Financial Report Presentation

The financial statements of the District are prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the governing body and establishes governmental accounting and financial reporting principles. The more significant of the District's accounting policies are discussed in Note 1 of these financial statements.

Designed to meet the needs of a broad spectrum of financial statement readers, this Comprehensive Annual Financial Report (CAFR) is divided into four major sections:

The **Introductory Section** includes the table of contents, this transmittal letter, the District's organizational chart, and copies of certificates awarded for Portland Public Schools' 2019 CAFR.

The **Financial Section** includes the Independent Auditor's Report, Management's Discussion and Analysis (MD&A), the basic financial statements including notes to the basic financial statements, required supplementary information (RSI), and supplementary information including the combining and individual fund financial statements.

The **Statistical Section** includes selected financial and demographic information, generally presented on a multi-year basis. These schedules are designed to improve the understandability and usefulness of the information presented in the financial section.

The **Audit Comments and Disclosures Section** includes disclosures required by the Minimum Standards for Audits of Oregon Municipal Corporations.

GAAP requires that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management’s Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The District’s MD&A can be found immediately following the Independent Auditor’s Report.

Profile of the District

Portland Public Schools, founded in 1851, is a PK-12 urban school district in Portland, Oregon. With more than 49,000 students in 121 schools and other programs, it is one of the largest school districts in the Pacific Northwest, and the largest and oldest school district in Oregon. With highly trained teachers and staff, an engaged parent community, strong partnerships, and a focus on closing the racial educational achievement gap, the PPS graduation rate has consistently improved since 2009-10. Thanks to the state Legislature, school funding is improving and thanks to Portland voters, a PPS School Building Improvement Bond is now fueling the modernization of our aging school buildings for 21st century learning.

The District covers an area over 152 square miles, including portions of the cities of Portland (total population 654,741), Lake Oswego (total population 39,822), and Milwaukie (total population 20,990), based on 2019 estimates by the [U.S. Census Bureau, Population Estimates Program \(PEP\)](#). The District maintains over 100 campuses with more than 300 buildings and a total floor area of more than 9 million square feet. Please see Schedule 17 of the Statistical Section for details of each building’s size, age and enrollment.

Student enrollment as of October 2019 was 49,478. Enrollment counts are compiled annually on or about the first of October as required by the State of Oregon. An enrolled student is defined as a student who attends one or more schools or programs within the District. Regardless of the number of schools or programs attended, each student is counted only once; the counts are not duplicated.

Beginning in 2009, the District experienced increases in enrollment every year until 2018-19. Enrollment counts from October 2019 show that total enrollment decreased by 72 students from the previous year. Demographic studies conducted by Portland State University project enrollment levels fluctuating over the next 12 years, increasing by over 600 students and reaching a high in 2021-22 and then declining by nearly 3,000 students over the following eight years in the PSU “Middle Series Forecast” scenario. Overall enrollment impacts due to the COVID-19 pandemic are only just beginning to be seen and the long-term implications are yet to be fully understood. Additional detail regarding that enrollment projection may be found at: https://www.pps.net/cms/lib/OR01913224/Centricity/Domain/207/PSU-PPS_Report_1920.pdf.

The Board of Education

An elected seven-member board establishes and oversees the District’s policies. The Board of Education is the chief governing body and is exclusively responsible for its public decisions. A list of board members can be found on page 10 of this report. The chief administrative officer of the District is the Superintendent, who is appointed by the Board. The Board of Education is accountable for all fiscal matters that significantly affect operations. Guadalupe Guerrero is the Superintendent of Portland Public Schools. Mr. Guerrero served as the chief administrative officer of the district for all of 2019-20.

Budgetary Controls

Under Oregon Revised Statutes (33.710), school districts are municipal corporations empowered to provide elementary and secondary educational services for the children residing within their boundaries. Portland Public Schools fulfills this responsibility by building, operating, and maintaining school facilities, developing and maintaining approved educational programs and courses of study (including career/technical educational programs and programs for English language learners and special-needs students), and providing for transportation and feeding of students in accordance with District, State and Federal program guidelines. This report includes all funds of the District.

The District is required by the State of Oregon to adopt an annual budget for all funds subject to the requirements of Municipal Audit Law as outlined in the 2017 Oregon Revised Statutes 297.405 to 297.555 and 297.990. The budget for each individual fund is a plan for the financial operations to be conducted during the coming fiscal year and is adopted annually, prior to July 1, by the Board of Education after certification by the Multnomah County Tax Supervising and Conservation Commission. The appropriation categories within each fund, making up the District's budget are: Instruction, Support Services, Enterprise & Community Services, Facilities Acquisition & Construction, Debt Service, Transfers Out, Contingency and Ending Fund Balance. After adoption, the budget may be amended through procedures specified in State statute and Board policy.

District Budget Principles

The District's governing body adopted budget principles, by way of resolution number 5229 at its March 8, 2016 meeting. These principles remain in effect today. Exhibit A to that resolution provides detail for each of the principles, but for the sake of brevity, only the principles are presented below. These principles, along with the District's Vision, System shifts and the Board adopted goals, shape the financial planning and analysis activities for the district.

- Providing Students with an Exceptional Educational Experience and Ensuring their Academic Success Should Drive the Budget Process
- Decisions Should Be Driven by Data
- Base Resourcing Decisions on Cost-Effectiveness
- Prioritize the Core Program in All Schools
- Critically Re-Examine Patterns of Spending
- Provide Every Student with Equitable Access
- Take a Long-Term Perspective
- Be Transparent

Service Efforts and Accomplishments

Portland Public Schools' vision is this: Every student, every teacher, and every school succeeding. The school district's mission is that every student by name is prepared for college, career and participation as an active community member, regardless of race, income or zip code.

On June 25, 2019, the Board of Education passed Resolution 5909, Portland Public Schools reimagined: Preparing Our Students to Lead Change and Improve the World as the District's Vision. This Vision focuses on what we want to be true for our graduates and includes four main areas: a Graduate Portrait, Educator Essentials, System Shifts and Core Values.

On October 15, 2019, the Board adopted by Resolution 5984, Portland Public Schools Board Goals for 2019-22. These include the following academic goals for our students that align with the community and District vision of the Graduate Portrait:

- Third Grade Reading
- Fifth Grade Mathematics
- Eighth Grade Graduate Portrait
- Post-Secondary Readiness/Ready for College & Career

The Vision, accountability metrics and the theory of action will continue to shape and define the financial planning and decision making as well as serve as the District's roadmap.

The PPS four-year graduation rate has improved from 70.4 percent for the Class of 2014 to 80.5 percent for the Class of 2019 (most recent year available from Oregon Department of Education). This rate exceeds the average graduation rate for the State of Oregon.

Source: ODE Statewide Assessments - <https://www.oregon.gov/ode/educator-resources/assessment/Pages/Assessment-Group-Reports.aspx>

Assessment scores for English Language Arts and Math are additional metrics included in Department of Education scorecards. For each of the last three years, PPS has outperformed the statewide averages.

While the district still has significant work to do in improving student outcomes, trends of these key metrics indicate that efforts are moving the District in the right direction, as is evidence by our [Mid-year Progress](#) report to the board in early March 2020.

Factors Affecting Financial Condition

The information presented in the financial statements is perhaps best understood when it is considered in the broader perspective of the specific environment within which the District operates.

PPS derives about 80 percent of its General Fund revenues from the State School Fund and the associated funding distribution formula. Roughly half of the State School Fund money comes via the appropriation made by the state legislature, while the other half is the aggregate of the local permanent rate property taxes from school districts across the state. The state budget and the legislative appropriation are highly dependent upon state revenues through income taxes. The outlook for the state economy is a leading indicator for the health of this revenue stream and is, therefore, of great importance for PPS.

The second largest revenue item for PPS - at almost 15 percent of General Fund revenues - is its local option levy which is a property tax based upon assessed values of property in the PPS taxing district, and which is also significantly influenced by real market values of homes within the PPS taxing district.

Oregon State Economy – In June of 2020, Oregon’s unemployment rate jumped to 11.6 percent from January’s low of 3.3 percent. It is the highest unemployment rate since 2010, and the economic realities of the COVID-19 quarantine and restrictions that went into place in early spring are beginning to be seen. While current forecasts are indicating that the impacts will not be as bad as initially projected, there is limited agreement on the long-term forecast for both the state and national economy.

Source: Bureau of Labor Statistics, Unemployment Data

Approximately 169 thousand jobs were lost over the past year, contributing to a total workforce decrease of 8.7 percent from June 2019 to June 2020. The Leisure & Hospitality sector was the hardest hit, with 67 thousand jobs lost, representing 40 percent of the total year-over-year job losses.

Local Economy – Portland and the surrounding metropolitan area has a widely diversified economy. Its centralized location and excellent transportation facilities have established the area as a major distribution point on the West Coast for wholesale trade and high-tech exports. During 2019-20, Education, Health Services, and Hospitality accounted for 24.4 percent of the city’s economy while the Trades, Transportation and Utilities made up another 19.3 percent.

Portland Real Estate Market – The District’s five-year Local Option Levy property tax was renewed in November 2019 for a new five-year term. We are very grateful for this continued support. The local option levy has resulted in increased revenue for PPS. However, the benefit to PPS of this levy is reduced because of Measure 5 property tax limits, known as “compression”. Market value of residential property, the critical variable in calculation of compression, declined for several years during the recession. This had the effect of reducing the amount that PPS collected through the local option levy. This resulted in lower direct revenue for PPS from the local option. Compression is calculated on a property by property basis, which makes local option revenue notoriously hard to forecast. Market values for residential property increased modestly in 2012 and more significantly from 2013 through 2020, reversing the trend and unwinding some of the compression.

Long Term Financial Planning and Major Initiatives - For many years, the District did not have adequate funds for capital improvements. In 2012, PPS updated its long-range facilities plan with the assistance of an advisory committee of more than 30 community members that brought a variety of professional perspectives as well as that of teachers, parents, and other interested participants. This committee held a series of community meetings, reaffirmed the need for a capital bond, and laid the foundation for the Board’s deliberation on a bond proposal and the criteria for definition of projects to be financed.

In November of 2012, the voters of the district authorized Portland Public Schools to issue up to \$482 million of general obligation bonds to improve school buildings, with 67 percent of voters supporting this capital investment program. This was a landmark accomplishment for PPS after many years of work and we are enormously grateful to the voters in this district for their continued support of PPS and for public education in our district.

The major projects at Roosevelt, Franklin and Faubion schools were completed in the fall of 2017. Grant High School was completed in time for the start of the 2019-20 school year.

A second \$790 million capital bond was passed by voters in May 2017. This bond will fund renovations and additions at Benson and Madison High Schools, and full rebuilds of Lincoln High School and Kellogg Middle School. Approximately 30 percent of the budgets for these projects comprehensively address health and safety issues.

The School Board approved the master plan for the new Kellogg Middle School and demolition has been completed. The current project schedule has Kellogg ready for new students at the start of the 2021 school year. The master plan for Madison High School was approved in May 2018 and demolition and construction began in the summer of 2019.

A third \$1.2 Billion capital bond was passed by voters in November 2020. This bond will fund additional health and safety projects across the district, replace textbooks and technology equipment districtwide, modernize Jefferson High School, complete Benson Polytechnic High School, plan additional neighborhood school projects and continue design and planning to modernize Cleveland and Wilson High Schools. PPS remains committed to deliver robust high school and middle school projects as envisioned by the voters, steward bond resources prudently and efficiently, and build and maintain the trust of voters in our community.

Charter Schools

Oregon statute provides state funding for charter schools flow through the District for schools that local school boards of education have granted a charter. The District had six charter schools in operation during the 2019-20 fiscal year, which is one less than the previous year. Trillium Charter School ceased operations at the end of the 2018-19 school year due to revocation of their charter after failing to meet the requirements of a district-issued improvement plan. Because of their size relative to the District, the charter schools do not fall under the component unit reporting requirements set forth by GASB Statement No. 39.

Independent Audits

The provisions of Oregon Revised Statutes require an independent audit of the financial records and fiscal affairs of the District. The auditors selected by the Board of Education, Talbot, Korvola & Warwick, LLP, have completed their audit of the basic financial statements and, accordingly, have included their unmodified Independent Auditor's Report in the financial section of this report.

Uniform Administrative Requirements, Cost Principles and Audit Requirements for Federal Awards (Uniform Guidance) require state and local governments that expend \$750,000 or more in federal assistance in a year have a special form of audit conducted for that year. Since 1989, Portland Public Schools has issued a separate report on these requirements. Talbot, Korvola & Warwick, LLP have also provided various required reports. Contained in the separately issued Report on Audit Requirements for Federal Awards is the Schedule of Expenditures of Federal Awards, and the required reports on internal controls and compliance with laws and regulations.

Awards and Acknowledgments

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the District for its Comprehensive Annual Financial Report for the fiscal year ended June 30, 2019. This was the 40th consecutive year that the District has achieved this prestigious award. In order to be awarded a Certificate of Achievement, a governmental entity must publish an easily readable and efficiently organized CAFR that satisfies both GAAP and applicable legal requirements. A Certificate of Achievement is valid for a period of one year only. We believe our current report continues to conform to Certificate of Achievement Program requirements, and we are submitting it to GFOA to determine its eligibility for this coveted Certificate.

The Association of School Business Officials International (ASBO) awarded its Certificate of Excellence in Financial Reporting to the District for its Comprehensive Annual Financial Report for the fiscal year ended June 30, 2019. This was the 40th consecutive year that the District earned this significant award. Receiving the Award is recognition that the District has met the highest standards of excellence in school financial reporting as adopted by ASBO. The District believes that this 2020 CAFR, which will be submitted to ASBO for review, will also conform to these standards.

We wish to express our appreciation to the staff of the Finance Department and members of other District departments who assisted in the preparation of this Comprehensive Annual Financial Report. We further extend our appreciation to the members of the Board of Education, employees of the District, and all of the Portland community whose continued cooperation, support, and assistance have contributed greatly to the achievements of Portland Public Schools.

Respectfully submitted,

Claire Hertz, Deputy Superintendent Business & Operations

INDEPENDENT AUDITOR’S REPORT

Board of Education
School District 1J, Multnomah County, Oregon
Portland, Oregon

REPORT ON THE FINANCIAL STATEMENTS

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of School District No. 1J, Multnomah County, Oregon (the District), as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the District’s basic financial statements as listed in the Table of Contents.

MANAGEMENT’S RESPONSIBILITY FOR THE FINANCIAL STATEMENTS

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

AUDITOR’S RESPONSIBILITY

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the District’s preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District’s internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

INDEPENDENT AUDITOR'S REPORT (Continued)

OPINIONS

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the District, as of June 30, 2020, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

OTHER MATTERS

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Required Supplementary Information, such as Management's Discussion and Analysis, Schedule of Changes in the District's Total OPEB Liability and Related Ratios-RHIS, Schedule of the District's Proportionate Share of Net OPEB Liability (Asset) and District Contributions-RHIA, Schedule of the District's Proportionate Share of Net Pension Liability (Asset) and District Contributions, Schedule of Changes in the District's Total Pension Liability and Related Ratios-Stipend, and Notes to the Required Supplementary Information, as listed in the Table of Contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Accounting principles generally accepted in the United States of America require that the budgetary comparison information for the General Fund and Special Revenue Fund listed in the Table of Contents as Required Supplementary Information, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. The budgetary comparison information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the budgetary comparison information is fairly stated in all material respects in relation to the basic financial statements as a whole.

INDEPENDENT AUDITOR'S REPORT (Continued)

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The other schedules and combining statements, listed in the Table of Contents as Supplementary Information, are presented for purposes of additional analysis and are not a required part of the basic financial statements. The Supplementary Information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Supplementary Information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The accompanying Introductory and Statistical sections, as listed in the Table of Contents, have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

REPORTS ON OTHER LEGAL AND REGULATORY REQUIREMENTS

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 2, 2020, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

Other Reporting Required by Oregon Minimum Standards

In accordance with *Minimum Standards for Audits of Oregon Municipal Corporations*, we have also issued our report dated December 2, 2020, on our consideration of the District's compliance with certain provisions of laws and regulations, including the provisions of Oregon Revised Statutes as specified in Oregon Administrative Rules. The purpose of that report is to describe the scope of our testing of compliance and the results of that testing and not to provide an opinion on compliance.

SCHOOL DISTRICT NO. 1J, MULTNOMAH COUNTY, OREGON
Management’s Discussion and Analysis

As management of School District No.1J, Multnomah County, Oregon (Portland Public Schools or the District or PPS), we offer readers this narrative overview and analysis of the financial activities of Portland Public Schools for the fiscal year ended June 30, 2020. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal, which can be found on pages 1-9 of this report.

FINANCIAL AND BUDGETARY HIGHLIGHTS

Budget

On June 25, 2019 the Board of Education (the Board) adopted the fiscal year 2019-20 budget by way of Board Resolution No. 5913. On April 7, 2020, the Board voted to amend the 2019-20 budget, by way of Board Resolution No. 6093. This one and only Amendment to the budget allocated appropriation levels in various funds that more accurately reflected intended expenditures of additional resources to advance the District’s priorities.

- **General Fund:** \$18.2 million was allocated across Instruction and Support Services in support of Social Emotional Support (SES) classrooms, teen parent program, athletics and technology.
- **Special Revenue Fund:** \$2.8 million was allocated across various appropriations to reflect additional grants and E-Rate funding as well as a reduction in the transfer from the PERS Rate Stabilization Fund.

Beginning in 2019-20, budget appropriation was changed to the major fund level. See the budgetary comparison schedules within the required supplementary information and other supplementary information sections of the report for a breakdown of prior year ending fund balance.

With the 2019-20 budget, the District continued its focus on student achievement, closing racial achievement gaps, and improving student health and safety. The main priority for the 2019-20 school year was to transform school and student achievement by providing differentiated levels of supports and resources to our Title I, Comprehensive School Improvement (CSI), and Targeted School Improvement (TSI) designated schools. Additionally, increased investments were made in Special Education staffing to align with the shifts in student populations and catch up with the rising needs of Special Education students in the district.

Other Highlights

In November 2012, District voters passed an eight-year, \$482.0 million capital bond measure. With that bond measure, Portland Public Schools began a 30-year effort to modernize every school in the District. The 2012 authorization included modernizations for Franklin, Roosevelt, and Grant High Schools and Faubion PK-8 as well as seismic upgrades, roof replacements and accessibility improvements.

At June 30, 2020, the 2012 authorization had a remaining balance of \$17.9 million, comprised of proceeds and related investment earnings.

Summary of Bond Resources as of June 30, 2020
(in thousands)

	Authorization	Issued	Unspent Balance
2012	\$ 482,000	\$ 482,000	\$ 17,874
2017	790,000	790,000	616,193
	\$ 1,272,000	\$ 1,272,000	\$ 634,067

In May 2017, District voters passed an eight-year, \$790.0 million capital bond measure. The 2017 authorization includes the modernization of Madison and Benson High schools, the replacement of Lincoln High school and Kellogg Middle school. The measure also included funding to address District-wide health and safety projects.

The health and safety projects include work to:

- Reduce or eliminate exposure to hazardous materials;
- Upgrade fire alarm and fire sprinkler systems;
- Improve accessibility for people with disabilities;
- Repair or replace leaking or deteriorating school roofs;
- Upgrade school safety and security; and
- Strengthen schools against earthquakes.

Construction is underway at Madison and Kellogg and is scheduled for completion in 2021. Construction has also started at Lincoln and is scheduled to be complete in 2023. Modernization work at Benson will begin in the summer of 2021.

Construction and/or design started or progressed regarding:

- Roof replacement and seismic upgrades at ten schools;
- Fire alarm and sprinkler upgrades at nineteen schools;
- Improved disability access at ten schools;
- Hazardous materials reduction or elimination at 92 schools;
- School safety and security upgrades at 87 schools;
- Water quality improvement at 65 schools;
- Replacement of Kellogg school;
- Replacement of Lincoln High school;
- Madison High School modernization; and
- Benson High school modernization.

At June 30, 2020, the 2017 authorization had a remaining balance of \$616.2 million for design and construction of the projects covered by the measure.

OVERVIEW OF THE FINANCIAL STATEMENTS

This management's discussion and analysis is intended to serve as an introduction to Portland Public Schools' basic financial statements. The basic financial statements are comprised of three components: (1) government-wide financial statements; (2) fund financial statements; and (3) notes to the basic financial statements. In addition to the basic financial statements, this report also contains required and other supplementary information.

Government-Wide Financial Statements are designed to provide readers with a broad overview of the District's finances in a manner similar to a private-sector business. The government-wide financial statements can be found on pages 33-35 of this report.

Fund Financial Statements are designed to demonstrate compliance with finance-related legal requirements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities and objectives. Portland Public Schools' funds can be divided into two categories: governmental funds and proprietary funds. Reports by fund are shown in the Financial Section of the report beginning on page 37.

Governmental Funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus more narrowly on near-term inflows and outflows of available resources, as well as on balances of available resources at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the District's near-term financial decisions. The Governmental Fund Balance Sheet and the Governmental Fund Statement of Revenues, Expenditures, and Changes in Fund Balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

Portland Public Schools designates four major governmental funds. Information is presented separately in the Governmental Fund Balance Sheet and the Governmental Fund Statement of Revenues, Expenditures, and Changes in Fund Balances for the General Fund, Special Revenue Fund, Debt Service Fund, and the Capital Projects Fund.

Portland Public Schools adopts an annual appropriated budget for each of its funds. A budgetary comparison statement has been provided for each fund individually in either required or supplementary information to demonstrate compliance with the fund level budgets. The basic governmental fund financial statements can be found on pages 37-43 of this report.

Proprietary funds are used to account for a government's business-type activities. The District maintains only one type of proprietary fund, which is an Internal Service Fund. Internal service funds are accounting devices used to accumulate and allocate costs among various internal functions. The District uses an Internal Service Fund to account for its self-insurance activities related to workers compensation. Because Portland Public Schools has no business-type functions, this service benefits governmental functions and has been included within the governmental activities in the government-wide financial statements.

Internal service funds provide the same type of information as the government-wide financial statements. The internal service fund financial statements provide separate information for the Self-Insurance Fund. The basic internal service fund financial statements can be found on pages 45-47 of this report.

Notes to the Basic Financial Statements provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. These notes can be found on pages 49-89 of this report.

Required Supplementary Information (RSI) is located directly after the notes to the basic financial statements on pages 91-98 and represents the required comparison of the budget and actual results on the District's budgetary basis for the General Fund and Special Revenue Fund. In addition, the RSI discloses the District's proportionate share of liabilities/assets and related employer contributions for pension and other post-employment healthcare benefits obligations.

Supplementary Information (SI) presented on pages 100-102 includes budgetary comparison schedules for the Debt Service Fund, Capital Projects Fund and the Proprietary Fund.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

Analysis of Deferred Outflows and Inflows of Resources

Deferred outflows and deferred inflows are comprised of pension and other post-employment healthcare related balances. The changes in total deferred outflows and deferred inflows were due to differences between actual and expected earnings, changes in assumptions used by outside actuaries, and other factors impacting these balances.

Analysis of Net Position

The Statement of Net Position presents information on the District's assets, liabilities and deferred outflows and inflows. The difference between assets/deferred outflows and liabilities/deferred inflows is reported as net position. Over time, net position may serve as a useful indicator of the District's financial position. Other indicators that can be useful in reviewing the District's financial health include enrollment trends, debt capacity and the condition of facilities.

Net Position: 2019 compared to 2020

Net Position is a primary indicator of financial position. The District's assets and deferred outflows exceeded liabilities and deferred inflows by \$30.4 million at June 30, 2020. This represents an increase of \$108.7 million in net position from the prior year and is further discussed below.

Net Position	Government-wide (thousands)			
	2019	2020	\$ Change	% change
Assets				
Current or other assets	\$ 593,665	\$ 947,919	\$ 354,254	59.7%
Net capital assets	735,002	917,372	182,370	24.8%
Total Assets	1,328,667	1,865,291	536,624	40.4%
Deferred Outflows of Resources	207,186	158,473	(48,713)	-23.5%
Liabilities				
Long-term liabilities outstanding	1,251,451	1,583,895	332,444	26.6%
Other liabilities	298,417	298,341	(76)	0.0%
Total Liabilities	1,549,868	1,882,236	332,368	21.4%
Deferred Inflows of Resources	64,329	111,145	46,816	72.8%
Net Position				
Net investment in capital assets	477,058	585,214	108,156	22.7%
Restricted	353,527	681,328	327,801	92.7%
Unrestricted	(908,929)	(1,236,159)	(327,230)	-36.0%
Total Net Position	\$ (78,344)	\$ 30,383	\$ 108,727	138.8%

Net Investment in Capital Assets has increased to \$585.2 million, a \$108.2 million increase over prior year. The increase is primarily driven by increases in capital assets related to the capital bond work.

Restricted Net Position represents the unspent portions of capital project funds, debt service funds, and net assets restricted by grants, donations, post-employment benefits and leases. Restricted Net Position increased by \$327.8 million to \$681.3 million this year, primarily due to the increase in bond principal as resources are set aside for bond-related construction.

Unrestricted Net Position consists of all other amounts not included in categories noted above. Unrestricted Net Position at June 30, 2020 is a negative \$1.24 billion, a decrease of \$327.2 million from fiscal year 2018-19.

Analysis of Activities

The Statement of Activities presents expenses and related revenues by program, summarizing how the District’s net position changed during the most recent fiscal year. The statement reports revenues earned and expenses incurred under the accrual basis of accounting, where changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will result in cash flows in future fiscal periods (e.g., uncollected taxes, pension amounts, other post-employment benefits (OPEB), incurred but not reported (IBNR) claims, and earned but unused vacation leave).

The Statement of Activities of the government-wide financial statements distinguishes functions that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). Portland Public Schools currently does not have any business-type or enterprise fund activities. Additional detail regarding revenue and expense changes are presented to provide a better understanding of the District's operations in fiscal year 2019-20 compared to fiscal year 2018-19.

The District's mission is to provide a free and appropriate public education for K-12 students within its boundaries. The District may not charge for its core services, but does charge for non-core services such as facilities rentals, activities fees, and lunches. Therefore, general revenues, primarily property taxes and State School Funds, provide most of the funding required for governmental programs.

Revenue and Expenses: 2019 compared to 2020

Revenues for 2020 were \$933.1 million, an increase of \$62.6 million, or 7.2 percent, from prior year revenues of \$870.5 million. State School Fund revenues increased by \$41.5 million. \$12.5 million of the increase was related to the annual true up of State School Fund.

Expenses for the District’s program activities include Instruction, Support Services, Enterprise and Community Services, Facilities Services, and Interest and Fees on Long-term Debt. The District’s activities mirror its chart of accounts which is mandated by the Oregon Department of Education for all Oregon public schools.

Current year total expenses were \$824.4 million, which is a 1.5 percent, or \$12.4 million, increase over the prior year. Instruction was mainly flat as compared to 2018-19. Support Services expenses increased \$14.0 million, or 4.5 percent, over the prior year, which was primarily driven by increases in costs related to distance learning supports including investments in technology and software as well as an increase in student supports for social work, discipline, and guidance. Instruction and support services together accounted for 91.0 percent of the District’s total expenses in fiscal year 2019-20, which is the same percentage spent in fiscal year 2018-19 on these same categories.

FINANCIAL ANALYSIS OF THE DISTRICT’S MAJOR FUNDS

As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with finance- related legal requirements. The focus of the District’s governmental funds is to provide information on near-term inflows, outflows, and balances of expendable resources. Such information is useful in assessing the District’s financial requirements. In particular, unassigned fund balance may serve as a useful measure of the District’s net resources available for spending at the end of the fiscal year.

General Fund. The General Fund is the major operating fund of the District. The fund’s ending fund balance increased by \$24.6 million to \$64.5 million for fiscal year 2019-20. The General Fund saw an increase of \$46.9 million in revenue, largely due to an increase in the State School Fund. Instructional expenditures increased \$12.1 million in total, driven by increases in wages and benefits, which include bargained step increases and cost of living adjustments as well as investments in technology supports for our students in response to the COVID related executive order requiring distance learning. Support services costs increased \$15.9 million, due primarily to increases in payroll and associated costs and investment in computer software and equipment to support the distance learning that occurred in the spring.

Special Revenue Fund. Special Revenue Fund revenue remained relatively flat year over year. There was roughly \$3.7 million in reductions in Charges for services and Extracurricular activities resulting from the pivot to distance learning in the spring. These reductions were offset by increases in federal, state and county revenues. Expenditures across the fund increased by \$1.9 million that were largely related to wages and benefits as well as increased supports in Special Education. The spending on Materials and Services across the fund was down, with the schools in distance learning and central offices mostly closed down the District spending in Materials and Services was down across the fund.

BUDGETARY HIGHLIGHTS FOR THE GENERAL FUND

Adopted budget compared to final budget. There was one amendment to the 2019-20 budget. The Amendment allocated \$18.2 million across Instruction and Support Services to align the budget with intended expenditures of additional resources.

Final budget compared to actual results. In fiscal year 2019-20 the District underspent the final general fund budget by \$38.6 million before contingency, or roughly 5.7%. Salaries and associated payroll costs across Instruction and Support Services accounted for \$22.8 million of the underspend, while non-personnel expenditures made up the other \$15.8 million. On March 8, 2020 the Governor declared a state of emergency due to the public health threat posed by the novel infectious coronavirus (COVID-19) and it was declared a global pandemic on March 11, 2020. The Governor issued an executive order on March 12, 2020 that directed public schools to remain closed state-wide. The order was extended on March 17, 2020. Due to the uncertainty around the economy due to the pandemic, the District took the following steps to reduce expenditures in 2019-20 including:

- Hiring Freeze
- Utility schedule changes
- Travel restrictions
- Purchasing restrictions
- Furlough days

Final Budget vs Actual Expenditures (thousands)

	Final Budget	Actual Expenditures	\$ Change	% of Budget
Instruction	\$ 380,950	\$ 359,881	\$ (21,069)	94.5%
Support Services	298,686	281,918	(16,768)	94.4%
Other Objects	1,900	1,507	(393)	79.3%
Transfers	1,703	1,311	(392)	0.0%
	<u>683,239</u>	<u>644,617</u>	<u>(38,622)</u>	<u>94.3%</u>
Operating Contingency	26,682	-	(26,682)	0.0%
	<u>\$ 709,921</u>	<u>\$ 644,617</u>	<u>\$ (65,304)</u>	<u>90.8%</u>

The swift implementation of the spending changes are reflected in the difference between the final budget and actual expenditures for 2019-20. While the purchasing and staffing changes reduced expenditures, the distance learning environment required some unplanned investments in technology and software as well as an opportunity to address building improvements while the buildings were not occupied.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets. The District’s investment in capital assets includes land, building and improvements, vehicles and equipment, and construction in progress. As of June 30, 2020, the District had invested \$917.4 million in capital assets, net of depreciation and amortization, as shown in the following table:

Capital assets	Government-wide (thousands)			
	2019	2020	\$ Change	% change
Land	\$ 9,174	\$ 9,174	\$ -	0.0%
Buildings and site improvements	712,441	881,218	168,777	23.7%

Construction in progress	247,924	272,766	24,842	10.0%
	<u>1,006,603</u>	<u>1,202,534</u>	<u>195,931</u>	<u>19.5%</u>
less accumulated depreciation	<u>(271,601)</u>	<u>(285,162)</u>	<u>(13,561)</u>	<u>5.0%</u>
Capital assets, net of depreciation	<u>\$ 735,002</u>	<u>\$ 917,372</u>	<u>\$ 182,370</u>	<u>24.8%</u>

District-wide, capital assets increased by \$182.4 million in fiscal year 2019-20, and the District recognized \$20.1 million of depreciation and amortization. Asset disposals of \$16.5 million (with associated accumulated depreciation of \$6.5 million, were recorded for fiscal year 2019-20). Capital construction accounted for the majority of the increase. Further discussion of capital assets can be found in Note 7 of the financial statements.

Debt Administration. At the end of the current fiscal year, the District had total debt outstanding of \$1,178.8 million (excluding premiums and discounts), which is comprised of limited tax pension and refunding bonds (\$336.1 million) and debt backed by the full faith and credit of the District (\$842.8 million). During fiscal year 2019-20, the District reduced debt by making scheduled debt service payments of \$117.9 million and issued the remaining portion of the 2017 Bond. Further explanation of debt is shown in Note 10 of the Financial Statements.

Outstanding Debt	Government-wide (thousands)				
	2019	Increases	Decreases	2020	% change
Limited tax pension and refunding bonds	\$ 348,222	\$ -	\$ (12,160)	\$ 336,062	-3.5%
Other debt	507,283	441,320	(105,824)	842,779	66.1%
Total Long Term Debt	<u>855,505</u>	<u>441,320</u>	<u>(117,984)</u>	<u>1,178,841</u>	
Unamortized Bond Premium/(Discount)	<u>41,071</u>	<u>68,202</u>	<u>(3,364)</u>	<u>105,909</u>	157.9%
Total Long Term Debt, net of Premium (Discount)	<u>\$ 896,576</u>	<u>\$ 509,522</u>	<u>\$ (121,348)</u>	<u>\$ 1,284,750</u>	43.3%

State statutes limit the amount of general obligation debt a school district may issue based on a formula for determining the percentage of the Real Market Value of all taxable properties within the District. The District’s general obligation bond debt capacity is 7.95 percent of Real Market Value or \$10.7 billion.

OPERS is Oregon’s public pension system. Under the pension plan, the actuarial liability is the present value of the plan’s current and expected benefits payments (plus administrative expenses). If the fund’s actuarial liability exceeds its assets, then the fund has a shortfall that is known as a Net Pension Liability (“NPL”). OPERS requires that school Districts pay (or “amortize”) this NPL over a period of 20 years (Tier One / Tier Two portion) and 10 years (Retiree Health Insurance Account portion). Since interest rates had been at historic lows, an opportunity to benefit from lowered interest was created.

The District participated in the Oregon School Board Association (“OSBA”) sponsored pooled pension obligation bond program, in which the proceeds from bond issues were put into a PERS “side account” and used to offset a portion of the OPERS Net Pension Liability (NPL). The reduced contribution rate charged for the NPL that has resulted from the District’s decision to borrow, has saved an estimated \$38.2 million in the current year; savings that the District has used to provide more instruction and support services. Over time, this reduction in rates could dampen the effects of future increases in the District’s NPL. As long as OPERS’ investment returns exceed the costs of servicing the bonds, the benefits of this program will exceed the costs. The District’s NPL was reduced but was not eliminated by these borrowing transactions. Statutes, legislation, regulations, and rules regarding OPERS can change at any time.

NEXT YEAR’S BUDGET AND ECONOMIC FACTORS

The 2020-21 budget will continue to build on to its community promise of a PPS Re-Imagined. With the uncertain economic crisis, the District conservatively adjusted staffing levels and operational budgets so as to invest limited resources into a set of strategies and actions that continue to build momentum towards achieving the Vision for Portland Public Schools. This Vision focuses on what we want to be true for our graduates and includes four main areas: a Graduate Portrait, Educator Essentials, System Shifts and Core Values. This vision encapsulates input from students, parents, educators and community members, and defines the skills, mindsets and dispositions we expect of our graduates. It also outlines the characteristics of our educators and the system shifts we must address over the next decade.

The board approved, in October of 2019, a set of academic milestones to monitor progress and hold the district accountable to achieving: Third Grade Reading, Fifth Grade Mathematics, Eight Grade Graduate Portrait, and Post-Secondary Readiness/ Ready for College & Career.

In order to advance toward the Vision and achieve the academic milestones PPS developed a theory of action for change. It states:

“If... We braid Racial Equity and Social Justice strategies into our instruction core, work with our students, teachers, and content, and build our organizational culture and capacity to create a strong foundation to support every student...

Then... We will reimagine Portland Public Schools to ensure every student, especially our Black and Native American students who experience the greatest barriers, realize the Vision of the Graduate Portrait.”

The Vision, the accountability metrics and the theory of action will continue to shape and define financial planning and budgeting for the District into the future.

The 2020-21 budget focuses on increased academic supports and interventions for our most vulnerable and historically underserved students including additional Instructional Specialists, investments in Special Education resources and programming, and continued prioritization and investments into the schools with the greatest needs. The budget includes continued investment into the Equity funding formula and additional Equity resources for our community based education agencies (CBO’s) serving historically underserved students. This funding aims to place resources in areas where they are most needed and are better able to support underserved students and school communities. The 2020-21 budget also focuses on social emotional mental and behavioral supports across the District, that include investments in Social Emotional Learning curriculum, professional development, floating psychologists and counselors.

Population and enrollment trends in Portland show increases in the overall population within the PPS boundary, from 505,000 in 2017 to a mid-range forecast of 598,000 by 2040. However, declining fertility rates among the fastest growing cohort of that population, young adults (20 to 34 year olds) suggest that the population of school-aged children will stay relatively flat, not keeping pace with the overall population growth. Enrollment for the District as of October 1, 2019 was 49,478 students, down slightly from 49,550 in 2018-19. For budgeting purposes, and based on the April 2020 enrollment forecast prepared by the Portland State University Population Research Center, District K-12 student enrollment was projected to increase by about 115 students, or approximately a quarter of one percent in the 2020-21 school year.

However, the closing of the brick and mortar education model and the transition to Comprehensive Distance Learning brought on by COVID, has seen students going to Private and home schooling options. The full enrollment impact due to the pandemic is still unknown, but the current long-range enrollment forecasts see a flattening trajectory over the next 15 years, with the low forecast showing a decline in as many as 3,788 students to an increase of 122 students in the high forecast by 2034-2035.

The Oregon state economy and labor market saw a steep decline in the last year, largely due to the quarantine and gathering restrictions that were put into place in the spring. Oregon's unemployment rate had kept steady at around 3-4 percent for the 39 months preceding April 2020, in which it spiked to almost 15%. Given that context, there is less of a consensus amongst economists on the short and long-term forecasts.

Regardless of the uncertainties that we face in the coming biennium the District is committed to maintaining a budget that will support our students, staff, and community.

Reconciliation of the Statement of Revenues,
Expenditures, and Changes in Fund Balances to the Statement of Activities
For the year ended June 30, 2020
(amounts expressed in thousands)

Net change in fund balances - total governmental funds (page 42)	\$ 358,019
Amounts reported for governmental activities in the Statement of Activities are different because:	
Governmental funds report all capital outlay as expenditures. However, in the Statement of Activities the cost of certain assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlays in the current period of \$212,462, inclusive of proceeds not recorded in governmental funds due to timing) exceeded depreciation and disposals of \$30,092.	182,370
Property tax revenues that do not provide current financial resources are not reported as revenues in the governmental funds. This is the change in deferred inflow of resources related to property taxes.	116
The Internal Service Fund is used to account for all costs incurred for claims arising from workers' compensation losses. The primary funding sources are charges to other funds. This amount is the change in net position for the year.	(2,271)
Incurred but not reported property and liability insurance claims expenses are reported in the Statement of Activities but they are not reported as expenditures in the governmental funds.	208
The issuance of long-term debt (e.g., bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on the change in net position. Also, governmental funds report the effect of issuance costs, premiums, and similar items when debt is first issued. Premium amounts are deferred and amortized in the Statement of Activities.	(388,174)
Pension actuarial liability activity is reported in the Statement of Activities but not in the governmental funds.	(52,701)
Other Post Employment Benefits actuarial liability activity is reported in the Statement of Activities but not in the governmental funds.	1,733

School District No. 1J, Multnomah County, Oregon
Notes to the Basic Financial Statements
For the Year Ended June 30, 2020
(Dollar amounts, unless otherwise indicated, are expressed in thousands)

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

School District No. 1J, Multnomah County, Oregon, known as Portland Public Schools or the District, is governed by a seven-member elected board. The District is the special-purpose primary government exercising financial accountability for all public K-12 education within its boundaries. As required by accounting principles generally accepted in the United States of America, the accompanying financial statements present all significant activities and organizations of the District. The District reports no component units, nor is the District a component unit of any other entity, and specifically has no relationship or connection with Multnomah County, Oregon.

The financial statements of the District have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the governing body and establishes governmental accounting and financial reporting principles. The more significant of the District's accounting policies are described below.

A. Government-wide and fund financial statements

The government-wide financial statements (i.e., the Statement of Net Position and the Statement of Activities) report information on all of the activities of the District. For the most part, the effect of interfund activity has been removed from these statements except that interfund services provided and used are not eliminated in the process of consolidation.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers who purchase or use goods, services, or privileges provided by a given function and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Taxes and other items not properly included among program revenues are reported instead as general revenues. Certain functional expenses contain an element of indirect cost.

Separate financial statements are provided for Governmental Funds and the Self-Insurance Fund, which is an internal service fund (proprietary fund). The Self-Insurance Fund is included in the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements. In the internal service fund, all revenues and expenses except interest earnings, transfers, and federal and state support are considered to be related to operations.

Measurement focus, basis of accounting, and financial statement presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers revenues to be available if they are collected within 60 days of the end of the current fiscal year. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service and expenditures related to compensated absences are recorded only when payment is due.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – continued

A. Government-wide and fund financial statements - continued

Measurement focus, basis of accounting, and financial statement presentation – continued

Property taxes and grant reimbursements are considered to be susceptible to accrual, if received in cash by the District or a county collecting such taxes within 60 days after year-end. All other revenue items are recognized in the accounting period when they become both measurable and available. Measurable means the amount of the transaction can be determined. Available means collectible within the current fiscal year or soon thereafter.

The District reports the following major governmental funds:

General Fund – Accounts for the general operations of the District. The General Fund accounts for all financial resources except those required to be accounted for in another fund. The General Fund's resources are available to the District for any purpose provided they are expended or transferred according to a resolution or policy of the District and/or the laws of Oregon.

Special Revenue Fund – Accounts for revenues and expenditures that are restricted and committed for specific projects. Principal revenue sources are federal, state and local funding.

Debt Service Fund – Accounts for the accumulation of financial resources for the payment of long-term debt principal, interest and related costs. Current debt instruments include General Obligation (GO) bonds, Limited Tax Pension Obligations and Full Faith and Credit Obligations.

Capital Projects Fund – Accounts for financial resources to be used for the acquisition of property, technology, construction or renovation of facilities.

Additionally, the District reports the following internal service fund:

Self-Insurance Fund – Accounts for all workers' compensation activities. The activity and balances of this fund are included in the governmental activities in the government-wide financial statements. The primary resources are charges to other funds, investment earnings and federal and state support. All revenues except for investment revenues and transfers in are considered operating revenue. Operating expenses include salaries, benefits, materials, premium costs, claims, and other related costs.

B. Appropriations and Budgetary Controls

The District prepares a budget for all funds in accordance with the modified accrual basis of accounting, with certain adjustments, and legal requirements set forth in Local Budget Law.

Consistent with Local Budget Law, expenditures are appropriated by fund for each legally adopted annual operating budget at the following levels of control, as appropriate:

- Instruction
- Support Services
- Enterprise and Community Services
- Facilities Acquisition and Construction
- Debt Service
- Contingency
- Fund Transfers

Capital outlay expenditures are appropriated within the service levels for Instruction, Support Services, Enterprise and Community Services, and Facilities Acquisition and Construction. Debt service expenditures in the General Fund are generally appropriated within the Support Services level of control. For reporting purposes all other debt service expenditures are segregated from the supporting services budgetary control levels and are presented in the debt service expenditures category.

After the original budget is adopted, the Board of Education may approve appropriation transfers between the levels of control without limitation. Supplemental appropriations may be approved by the Board of Education if any occurrence, condition, or need exists which had not been anticipated at the time the budget was adopted. An appropriations transfer that alters estimated total expenditures by less than 10.00 percent of any individual fund may be adopted at the regular meeting of the Board of Education. For conditions that require either supplemental appropriations or an increase in expenditures greater than 10.00 percent of an individual fund, a supplemental budget must be adopted, requiring public hearings, publications in newspapers and approval by the Board of Education. Supplemental budgets are submitted, reviewed and certified, similar to the original budget, by the Multnomah County Tax Supervising and Conservation Commission subsequent to approval by the Board of Education. Appropriations lapse at the end of each fiscal year. The District had one supplemental budget during budget year 2020.

C. Encumbrances

During the year encumbrances are recorded in the accounting records when purchase orders are issued. The use of encumbrances indicates to District employees that appropriations are committed. All encumbrances expire at year-end.

D. Cash and Cash Equivalents and Investments

For the purpose of the Statement of Cash Flows, the Statement of Net Position and the Balance Sheet, the District's monies in the Oregon Local Government Investment Pool, savings deposits, demand deposits and cash with fiscal agents are considered to be cash and cash equivalents. Investments with a remaining maturity of more than one year at the time of purchase are stated at fair value. Other investments are stated at amortized cost, which approximates fair value.

E. Property Taxes

Uncollected real and personal property taxes are reflected on the Statement of Net Position and the Balance Sheet as receivables. Under state law, county governments are responsible for extending authorized property tax levies, computing tax rates, billing and collecting all property taxes, and making periodic distributions of collections to entities levying taxes. Property taxes become a lien against the property when levied on July 1 of each year and are payable in three installments due on November 15, February 15 and May 15. Property tax collections are distributed monthly except for November, when such distributions are made weekly.

F. Inventories and Prepaid Items

Inventories of school operating supplies, maintenance supplies, and food and other cafeteria supplies are stated at cost using the weighted average method. A portion of the inventory consists of commodities purchased from the United States Department of Agriculture (USDA). The commodities are recorded at wholesale market value as provided by the USDA. The District accounts for inventory based on the consumption method. Under the consumption method, inventory is recorded when purchased and expenditures are recorded when inventory items are used. Donated foods consumed during the year are reported as revenues and expenditures. The amount of unused donated food at year-end is immaterial. Prepaid insurance is related to capital bond construction activity. Prepaid assets are recognized as expenses/expenditures based on the consumption method when their use benefits the District.

G. Capital Assets

Expenditures for capital assets, which include land, buildings and site improvements, construction in progress, and vehicles and equipment are reported in the Statement of Revenues, Expenditures, and Changes in Fund Balance by function. The District defines capital assets as assets with an initial cost exceeding the threshold amounts shown in the schedule below, and an estimated useful life in excess of one year. District capital assets are recorded at historical cost, or estimated historical cost if purchased or constructed, and depreciated or amortized, where appropriate, using the straight-line method. Donated capital assets are recorded at acquisition value at the date of donation. Major outlays for capital assets and improvements are recorded as construction in progress and capitalized as projects are completed. When the District determines that an asset has been impaired as defined by GASB Statement No. 42 it adjusts the asset value. Under the pronouncements of GASB Statement No. 51 the District capitalizes intangible asset costs, such as costs relating to internally developed computer software. The intangible asset costs are classified as equipment.

Major asset classifications, useful lives and capitalization thresholds are as follows:

Asset	Capitalization threshold	Useful lives, years
Buildings	\$ 25	100
Land & site improvements	25	5 to 25
Equipment	5	5 to 15
Vehicles	5	5 to 8

H. Grant Accounting

Unreimbursed expenditures due from grantor agencies are recorded in the financial statements as accounts receivable and revenues. Cash received from grantor agencies in excess of related grant expenditures is reflected as unearned revenue on the Statement of Net Position and the Balance Sheet.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – continued

I. Insurance

The District operates the Self-Insurance Fund to account for the costs of workers’ compensation related costs and resources. Charges to other funds are recognized as revenues and as expenditures in the fund incurring the charges. The District accounts for all other insurance related resources and costs, such as general liability claims, property and fire loss claims, and the payment of premiums through the General Fund.

The District recognizes the liabilities for estimated losses to be incurred from pending claims and for claims incurred but not reported (IBNR). The IBNR claims are estimates of claims that are incurred through the end of the fiscal year but have not yet been reported. These liabilities are based on actuarial valuations.

The District’s insurance deductibles and policy limits are as follows:

	Deductibles	Excess Coverage per Occurrence
General and Automobile Claims	\$ 1,000	\$ 10,000
Property and Fire Claims	1,000	250,000
Earthquake Claims	1,000	75,000
Flood Claims	1,000	75,000
Workers' Compensation Claims	1,000	25,000

The District has not exceeded the claims limitation on its insurance policies for the last five years.

J. Compensated Absences

Depending on years of service and union membership, employees can earn annual vacation leave between 10 days and 22 days per year. Administrators earn 22 days of annual vacation leave. Employees are allowed to carry over twice their maximum yearly earned balances from one fiscal year to another. All outstanding vacation leave is payable upon resignation, retirement, or death. Compensated absences are recognized as liabilities in the District’s proprietary fund. Compensated absences are not reported as liabilities in the governmental funds because they have not “matured,” meaning they are not yet payable to the employee.

Sick leave accumulates each month without a limit on the total hours that can be accumulated. Accumulated sick leave does not vest and is forfeited at resignation, retirement or death. Sick leave is recorded as an expense/expenditure when leave is taken and no liability is recorded.

K. Receivables and Payables

Receivables expected to be collected within sixty days following year-end are considered measurable and available and are recognized as revenues in the governmental fund financial statements. Other receivables are offset by unearned revenues and, accordingly, have not been recorded as revenue. Receivables, net of any allowance for doubtful accounts, are recorded on the Statement of Net Position/Balance Sheet.

Activities between funds that represent lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as “due to/from other funds” in the fund financial statements, and are eliminated in the government-wide statements.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – continued

L. Long-term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations including accrued compensation and claims are reported as liabilities. Bond premiums and discounts are deferred and amortized over the life of the bonds using the straight line method which approximates the effective interest method. Bonds payable are reported net of applicable bond premium or discount. Bond issuance costs are reported as outflows of resources (expenses) in the period incurred.

In the fund financial statements, governmental fund types recognize bond premium and discounts, as well as bond issuance costs as incurred. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs are reported as expenditures.

M. Retirement Plans

Most District employees participate in Oregon’s Public Employees Retirement System (OPERS). Contributions are made as required by the plan and are recorded as expense/expenditures. Pension benefits are explained in Note 11.

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of OPERS and additions to/deductions from OPERS’s fiduciary net position have been determined on the same basis as they are reported by OPERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized by OPERS when due and payable in accordance with the benefit terms. OPERS investments are reported at fair value.

The District provides tax-deferred annuity contracts established under Section 403(b) of the Internal Revenue Code. Participation in the program is voluntary. Contributions are made from salary deductions from participating employees within the limits specified in the Code. This plan is accounted for under the provisions of Governmental Accounting Standards Board (GASB) Statement No. 68, *Accounting and Financial Reporting for Pension Plans*.

The District also provides a single-employer defined benefit early retirement program (Note 11-B). The stipend benefit is actuarially determined, is reflected as a long-term liability in the government-wide financial statements, and reflects the present value of expected future payments. This plan is accounted for under the provisions of GASB Statement No. 73.

N. Other Post-Employment Benefits

The District is mandated to contribute to Retirement Health Insurance Accounts (RHIA) for eligible District employees who are members of OPERS, and were plan members before January 1, 2004. The plan was established by the Oregon Legislature.

The Retirement Health Insurance Subsidy (RHIS) is a health and welfare program the District provides for retirees. The plan is actuarially determined, is reflected as a long-term liability in the government-wide financial statements, and reflects the present value of expected future payments. The net other post-employment benefits liability and expenditure in the governmental fund financial statements are limited to amounts that become due and payable as of the end of the fiscal year, and are reported on the pay-as-you-go basis.

Certificated employees who have met the requirements for age and years of service with the District are eligible for early retirement benefits (Note 11-B), which includes early retirement benefits and other post-employment benefits as explained in Note 12.

Both plans are accounted for under the provisions of GASB Statement No. 75.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – continued

O. Net Position

Net position represents the difference between the District’s total assets and deferred outflows and total liabilities and deferred inflows. District net position currently has three components:

Net investment in capital assets represents capital assets plus unspent bond proceeds less accumulated depreciation and outstanding principal of capital asset related debt.

Restricted net position represents net position upon which constraints have been placed, either externally by creditors, grantors, contributors or others, or legally constrained by law.

Unrestricted net position represents net position that does not meet the definition of “restricted” or “net investment in capital assets”.

P. Deferred Inflows and Outflows of Resources

In addition to assets, the Statement of Net Position reports a separate section for Deferred Outflows of Resources. This separate financial statement element, *Deferred Outflows of Resources*, represents a consumption of net position that applies to a future period and so will not be recognized as an outflow of resources (expense/expenditure) until then.

In addition to liabilities, the Statement of Net Position reports a separate section for Deferred Inflows of Resources. This separate financial statement element, *Deferred Inflows of Resources*, represents an acquisition of net position that applies to a future period and so will not be recognized as an inflow of resources (revenue) until then.

Q. Management Estimates

The preparation of basic financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the basic financial statements and reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

R. Fund Balance Definitions

In the governmental financial statements, fund balances are reported in classifications that comprise a hierarchy based primarily on the extent to which the District is bound to honor constraints on the specific purposes for which amounts in those funds can be spent.

Governmental fund balance definitions, from most to least restrictive are:

1. *Non-spendable fund balances* – Amounts that are not in spendable form or due to legal or contractual requirements. Examples of resources in this category are prepaid amounts, inventory or notes receivable.
2. *Restricted fund balances* – Amounts constrained to specific purposes by their providers (such as grantors or bond holders), through constitutional provisions or by enabling legislation. These are primarily amounts subject to externally enforceable legal restrictions.
3. *Committed fund balances* – Amounts constrained to specific purposes by resolution of the District’s Board. The District’s Board can modify or rescind a commitment at any time through passage of a new resolution. In order to commit fund balances the District must take formal action prior to the close of the fiscal year.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – continued

R. Fund Balance Definitions - continued

4. *Assigned fund balances* – Amounts the District intends to use for a specific purpose that are neither restricted nor committed are reported as assigned fund balance. Intent can be expressed by the Board or delegated authority to an official. An example of assignment is when the District’s Board adopts the annual budget which includes funds identified as reserved for a specific purpose.
5. *Unassigned fund balance* – Amounts not included in other classifications above. The amount represents spendable fund balance that is not restricted, committed or assigned in the General Fund. This classification is also used to report any deficit fund balance amounts in other governmental funds.

The District’s Board has passed resolution number 4461 titled: *Compliance with Governmental Accounting Standards Board Statement No. 54 (GASB 54): Fund Balance Reporting and Governmental Fund Type Definitions*. The resolution reads as follows:

- The Board affirms that it is the highest level decision authority for the District.
- The Board hereby delegates the authority to classify portions of ending fund balance as “Assigned” to the Superintendent.
- The Board adopts GASB 54 definitions for Non-spendable, Restricted, Committed, Assigned and Unassigned fund balances.
- In conjunction with the adoption of GASB 54 fund balance classifications, the Board declares its budgeting practices and budget allocations for restricted and unrestricted fund balance amounts will be consistent with the fund balance classification hierarchy.
- The Board hereby adopts GASB 54 definitions of fund types for the General Fund, special revenue funds, debt services funds, capital projects funds, and permanent funds.

S. Use of Restricted Resources

When an expense is incurred that can be paid using either restricted or unrestricted resources (net position), the District first applies the expense toward restricted resources and then toward unrestricted resources. In governmental funds, the District first applies the expenditure toward restricted fund balance and then to other, less-restrictive classifications, committed and then assigned fund balances, before using unassigned fund balances.

T. Fund Balance Policy

Per District board policy 8.10.025P, the Board has established a goal to fund and maintain an operating contingency in the General Fund that will range from 5.00 percent to 10.00 percent of annual General Fund revenues.

U. Stabilization Arrangements

The District established a PERS Rate Stabilization Reserve Fund by Board Resolutions 2679, adopted on June 16, 2003, and 4471, adopted on June 27, 2011. The purpose of the Fund is to minimize effects of large fluctuations in the PERS rate assessed against District salaries and wages, and to repay the 2002 and 2003 PERS UAL borrowings. This Fund resides within the Special Revenue Fund, and the primary revenue source is 0.11 percent of Current Year Permanent Rate and GAP Property Taxes. Use of the resources must be authorized through formal Board resolution. In any given year, funds may be transferred to the General Fund not to exceed either 1) the increase in PERS rate over rates in effect at June 30, 2011; or 2) the increase in the internally charged PERS UAL fringe rate over the fringe rate in effect at June 30, 2011, multiplied by the PERS eligible budgeted salary base for that year. The ending fund balance in the PERS Rate Stabilization Reserve Fund at June 30, 2020 is \$18,666.

NOTE 2 – BUDGETARY BASIS OF ACCOUNTING

The District reports financial position, results of operations, and changes in fund balance / net position on the basis of accounting principles generally accepted in the United States (GAAP). The budgetary statements provided as part of required or other supplementary information are presented on the budgetary basis to provide a meaningful comparison of actual results with the budget.

NOTE 3 – STATE CONSTITUTIONAL PROPERTY TAX LIMITS

The State of Oregon has a constitutional limit on property taxes for schools and non-school government operations. Under the provisions of the limitation, tax revenues are separated into those for the public school system and those for local government operations other than the public school system. Property taxes levied for the payment of bonded indebtedness are exempt from the limitation, provided such bonds are either authorized by a specific provision of the Oregon Constitution or approved by the voters of the District for capital construction or improvements.

The District's tax rates for the year ended June 30, 2020 are as follows:

Permanent rate	\$ 5.2781 per \$1 thousand of assessed value
Local option rate	\$ 1.9900 per \$1 thousand of assessed value
GO Bond Levy amount	\$ 130,575,000 (unrounded dollars)

NOTE 4 – CASH, CASH EQUIVALENTS AND INVESTMENTS

Deposits with financial institutions include bank demand deposits, deposits in the Local Government Investment Pool, time certificates of deposit and savings account deposits, as authorized by Oregon statutes.

The District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs. At June 30, 2020, the District's cash, cash equivalents, and investments were comprised of the following:

	June 30, 2020	Fair Value Measurements Using
Oregon Local Government Investment Pool	\$ 43,264	N/A
Cash in demand deposits	213,103	N/A
Petty cash	7	N/A

NOTE 4 – CASH, CASH EQUIVALENTS AND INVESTMENTS – continued

A. Investments

Accounting principles generally accepted in the United States of America require investments with a remaining maturity of more than one year at the time of purchase to be stated at fair value. Fair value is determined at the quoted market price, if available; otherwise the fair value is estimated based on the amount at which the investment could be exchanged in a current transaction between willing parties, other than in a forced liquidation sale. Investments with maturities of less than one year are carried at amortized cost.

Investments in the Oregon Local Government Investment Pool (LGIP) are stated at share value, which approximates fair value, and is the value at which the shares can be withdrawn. The LGIP does not report all investments at fair value in accordance with the provisions of GASB Statement No. 31. The LGIP is required by Oregon Revised Statutes (ORS) to compute the fair value of all investments maturing more than 270 days from the date the computation is made. If the fair value totals more than one percent of the balance of the LGIP in terms of unrealized gain or loss, the amount is required to be distributed to the pool participants. Fifty percent of the LGIP portfolio must mature within 93 days. Up to 25.00 percent of the LGIP portfolio may mature in over one year and no investment may mature in over three years.

The District requires all securities to be purchased in the District’s name and held in third party safekeeping.

The Oregon Local Government Investment Pool is unrated. Other investments held at June 30, 2020 are categorized by Moody’s and Standard and Poor’s ratings as follows:

NOTE 4 – CASH, CASH EQUIVALENTS AND INVESTMENTS – continued

A. Investments – continued

Interest rate risk

In accordance with its investment policy, the District manages its exposure to declines in fair value of its investments by structuring the investment portfolio so that securities mature to meet ongoing operations.

Credit risk

Oregon Revised Statutes authorize school districts to invest in obligations of the U.S. Treasury, agencies and instrumentalities of the United States, commercial paper, bankers’ acceptances guaranteed by a qualified financial institution, repurchase agreements, interest bearing bonds of any city, county, port or school district in Oregon, Washington, Idaho, and California (subject to specific standards), and the LGIP, among others. The Board of Education has adopted a policy which complies with state statutes.

Concentration of credit risk-investments

In accordance with GASB 40, the District is required to report all individual non-federal investments which exceed 5.00 percent of total invested funds. As of June 30, 2020 the District held the following individual non-federal assets that exceeded 5.00 percent of total invested funds:

	Value	Percentage of Total Investments
JPMorgan Chase & Co	\$ 37,575	6.0%
Wells Fargo & Co	36,466	5.9%

Custodial risk-deposits

The District’s deposits with financial institutions are insured by the Federal Depository Insurance Corporation (FDIC); interest and non-interest bearing accounts are insured up to \$250 thousand. To provide additional security required and authorized by Oregon Revised Statutes, Chapter 295, deposits above insurance limits are covered by collateral held in a multiple financial institution collateral pool administered by the State of Oregon. At June 30, 2020, bank balances of \$1,250 were insured by the FDIC. Funds not covered by FDIC insurance are covered by the Oregon State Treasury Collateral Pool. At June 30, 2020, the carrying amount of the District's balance was \$213,103 and the bank balance was \$216,321.

Custodial credit risk-investments

For an investment, this is the risk that, in the event of a failure of the counterparty, the District will not be able to recover the value of its investments or collateralized securities that are in the possession of an outside party. The District’s investment policy limits the types of investments that may be held and does not allow securities to be held by the counterparty.

The LGIP is administered by the Oregon State Treasury with the advice of other state agencies and is not registered with the U.S. Securities and Exchange Commission. The LGIP is an open-ended no-load diversified portfolio offered to any agency, political subdivision, or public corporation of the State that by law is made the custodian of, or has control of any fund. The LGIP is commingled with the State’s short-term funds. In seeking to best serve local governments of Oregon, the Oregon Legislature established the Oregon Short Term Fund Board, which has established diversification percentages and specifies the types and maturities of the investments. The purpose of the Board is to advise the Oregon State Treasury in the management and investment of the LGIP. Investments within the LGIP must be invested and managed as a prudent investor would, exercising reasonable care, skill and caution. Professional standards indicate that the investments in external investment pools are subject to custodial risk because they are not evidenced by securities that exist in physical or book entry form. Nevertheless, management does not believe that there is any substantial custodial risk related to LGIP investments.

A. Limited Tax Pension Bonds

In October 2002 Portland Public Schools participated as one of forty-one Oregon school districts and education service districts in issuing limited tax pension bonds. The proceeds were used to finance a portion of the estimated unfunded actuarial liability of each participating school district with the Oregon Public Employees Retirement System (“OPERS”). The Oregon School Boards Association (“OSBA”) sponsored this pooled limited tax pension bond program. The OSBA does not have a financial obligation in connection with the bonds issued under the program. Except for the payment of its pension bond payments and additional charges when due, each participating school district has no obligation or liability to any other participating school district’s pension bonds or liabilities to OPERS. In April 2003, OSBA sponsored another pooled limited tax pension bond program with thirty school districts and education service districts. Payments of yearly principal and interest are recorded as financial statement expenditures in instruction and in support services. The District anticipates the total costs of financing the District’s actuarial obligation in this manner will result in a significant savings to the District when compared to paying for such costs as additional contribution rates to OPERS.

The District issued \$210,104 Limited Tax Pension Bonds, Series 2002 (Federally Taxable), of which \$53,524 are Series 2002A (deferred interest bonds) and \$156,580 are Series 2002B (current interest bonds). The 2002 series Limited Tax Pension Bonds were issued on October 31, 2002, and are payable annually through June 2028. Interest on the deferred interest bonds is accreted semiannually at a yield of 6.10 percent. Interest on the current coupon bonds is payable semiannually at rates ranging from 5.48 to 5.55 percent. The Series 2002A Bonds are not subject to optional prepayment prior to maturity. The Series 2002B Bonds maturing June 30, 2021, shall be subject to prepayment from pension prepayments on or after June 30, 2009, and those due June 30, 2028 are subject to mandatory prepayment prior to its stated maturity, in whole or part, on any June 30 on or after June 30, 2024. During 2012 \$14,200 of Series 2002 Pension Bonds were refinanced. See the description of the Limited Tax Pension Bonds, Series 2012 below.

The District issued \$281,170 Limited Tax Pension Bonds, Series 2003 (Federally Taxable), of which \$124,800 are Series 2003A (deferred interest bonds) and \$156,370 are Series 2003B (current interest bonds). The Series 2003 series Limited Tax Pensions Bonds were issued on April 30, 2003, and are payable annually through June 2028. Interest on the deferred interest bonds is accreted payable semiannually at yields rates ranging from 5.45 to 6.27 percent. Interest on the current coupon bonds is payable semiannually at rates ranging from 5.45 to 6.27 percent. The bonds are federally taxable and are not subject to optional prepayment prior to their stated maturities.

On January 31, 2012 the District issued \$14,400 in Limited Tax Pension Refunding Bonds, Series 2012. The interest rate is fixed at 2.75 percent and interest payments on the bonds are payable semiannually in June and December. The bonds mature on June 30, 2021. The total amount of interest savings (economic gain) as a result of the refinancing is \$3,200 dollars. The present value of future cash savings as a result of the refinancing is \$2,800 dollars. The bond proceeds, \$14,200, were used to pay on the Limited Tax Pension Bonds, Series 2002. The Series 2012 bonds are subject to optional prepayment.

Under the terms of the borrowing agreements for the 2002, 2003 and 2012 Limited Tax Pension Bonds, the District is bound by an intercept agreement whereby Wells Fargo Bank Northwest NA, as the trustee, directly receives specified amounts that have been withheld from the District’s State School Fund support payments that are deposited in trust with LGIP. Wells Fargo Bank Northwest NA then makes the scheduled semi-annual debt service payments from the LGIP trust account.

Interest payments on the bonds are payable semiannually in June and December, beginning December 15, 2015. The Series 2015B Bonds maturing on or after 2026 are subject to redemption, at the option of the District, in whole or part, on or after June 15, 2025. The bonds mature on June 15, 2033 with principal payments due annually on June 15. The bonds were issued at a premium of \$33,178 which is being amortized over the life of the bonds.

On August 10, 2017 the District issued \$62,160 in General Obligation Bonds, Series 2017B. The interest rate is fixed at 5.00 percent. Interest payments on the bonds are payable semiannually in June and December, beginning December 15, 2017. The Series 2017B Bonds are not subject to early redemption prior to maturity. The bonds mature on June 15, 2030, with principal payments due annually on June 15. The bonds were issued at a premium of \$9,854 which is being amortized over the life of the bonds.

As part of a \$790 million capital bond measure passed by District voters in 2017, the District has issued the following General Obligation debt to finance school renovation and replacement:

On August 10, 2017 the District issued \$168,950 in General Obligation Bonds, Series 2017A. The interest rate is fixed at 1.65 percent. Interest payments on the bonds are payable semiannually in June and December, beginning December 15, 2017. The bonds mature on June 15, 2020, with principal payments due annually on June 15. The bonds were issued at a premium of \$155 which is being amortized over the life of the bonds.

On August 10, 2017 the District issued \$179,730 in General Obligation Bonds, Series 2017B. The interest rate is fixed at rates ranging from 3.00 to 5.00 percent. Interest payments on the bonds are payable semiannually in June and December, beginning December 15, 2017. The Series 2017B Bonds maturing on June 15, 2028 and on any date thereafter are subject to redemption at the option of the District prior to their stated maturity dates at any time on or after June 15, 2027 in whole or in part; and, if in part, with maturities to be selected by the District at a price of par plus accrued interest, if any, to the date of redemption. The bonds mature on June 15, 2044 with principal payments due annually on June 15. The bonds were issued at a premium of \$1,051 which is being amortized over the life of the bonds.

On April 14, 2020 the District issued \$441,320 in General Obligation Bonds, Series 2020. The interest rate is fixed at rates ranging from 3.00 to 5.00 percent. Interest payments on the bonds are payable semiannually in June and December, beginning December 15, 2020. The Series 2020 Bonds maturing on June 15, 2031 and on any date thereafter are subject to redemption at the option of the District prior to their stated maturity dates at any time on or after June 15, 2030 in whole or in part; and, if in part, with maturities to be selected by the District at a price of par plus accrued interest, if any, to the date of redemption. The bonds mature on June 15, 2037 with principal payments due annually on June 15. The bonds were issued at a premium of \$68,202 which is being amortized over the life of the bonds.

C. Other Debt

Pursuant to the American Recovery and Reinvestment Act of 2009 (ARRA), the City of Portland was awarded \$13,500 in Recovery Zone Economic Development Bonds (RZEDBs). In July 2010, the City sub-awarded \$11,000 of the RZED bonds to Portland Public Schools, which are being used to complete energy and water conservation projects that will financially benefit the District in reduced energy and water costs and will yield on-going financial benefit once the bonds are paid off. The District makes semi-annual interest payments and annual principal payments, and the bonds will mature in December 2022. The bond's interest payments of 5.05 percent are 42.2 percent federally subsidized.

On November 9, 2016 the District issued \$5,048 in Full Faith and Credit Obligations, Series 2016. The interest rate is fixed at 2.99 percent. Interest payments on the obligations are payable semiannually in June and December, beginning June 1, 2018. The obligations mature on December 1, 2031, with principal payments due annually on December 1. The obligations carry a prepayment option such that any or all outstanding maturities may be redeemed on or after December 1, 2018. The bonds were issued at par.

On August 4, 2016 the District issued \$4,000 in Qualified Zone Academy Bonds (QZAB), Series 2016. The District pays no interest rate over the 20 year term of the bonds. The bonds carry a 4.39 percent interest rate for structuring purposes, but the purchaser of the bonds receives a Federal tax credit in lieu of interest earnings. The bonds mature on August 4, 2036 with level principal payments due annually on August 4.

Article XI-K of the Oregon Constitution allows the state to guarantee the general obligation bonded indebtedness of school districts. For the Series 2013B, 2015B, 2017A and 2017B GO Bonds mentioned immediately above, the District participated in the Oregon School Bond Guaranty program (ORS 328.321 to 328.356), whereby the State of Oregon (State) guarantees all principal and interest payments until maturity will be made to bondholders when due. Should the District fail to make a payment of debt service on these bonds when due, the State will make the payment on behalf of the District, and then will seek recovery from the District. The State may recover funds by means of intercepting any source of operating moneys normally remitted from the State to the District. Since the inception of the bonds, the District has not used the guarantee, and there are no outstanding amounts due to the State of Oregon as of June 30, 2020.

Federal arbitrage restrictions apply to substantially all debt. Any liabilities to the federal government are accrued and paid when due. Long-term debt payments are made from the debt service funds.

NOTE 11 – PENSION PLANS

Pension Plans - Summary

The District offers a cost-sharing multiple-employer defined benefit plan through the Oregon Public Employees Retirement System (OPERS) and a single-employer defined benefit early retirement stipend (Stipend). The breakdown of the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions are:

	<u>OPERS</u>	<u>Stipend</u>	<u>Net</u>
Total Pension Liability	\$ (306,140)	\$ (6,209)	\$ (312,349)
Total Pension Expense	\$ 53,116	\$ (405)	\$ 52,711

Pension Deferred Inflows of Resources	\$ (107,963)	\$ (70)	\$ (108,033)

A. Oregon Public Employees Retirement System (OPERS)

General Information about the Pension Plan

Name of the pension plan: The Oregon Public Employees Retirement System (OPERS) is a cost-sharing multiple-employer defined benefit plan, administered by the Public Employees Retirement Board with authority granted by the Oregon Legislature.

Plan description. Employees of the District are provided with pensions through OPERS. The General Fund and the Special Revenue Fund are the primary funds from which the pension liability is liquidated. All the benefits of OPERS are established by the Oregon legislature pursuant to Oregon Revised Statute (ORS) Chapters 238 and 238A, and Internal Revenue Code Section 401(a). The ORS Chapter 238 Defined Benefit Pension Plan is closed to new members hired on or after August 29, 2003. OPERS issues a publicly available financial report that can be obtained at:

<https://www.oregon.gov/pers/Pages/Financials/Actuarial-Financial-Information.aspx>.

Benefits provided under Chapter 238 - Tier One / Tier Two Retirement Benefit Plan

1. *Pension Benefits.* The OPERS retirement allowance is payable monthly for life. Members may select from 13 retirement benefit options that are actuarially equivalent to the base benefit. These options include survivorship benefits and lump-sum refunds. The basic benefit is based on years of service and final average salary. A percentage (2.00 percent for Police and Fire employees, 1.67 percent for General Service employees) is multiplied by the number of years of service and the final average salary. Benefits may also be calculated either under a formula plus annuity (for members who were contributing before August 21, 1981) or a money match computation if a greater benefit results.

A member is considered vested and will be eligible at minimum retirement age for a service retirement allowance if he or she has had a contribution in each of five calendar years or has reached at least 50 years of age before ceasing employment with a participating employer (age 45 for Police and Fire members). General Service employees may retire after reaching age 55. Police and Fire members are eligible after reaching age 50. Tier One general service employee benefits are reduced if retirement occurs prior to age 58 with fewer than 30 years of service. Police and Fire member benefits are reduced if retirement occurs prior to age 55 with fewer than 25 years of service. Tier Two members are eligible for full benefits at age 60. The ORS Chapter 238 Defined Benefit Pension Plan is closed to new members hired on or after August 29, 2003.

NOTE 11 – PENSION PLANS – continued

A. Oregon Public Employees Retirement System (OPERS) – continued

Benefits provided under Chapter 238 - Tier One / Tier Two – continued

2. *Death Benefits.* Upon the death of a non-retired member, the beneficiary receives a lump-sum refund of the member's account balance (accumulated contributions and interest). In addition, the beneficiary will receive a lump-sum payment from employer funds equal to the account balance, provided one or more of the following conditions are met:
 - the member was employed by an OPERS employer at the time of death,
 - the member died within 120 days after termination of OPERS-covered employment,
 - the member died as a result of injury sustained while employed in an OPERS-covered job, or
 - the member was on an official leave of absence from an OPERS-covered job at the time of death.

3. *Disability Benefits.* A member with 10 or more years of creditable service who becomes disabled from other than duty-connected causes may receive a non-duty disability benefit. A disability resulting from a job-incurred injury or illness qualifies a member (including OPERS judge members) for disability benefits regardless of the length of OPERS-covered service. Upon qualifying for either a non-duty or duty disability, service time is computed to age 58 (55 for Police and Fire members) when determining the monthly benefit.

4. *Benefit Changes after Retirement.* Members may choose to continue participation in a variable equities investment account after retiring and may experience annual benefit fluctuations due to changes in the market value of the underlying equity investments of that account.

Under ORS 238.360 monthly benefits are adjusted annually through cost-of-living changes (COLA). The COLA is capped at 2.00 percent.

Benefits provided under Chapter 238A - Oregon Public Service Retirement Plan (OPSRP).

1. *Pension Benefits.* The ORS 238A Defined Benefit Pension Program provides benefits to members hired on or after August 29, 2003.

This portion of the OPSRP provides a life pension funded by employer contributions. Benefits are calculated with the following formula for members who attain normal retirement age:

General Service: 1.50 percent is multiplied by the number of years of service and the final average salary. Normal retirement age for General Service members is age 65, or age 58 with 30 years of retirement credit.

A member of the OPSRP pension program becomes vested on the earliest of the following dates: the date the member completes 600 hours of service in each of five calendar years, the date the member reaches normal retirement age, and, if the pension program is terminated, the date on which termination becomes effective.

2. *Death Benefits.* Upon the death of a non-retired member, the spouse or other person who is constitutionally required to be treated in the same manner as the spouse receives for life 50 percent of the pension that would otherwise have been paid to the deceased member.

3. *Disability Benefits.* A member who has accrued 10 or more years of retirement credits before the member becomes disabled or a member who becomes disabled due to job-related injury shall receive a disability benefit of 45 percent of the member's salary determined as of the last full month of employment before the disability occurred.
4. *Benefit Changes after Retirement.* Under ORS 238A.210 monthly benefits are adjusted annually through cost-of-living changes. The cap on the COLA vary based on the amount of the annual benefit.

Contributions:

OPERS funding policy provides for monthly employer contributions at actuarially determined rates. These contributions, expressed as a percentage of covered payroll, are intended to accumulate sufficient assets to pay benefits when due. This funding policy applies to the OPERS Defined Benefit Plan and the Other Postemployment Benefit Plans.

Employer contribution rates during the period were based on the December 31, 2017 actuarial valuation. The rates based on a percentage of payroll, first became effective July 1, 2019. The state of Oregon and certain schools, community colleges, and political subdivisions have made unfunded actuarial liability payments to establish side accounts, and their rates have been reduced.

The District's rates in effect for the fiscal year ended June 30, 2020 were:

Tier One / Tier Two	8.75%
OPSRP General Service	3.36%

The District contributed approximately \$24.8 million for the year ended June 30, 2020.

Actuarial Valuations:

The employer contribution rates effective July 1, 2019 through June 30, 2020, were set using the entry age normal actuarial cost method. For the Tier One / Tier Two component of the OPERS Defined Benefit Plan, this method produced an employer contribution rate consisting of (1) an amount for normal cost (the estimated amount necessary to finance benefits earned by the employees during the current service year), and (2) an amount for the amortization of unfunded actuarial accrued liabilities, which are being amortized over a fixed period with new unfunded actuarial accrued liabilities being amortized over 20 years.

For the OPSRP Pension Program component of the OPERS Defined Benefit Plan, this method produced an employer contribution rate consisting of (a) an amount for normal cost (the estimated amount necessary to finance benefits earned by the employees during the current service year), (b) an actuarially determined amount for funding a disability benefit component and (c) an amount for the amortization of unfunded actuarial accrued liabilities, which are being amortized over a fixed period with new unfunded actuarial accrued liabilities being amortized over 16 years.

Actuarial valuations of an ongoing plan involve estimates of the value of projected benefits and assumptions about the probability of events far into the future. Actuarially determined amounts are subject to continual revision as actual results are compared to past expectations and new estimates are made about the future. Experience studies are performed as of December 31 of even numbered years. The methods and assumptions shown above are based on the 2016 Experience Study.

Discount Rate:

The discount rate used to measure the total pension liability was 7.20 percent for the Defined Benefit Pension Plan. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and those of the contributing employers are made at the contractually required rates, as actuarially determined. Based on those assumptions, the pension plan’s fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments for the Defined Benefit Pension Plan was applied to all periods of projected benefit payments to determine the total pension liability.

Depletion Date Projection:

GASB 67 generally requires that a blended discount rate be used to measure the Total Pension Liability (the Actuarial Accrued Liability calculated using the Individual Entry Age Normal Cost Method). The long-term expected return on plan investments may be used to discount liabilities to the extent that the plan’s Fiduciary Net Position (fair market value of assets) is projected to cover benefit payments and administrative expenses. A 20-year high quality (AA/Aa or higher) municipal bond rate must be used for periods where the Fiduciary Net Position is not projected to cover benefit payments and administrative expenses. Determining the discount rate under GASB 67 will often require that the actuary perform complex projections of future benefit payments and asset values. GASB 67 (paragraph 43) does allow for alternative evaluations of projected solvency, if such evaluation can reliably be made. GASB does not contemplate a specific method for making an alternative evaluation of sufficiency; it is left to professional judgment.

The following circumstances justify an alternative evaluation of sufficiency for OPERS:

- OPERS has a formal written policy to calculate an Actuarially Determined Contribution (ADC), which is articulated in the actuarial valuation report.
- The ADC is based on a closed, layered amortization period, which means that payment of the full ADC each year will bring the plan to a 100% funded position by the end of the amortization period if future experience follows assumption.
- GASB 67 specifies that the projections regarding future solvency assume that plan assets earn the assumed rate of return and there are no future changes in the plan provisions or actuarial methods and assumptions, which means that the projections would not reflect any adverse future experience which might impact the plan’s funded position.

Based on these circumstances, it is OPERS’ independent actuary’s opinion that the detailed depletion date projections outlined in GASB 67 would clearly indicate that the Fiduciary Net Position is always projected to be sufficient to cover benefit payments and administrative expenses.

Long-Term Expected Rate of Return:

To develop an analytical basis for the selection of the long-term expected rate of return assumption, in July 2015 the OPERS Board reviewed long-term assumptions developed by both Milliman’s capital market assumptions team and the Oregon Investment Council’s (OIC) investment advisors. The table below shows Milliman’s assumptions for each of the asset classes in which the plan was invested at that time based on the OIC long-term target asset allocation. The OIC’s description of each asset class was used to map the target allocation to the asset classes shown below. Each asset class assumption is based on a consistent set of underlying assumptions, and includes adjustment for the inflation assumption. These assumptions are not based on historical returns, but instead are based on a forward-looking capital market economic model.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions:

At June 30, 2020, the District reported a liability of \$306,140 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2019, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of December 31, 2017. The District’s proportion of the net pension liability was based on the District’s projected long-term contribution effort as compared to the total projected long-term contribution effort of all employers. At June 30, 2020, the District’s proportion was 1.77 percent, which is a decrease of 0.52 from the District’s proportion of 2.29 percent for the year ended June 30, 2019.

For the year ended June 30, 2020, the District recognized pension expense of \$78.0 million for the defined benefit portion of the pension plan. At June 30, 2020, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflow of Resources	Deferred Inflow of Resources
Pension changes in employer proportion	\$ 55,393	\$ (49,107)

Changes in Plan Provisions Subsequent to Measurement Date

On June 11, 2019, Senate Bill (SB) 1049 was enacted by the Senate of the State of Oregon. The elements of the bill include a variety of policy and program changes which will affect the District’s pension plan. Most prominent is a one-time 22 year re-amortization of the unamortized actuarial liability for Tier 1 and Tier 2 employees and contribution rate adjustments. The effect of SB 1049 could reduce the District’s pension contribution rates by an undetermined amount. In August 2019, a petition was filed with the Oregon Supreme Court challenging the constitutionality of certain portions of SB 1049. In August 2020, the court unanimously upheld the provisions of this bill. However, the District cannot predict whether SB 1049 will be subject to additional legal challenges that could affect some or all of its provisions.

Defined Contribution Plan

OPSRP Individual Account Program (OPSRP IAP)

Plan Description:

Employees of the District are provided with pensions through OPERS. All the benefits of OPERS are established by the Oregon legislature pursuant to Oregon Revised Statute (ORS) Chapters 238 and 238A. Chapter 238 Defined Benefit Pension Plan is closed to new members hired on or after August 29, 2003. Chapter 238A created the Oregon Public Service Retirement Plan (OPSRP), which consists of the Defined Benefit Pension Program and the Individual Account Program (IAP). Beginning January 1, 2004, OPERS active Tier One and Tier Two members became members of the IAP of OPSRP. OPERS members retain their existing defined benefit plan accounts, but member contributions are deposited into the member’s IAP account. OPSRP is a part of OPERS and is administered by the OPERS Board.

Defined Contribution Plan- continued

Pension Benefits:

Participants in OPERS defined benefit pension plans also participate in their defined contribution plan. An IAP member becomes vested on the date the employee account is established or on the date the rollover account was established. If the employer makes optional employer contributions for a member, the member becomes vested on the earliest of the following dates: the date the member completes 600 hours of service in each of five calendar years, the date the member reaches normal retirement age, the date the IAP is terminated, the date the active member becomes disabled, or the date the active member dies.

Upon retirement, a member of the OPSRP IAP may receive the amounts in his or her employee account, rollover account, and vested employer account as a lump-sum payment or in equal installments over a 5-, 10-, 15-, 20-year period or an anticipated life span option. Installment amounts vary with market returns as the account remains invested while in distribution. When chosen, the distribution option must result in a \$200 minimum distribution amount, or the frequency of the installments will be adjusted to reach that minimum.

Death Benefits:

Upon the death of a non-retired member, the beneficiary receives in a lump sum the member's account balance, rollover account balance, and vested employer optional contribution account balance. If a retired member dies before the installment payments are completed, the beneficiary may receive the remaining installment payments or choose a lump-sum payment.

Contributions:

Employees of the District contribute 6.0 percent of their covered payroll. The District did not make any optional contributions to member IAP accounts for the year ended June 30, 2020. Included in accrued liabilities at June 30, 2020 are \$1.3 million for employee contributions owed to the plan.

B. District Plan - Stipend

Plan Description

The District provides a single-employer defined benefit early retirement program for members of the Portland Association of Teachers (PAT), physical therapists, occupational therapists and licensed administrators. Certificated employees with 15 consecutive years of at least half time service with the District, and who are eligible to retire under OPERS, and who retired before age 62 are eligible for the early retirement benefits. Eligible employees are entitled to a monthly benefit of \$425 dollars commencing on the first month after the retirement. Benefits are payable up to the earlier of attaining age 62 or receiving 60 monthly payments. The General Fund and the Special Revenue Fund are the primary funds from which the stipend liability is liquidated. The District does not issue a separate stand-alone financial report for this plan. The District pays for the benefits without any cost to employees. The contributions are financed on a pay-as-you-go basis, and there are no assets accumulated in a trust. The program was established under separate bargaining agreements and may be amended by the District under new collective bargaining agreements.

Total Stipend Liability

The District's total stipend liability of \$6.2 million was measured as of June 30, 2018, rolled forward to June 30, 2020, and was determined by an actuarial valuation as of July 1, 2018.

A. Retirement Health Insurance Subsidy (RHIS)

Plan Description

The District provides a single-employer defined benefit plan that provides postemployment health, dental, vision and life insurance benefits to eligible employees and their spouses for employees who have retired from the District with a minimum of fifteen accumulated years of service and are eligible to retire from the Oregon retirement system. There are 5,713 active and 614 retired members or beneficiaries currently receiving benefit payments in the plan. Covered employees under the plan are eligible to receive full or part District-paid medical and pharmacy benefits for up to 60 months, or until reaching age 65, whichever comes first. The District also pays a portion of the spouse/domestic partner medical and pharmacy costs during the benefit period. The program was established under separate collective bargaining agreements with the certificated and classified employees and by precedent for all other District employees. The Portland Teachers Association (PAT) group terminated this benefit after September 30, 2019. All other bargaining units and employee groups, except the District Council Unions (DCU), agreed to terminate this benefit after June 30, 2014. The DCU agreed to terminate this benefit after December 31, 2014. Under Oregon Revised Statute (ORS) 243.303 any OPERS qualifying public employee is allowed to pay the full cost for continued coverage under the District group health plans until they become Medicare eligible. The plan does not issue a separate financial report, and there are no assets accumulated in a trust. The plan may be amended by the District under new collective bargaining agreements.

Benefits Provided

The District pays for the benefits. The contributions are financed on a pay-as-you-go basis. The General Fund and the Special Revenue Fund are the primary funds from which the Other Post Employment Benefit liability is liquidated.

Employees covered by benefit terms

As of June 30, 2020, the following employees were covered by the benefit terms:

Inactive employees or beneficiaries currently receiving benefit payments	446
Inactive employees entitled to but not yet receiving benefit payments	168
Active employees	<u>5,713</u>

Total RHIS Liability

The District’s total RHIS liability of \$81.3 million was measured as of June 30, 2019, and was determined by an actuarial valuation as of July 1, 2018, rolled forward to June 30, 2020.

Actuarial Methods and Assumptions

Actuarial methods and assumptions, with the exception of the Health Care Cost Trend, are consistent with those disclosed for the District Stipend. See Footnote 11 – Pension Plans, part B. District Plan - Stipend for additional information on Actuarial Assumptions and Methods, the Long-Term Expected Rate of Return, and the Discount Rate.

Health Care Cost Trend – The actuarial calculations used an assumption that medical costs will increase 7.50% in the first year and reach an eventual ultimate rate of 4.25%. These trends are based on a model circulated by the Society of Actuaries that considers current trends in health care costs, the potential impacts of certain well-defined aspects of the Affordable Care Act, and long-term constraints on trend such as growth in per capita income. It also assumes that dental and vision costs will increase by the lesser of the medical cost trend previously described and 4.00 percent per year. First year medical, dental, and vision trends were based on actual changes to July 1, 2019 premiums compared with July 1, 2018 premiums.

B. Retirement Health Insurance Account (RHIA)

Plan Description

As a member of Oregon Public Employees Retirement System (OPERS) the District contributes to the Retirement Health Insurance Account (RHIA) for each of its eligible employees. RHIA is a cost-sharing multiple-employer defined benefit other postemployment benefit plan administered by OPERS. Oregon Revised Statute (ORS) 238.420 established this trust fund. Authority to establish and amend the benefit provisions of RHIA reside with the Oregon Legislature. The plan is closed to new entrants after January 1, 2004. OPERS issues a publicly available financial report that includes financial statements and required supplementary information and is available at: <http://www.oregon.gov/pers/Pages/Financials/Actuarial-Financial-Information.aspx>

Benefits

RHIA pays a monthly contribution toward the cost of Medicare companion health insurance premiums of eligible retirees.

Contributions

Because RHIA was created by enabling legislation (ORS 238.420), contribution requirements of the plan members and the participating employers were established and may be amended only by the Oregon Legislature. ORS require that an amount equal to \$60 dollars or the total monthly cost of Medicare companion health insurance premiums coverage, whichever is less, shall be paid from the Retirement Health Insurance Account established by the employer, and any monthly cost in excess of \$60 dollars shall be paid by the eligible retired member in the manner provided in ORS 238.410. To be eligible to receive this monthly payment toward the premium cost the member must: (1) have eight years or more of qualifying service in OPERS at the time of retirement or receive a disability allowance as if the member had eight years or more of creditable service in OPERS, (2) receive both Medicare Parts A and B coverage, and (3) enroll in an OPERS-sponsored health plan. A surviving spouse or dependent of a deceased OPERS retiree who was eligible to receive the subsidy is eligible to receive the subsidy if he or she (1) is receiving a retirement benefit or allowance from OPERS or (2) was insured at the time the member died and the member retired before May 1, 1991.

The District's rates in effect for the fiscal year ended June 30, 2020 were:

Tier One / Tier Two	0.06%
OPSRP General Service	0.00%

District contributions for the year ended June 30, 2020 were \$209.

RHIA Liabilities, RHIA Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to RHIA

At June 30, 2020, the District reported an asset of \$6.4 million for its proportionate share of the OPERS net RHIA asset. The net RHIA asset was measured as of June 30, 2019, and the total RHIA liability used to calculate the net RHIA asset was determined by an actuarial valuation as of December 31, 2017 rolled forward to June 30, 2019. The District's proportion of the net RHIA asset was based on the District's actual, legally required contributions made to the RHIA program during the measurement period relative to total actual contributions from all participating employers. At June 30, 2020, the District's proportionate share was 3.31%, which is an increase of 0.12% from its proportion of 3.19% as of June 30, 2019.

NOTE 13 - RISK MANAGEMENT

The Internal Service (Self-Insurance) Fund charges other funds for the costs incurred for workers’ compensation claims. Charges to other funds by the Self-Insurance Fund are recognized as revenues in the Self-Insurance Fund and as expenditures in the fund incurring the charges. The Self-Insurance Fund recognized approximately \$595 of revenues from other governmental funds for the year ended June 30, 2020.

The District is exposed to various risks of loss related to injuries; torts; theft or damage to and destruction of assets; errors and omissions; and natural disasters. The District is self-insured up to \$1 million and carries commercial excess insurance. Settlements have not exceeded insurance coverage for the years ended June 30, 2018 through 2020. There have been no reductions to the District’s insurance coverage during the year ended June 30, 2020. The District anticipates that all accrued claims losses will be paid within twelve months.

The total claims payable at June 30, 2020 of \$6.9 million was made up of approximately \$3.7 million in worker’s compensation claims (recorded in the Internal Service Fund) and \$3.2 million in property and general liability claims (accounted for in the General Fund and not accrued on the fund financial statements). Changes in the balances of claims liabilities during the years ended June 30, 2018, through June 30, 2020, were as follows:

Fiscal Year	Beginning Balance	New Claims	Payments on Claims	Ending Balance
2018	\$ 6,872	\$ 3,543	\$ (4,521)	\$ 5,894
2019	5,894	2,317	(1,368)	6,843

NOTE 14 – COMMITMENTS AND CONTINGENT LIABILITIES

Operating leases

The District has operating leases for various equipment. Future minimum required payments under these operating leases are:

2021	\$ 1,313
2022	546
2023	520
2024	<u>178</u>
Total minimum payments	<u><u>\$ 2,557</u></u>

Contracts

Under Oregon Revised Statute No. 279, should funding not be available, the following contracts may be cancelled without penalty. Estimated future District service commitments in excess of \$3.0 million are listed as follows:

Supplier	Commitments
Hoffman Construction Company of Oregon	\$ 173,738
Fortis Construction Inc	96,931
First Student Inc	83,315

Future District service commitments by fund are as follows:

	Commitments
General Fund	\$ 93,953
Capital Projects Fund	<u>321,255</u>
	<u><u>\$ 415,208</u></u>

Blanchard Educational Service Center (BESC)

In June 2000, Multnomah County leased a portion of the BESC facility from the District for \$3.5 million under a 99-year agreement. In December 2008, Portland Public Schools reacquired a portion of that space for \$800 thousand, which was fully paid as of June 30, 2014. This lease agreement stipulates that a portion of the initial lease payment received from Multnomah County be set aside to be applied toward the County's share of major repairs. Any unused balance earns interest at the monthly interest rate earned from the Local Government Investment Pool. As of June 30, 2020 the Multnomah County Reserve balance held in the Facilities Capital Fund was \$525.

Equipment Leases

In July 2012, the District entered into a 5-year lease for copier equipment from Copytronix, commencing August 2012. This lease was extended for an additional 5 years, through July 2022, for \$14 thousand per month.

In September 2015, the District entered into a 5-year lease for IT equipment (United Power Supply Towers) from First American Equipment Finance for \$12 thousand per month, commencing April 2016.

In July 2016, the District entered into a 5-year lease for telephone and internet equipment and software from Bank of America Public Capital for \$39 thousand per month, commencing July 2016.

In October 2017, the District entered into a multi-year lease for IT equipment (laptops, Chromebooks, etc.) from Insight Investments, LLC, commencing November 2017. The District has subsequently extended and amended this lease to include additional IT equipment and CISCO telephone hardware with varying terms (3 to 5 years in duration) and commencement dates (November 2017 to June 2020).

Pending Legal Actions

The District is a defendant in certain pending legal actions. Although the outcome cannot be determined, the District believes that settlement of these matters will not have a material effect on the District's financial position and results of operations.

Grantor Agencies

Amounts received or receivable from grantor agencies are subject to audit and adjustment by these agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the district. The amount, if any, of costs which may be disallowed by the grantor cannot be determined at this time, although district management expects such amounts, if any, to be immaterial.

School Support Fund

A substantial portion of the District's funding consists of an apportionment of funds from the State Basic School Support Fund. This apportionment is determined by a formula taking into account the District's weighted average daily student membership and revenue derived from local District sources. Local District sources may vary from year to year and may be revised retroactively or prospectively changing the amount of State Basic School Support received or to be received.

NOTE 16 – RELATED ORGANIZATIONS

The District includes six charter schools that are legally separate, tax-exempt organizations. The most recent data available indicates charter school total students were 1,385 (representing 2.8% of the District's total enrollment); and that charter schools' Net Position was \$1,208. Because of their size relative to the District, the charter schools do not fall under the component unit reporting requirements set forth by GASB Statement No. 39.

NOTE 17 – ARTS TAX

In November, 2012, voters in the City of Portland passed Ballot Measure 26-146 to restore school arts and music education, funded through an income tax of \$35 per person per year. In December of 2012, the District entered into an intergovernmental agreement IGA/R 59656 with the City of Portland to receive a portion of this tax, to be used to provide arts and music education, through certified arts and music teachers, to all K-5 students, including charter schools within the District. Revenues and expenditures for the year ended June 30, 2020 are recorded in the General Fund as follows:

	Arts Tax Revenues	Arts Tax Expenditures ¹	FTE Funded	Number of Schools Funded
Non-Charter Schools	\$ 5,081	\$ 5,269	73.28	59
Charter Schools	166	141	3.36	6

NOTE 18 – TAX ABATEMENTS

The District is subject to tax abatements (exemptions) granted by Multnomah, Washington and Clackamas counties of Oregon. Counties are allowed to grant abatements due to numerous Oregon Revised Statutes (ORS). Washington and Clackamas counties had no tax abatements affecting the District. Multnomah county has numerous abatement programs which affected District revenue as described below.

Historic Property (ORS 358.475 to 545)

The Special Assessment for Historic Property program is a state-sponsored incentive program instituted in 1975 to encourage the preservation and appropriate rehabilitation of properties listed in the National Register of Historic Places. Under this program a property is specially assessed for a period of 10-15 years. This allows the owner to restore or improve the condition of the property and not pay additional taxes on the resulting increase in the property's value until the ten-year benefit period has expired.

Day Care Centers, Student Housing and Religious Schools (ORS 307.145)

The child care facilities, schools, academies and student housing accommodations, owned or being purchased by incorporated eleemosynary institutions or by incorporated religious organizations, used exclusively by such institutions or organizations for or in immediate connection with educational purposes, are exempt from taxation.

Transit Oriented Development (ORS 307.600 to 307.637)

Cities and counties may grant a property tax exemption for multiple unit rental housing (excluding land) in areas designated as core areas, light rail station areas and transit oriented areas for up to 10 successive years. Housing that can qualify for this exemption includes newly constructed housing and property converted to housing use.

City of Portland Low Income Rental Housing (ORS 307.540 to 307.548)

In 1985, Oregon legislature authorized a property tax exemption for low-income housing held by charitable, nonprofit organizations. The tax exemption is intended to benefit low-income renters by alleviating property tax burden on those agencies that provide this housing opportunity. The qualifying property must be located within the city of Portland.

Enterprise Zone (ORS 285C.050 to 285C.255)

The Oregon Enterprise Zone program is a State of Oregon economic development program established, that allows for property tax exemptions for up to five years. In exchange for receiving property tax exemption, participating firms are required to meet the program requirements set by state statute and the local sponsor. The Enterprise Zone program allows industrial firms that will be making a substantial new capital investment a waiver of 100% of the amount of real property taxes attributable to the new investment for a 5-year period after completion. Land or existing machinery or equipment is not tax exempt; therefore, there is no loss of current property tax levies to local taxing jurisdiction.

NOTE 19 – SUBSEQUENT EVENTS

The date to which events occurring after June 30, 2020, the date of the most recent statement of net position, has been evaluated for possible adjustment to the financial statements or disclosure is December 2, 2020, which is the date on which the financial statements were available to be issued.

On November 3, 2020, District voters passed *Measure 26-215: Bonds to Improve Health, Safety, Learning by Modernizing, Repairing Schools*. This measure authorizes up to \$1.208 billion in principal amount of general obligation bonds, to be funded by property tax levies. Bond proceeds will finance renovation, replacement and repair of schools, building security and seismic safety enhancements, technology and curriculum replacements, and accessibility improvements.

To respond to funding challenges and additional expenditures resulting from the COVID-19 pandemic, the federal and state governments have approved additional grant funding for school districts. Most notably, the Coronavirus Aid, Relief, and Economic Security (CARES) Act will provide funding through the Elementary and Secondary School Emergency Relief (ESSER) Fund, and the Governors Emergency Education Relief (GEER). The District has received an allocation of approximately \$8 million of these funding sources for the fiscal year ended June 30, 2021.

REQUIRED SUPPLEMENTARY INFORMATION

The information in this section compares budget to actual for the District's General and major special revenue funds.

The budgetary basis of accounting for all funds is modified accrual, which is the same as that required by accounting principles generally accepted in the United States of America. Unless otherwise noted, a reconciliation of budgetary to generally accepted accounting principles activity is not required.

Notes

Beginning July 1, 1997 property taxes were based on an assessed value. Assessed value is defined as the lower of "maximum assessed value" or "real market value". For the 1997-1998 tax year, "maximum assessed value" was set at the 1995-1996 real market value less 10 percent. Assessed value for later years is limited to 3 percent annual increases.

The net levy is the actual imposed tax after adjustments and constitutional property tax limitations due to the passing of Measure 5 in 1990 and Measure 50 in 1997.

Source for real market values is Tax Supervising & Conservation Commission and Multnomah County annual reports yearly real market and assessed values by county.

Notes

The permanent and local option tax rates are determined by the State of Oregon Constitution and State Statutes. Existing districts cannot increase their permanent rate authority. Local option levies are limited to five years for operations and ten years for capital projects. Elections for local option levies must meet the double majority election test, except in the November general election in even numbered years. Rates for debt service are set based on each year's requirements.

Notes

The net taxes levied are combined for Multnomah, Washington, and Clackamas counties. Responsibility for the collection of all property taxes rests within each County's Department of Assessment and Taxation. Current taxes are assessed as of July 1, become due as of November 15 and become delinquent as of May 15. Assessed taxes become a lien upon real property in the fourth year of delinquency. Proceeds of tax sales are applied to delinquent taxes, interest and other costs attributable to the property sold.

¹ The net levy is the actual imposed tax after adjustments and constitutional property tax limitations due to the passing of Measure 5 in 1990 and Measure 50 in 1997. Additional information can be found on Schedule 5. Note that the Net Taxes Levied in Schedule 5 is based on the Assessed Value, while data for this schedule is based on the actual Net Taxes Levied.

² Collections in subsequent years includes current year revenue received for taxes levied in prior years.

Notes

Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the District. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses of the District. This process recognizes that, when considering the District's ability to issue and repay long-term debt, the entire debt burden borne by the residents and businesses should be taken into account. However, this does not imply that every taxpayer is a resident, and therefore responsible for repaying the debt of each overlapping government.

¹ Net Property-tax Backed Debt includes all General Obligation (GO) bonds and Limited-tax GO bonds, less self-supporting unlimited tax (GO) and self-supporting limited-tax (GO) debt.

² Overlapping Debt is calculated using Net Property-tax Backed Debt times Percent Overlapping that are provided by Oregon State Treasury, Debt Management Division.

³ Direct District debt is net of unamortized premiums and discounts.

¹ Enrollment counts are compiled on or about the first school day in October. An enrolled student is defined as a student who attends one or more schools or programs within the District. Regardless of the number of schools or programs attended, each student is counted only once; the counts are unduplicated.

² Rose City Park is a new school in fiscal year 2019

³ Roseway Heights converted from a K-8 to a middle school in fiscal year 2019

⁴ Weighted Average Daily Membership ("ADMw") is the enrollment figure, adjusted for part-time students and students with special needs, that is used to allocate revenues appropriated by the State to school districts. The most recent two years are preliminary data.

**INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE AND INTERNAL CONTROL OVER
 FINANCIAL REPORTING BASED ON AN AUDIT OF FINANCIAL STATEMENTS
 PERFORMED IN ACCORDANCE WITH OREGON STATE REGULATIONS**

Board of Education
 School District No. 1J, Multnomah County, Oregon
 Portland, Oregon

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of School District No. 1J, Multnomah County, Oregon (the District), as of and for the year ended June 30, 2020, which collectively comprise the District's basic financial statements, and have issued our report thereon dated December 2, 2020. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

COMPLIANCE

As part of obtaining reasonable assurance about whether the District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grants, including the provisions of Oregon Revised Statutes as specified in Oregon Administrative Rules 162-10-000 through 162-10-330 of the *Minimum Standards for Audits of Oregon Municipal Corporations*, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion.

We performed procedures to the extent we considered necessary to address the required comments and disclosures which included, but were not limited to the following:

- Deposit of public funds with financial institutions (ORS Chapter 295).
- Indebtedness limitations, restrictions and repayment.
- Budgets legally required (ORS Chapter 294).
- Insurance and fidelity bonds in force or required by law.
- Programs funded from outside sources.
- Authorized investment of surplus funds (ORS Chapter 294).
- Public contracts and purchasing (ORS Chapters 279A, 279B, 279C).
- State school fund factors and calculation.
- Public charter school requirements

In connection with our testing, nothing came to our attention that caused us to believe the District was not in substantial compliance with certain provisions of laws, regulations, contracts, and grants, including the provisions of Oregon Revised Statutes as specified in Oregon Administrative Rules 162-10-000 through 162-10-330 of the *Minimum Standards for Audits of Oregon Municipal Corporations* except as follows:

COMPLIANCE (Continued)

- In our test sample of 60 students, we found one student who was unenrolled as of March 1, after 10 consecutive absences. However, the student's last day of attendance was February 8, which should have been the unenrollment date. The student was properly re-enrolled on March 5.
- In our test sample of 60 teachers, supporting documentation could not be provided for the years of experience of one charter school teacher.

INTERNAL CONTROL OVER FINANCIAL REPORTING

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore material weaknesses or significant deficiencies may exist that have not been identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses.

PURPOSE OF THIS REPORT

This report is intended solely for the information and use of the Board of Education, Oregon Secretary of State Audits Division, and management and is not intended to be and should not be used by anyone other than these specified parties.
