

# Staff Analysis and Report to the Board

---

**Board Meeting/Work Session Date:** June 18, 2019 Board Work Session  
**Senior Lead:** Liz Large  
**Department Lead:** Joe Crelier  
**Staff Lead:**

**SUBJECT:** PPS Healthy and Safe Schools Plan, and Board adoption of plan before July 1, 2019

## **I. BACKGROUND**

OR 581-022-2223 Healthy and Safe School Plans, as amended 4/22/19, requires Oregon school districts to conduct on-going testing of water taps for lead content every six years, starting July 1, 2020. The rule requires each district's governing board to adopt their district's Healthy and Safe School Plan by July 1, 2019, and to forward the adopted plan to ODE by July 15, 2019.

## **II. RELATED POLICIES/BEST PRACTICES**

- 8.60.010-P Risk Management Program
- OAR 333-061-0400 Reducing Lead in School Drinking Water (New, effective 1/1/19)
- EPA 3Ts for Reducing Lead in Drinking Water in Schools and Childcare Facilities, revised October 2018

## **III. ANALYSIS OF SITUATION**

- The requirement for the Healthy and Safe School Plan represents the first time that on-going water testing for lead is required by law in Oregon schools. Additionally, it represents the first time a water testing plan is required to be adopted by the school district governing board.
- Not adopting the plan would place the district in non-compliance with ODE Division 22 rules.

## **IV. FISCAL IMPACT**

- The rule requires a district the size of PPS to test a portion of taps each year. Water sampling and mitigation costs will be occurring annually.
- The rule directs ODE to reimburse school districts for the costs of water testing, plus an administrative fee that is yet to be determined.
- ODE reimbursements may not be sufficient to cover the labor costs when water sampling is out-sourced.
- PPS will have to fund the mitigation of fixtures with elevated lead levels.

## **V. COMMUNITY ENGAGEMENT (IF APPLICABLE)**

- PPS Risk Management and Government Relations departments participated in the stakeholder meetings for Senate Bill 1062, OAR 581-022-2223, and OAR 333-061-0400.
- PPS has not held community engagement on the draft Healthy and Safe Schools Plan in advance of presenting the draft to the Board.
- The draft plan is based on the model plan provided by ODE.

**VI. TIMELINE FOR IMPLEMENTATION/EVALUATION**

1. April 1, 2019: The attached draft plan was submitted to ODE.
2. June 18, 2019: Review of draft plan by PPS Board of Directors
3. June 19-20: Editing and other work as directed
4. June 25, 2019 Board meeting: Adoption of the PPS Healthy and Safe Schools Plan

**VII. BOARD OPTIONS WITH ANALYSIS**

- A. Request Board review during the scheduled 6/18/19 work session.
- B. Request Board adoption of the PPS Healthy and Safe Schools plan by July 1, 2019.

**VIII. STAFF RECOMMENDATION**

Staff recommends adoption of the current draft, or a revised, PPS Healthy and Safe Schools Plan.

**IX. I have reviewed this staff report and concur with the recommendation to the Board.**

## Public Health Division - Chapter 333

### Division 61 DRINKING WATER

#### **333-061-0400**

#### **Reducing Lead in School Drinking Water**

(1) For the purposes of this rule, the following definitions apply:

(a) "School" means a school district, education service district, or public charter school.

(b) "Tap":

(A) Means any plumbing fixture in a building or on property owned or leased by a school where students or staff are present on a regular basis and where water is used for drinking or food preparation.

(B) Does not include any of the following classes of plumbing fixtures:

(i) Shower heads;

(ii) Pipes used to convey water to systems for building heat;

(iii) Dedicated eye wash stations and emergency showers;

(iv) Fixtures in areas with no student access used exclusively for building sanitation purposes by staff;

(v) Fixtures used exclusively for irrigation, unless it is reasonable to believe that students or staff will use water from that fixture for drinking; and

(vi) Fixtures in science and technical education classrooms that provide education to grades 6 through 12 exclusively where the fixtures:

(I) Have signs indicating they are not sources of drinking water; and

(II) Are not intended to be used for drinking or food preparation as part of the curriculum.

(2) Initial testing.

(a) Schools must test for lead in the water from each tap at least once between January 1, 2016 and June 30, 2020, or prior to occupancy for taps added after these dates. Initial testing does not need to be repeated if:

(A) Testing was conducted and mitigation completed before November 1, 2018 according to EPA's *3Ts for Reducing Lead in Drinking Water in Schools, Revised Technical Guidance from October 2006*, adopted by reference; or

(B) Testing was conducted and mitigation completed on or after November 1, 2018 according to EPA's *3Ts for Reducing Lead in Drinking Water in Schools and Childcare Facilities, October 2018*, adopted by reference.

(b) Samples must be collected "first draw," before any water is used from that tap on the day it is tested.

(3) On-going testing. Schools must collect a first draw sample as described in subsection (2)(b) of this rule and EPA's *3Ts for Reducing Lead in Drinking Water in Schools and Childcare Facilities, October 2018*, from each tap at least once every six years starting on July 1, 2020 according to OAR 581-022-2223, unless the following exemption applies:

(a) The tap was installed after January 4, 2014 and meets the lead-free standard of no more than 0.25 percent lead by weight and the piping feeding the tap is a material other than copper or was installed after January 4, 2014 and the solder and flux meets the lead-free standard of no more than 0.2 percent lead; and

(b) The tap was tested as required in section (2) and no more than 1 part per billion (ppb) of lead was detected.

(4) All samples must be collected using cold water and must meet the following criteria:

(a) Sample bottles must be 250 milliliters (mL) in volume.

(b) Sample bottles must be assigned a unique identification number and the following information about the sample must be recorded:

(A) The date and time of sample collection;

(B) The name of the person that collected the sample; and

(C) The location or a description of the tap from which the sample is collected.

(c) Samples must be collected on a day when school was in session the previous day.

(d) Samples must be analyzed by a laboratory accredited for lead analysis in drinking water by the Oregon Laboratory Accreditation Program according to OAR chapter 333, division 64.

(5) If a test result from a sample shows 15 or more parts per billion (ppb) of lead:

(a) A school must prevent access to the tap as soon as possible after receiving the sample test result and in no case more than 48 hours after receiving the test results; and

(b) A school must prevent access to the tap until testing and mitigation is completed according to section (6) of this rule; or

(c) If the tap is primarily used for sanitation purposes, such as restroom sinks, access may continue as long as clear signage is posted to notify people that the tap is not to be used for drinking or food

preparation until mitigation is complete. Mitigation must be completed within 30 days unless an alternate schedule is approved by the Department of Education.

(6) Following receipt of results that show a tap has 15 or more ppb of lead, a school must:

(a) Collect a flushed sample from that tap. This sample must meet all the criteria specified in section (4) of this rule and be collected after water has flowed from the tap for 30 seconds as described in Step 2 of Module 5 of EPA's *3Ts for Reducing Lead in Drinking Water in Schools and Childcare Facilities, October 2018*; and

(b) Complete an appropriate permanent mitigation in accordance with Module 6 of EPA's *3Ts for Reducing Lead in Drinking Water in Schools and Childcare Facilities, October 2018*; and

(c) Test the tap after mitigation is complete, demonstrating lead is less than 15 ppb before access to the tap is resumed. A first-draw sample as described in subsection (2)(b) must be collected and analyzed.

(7) All test results must be made available as specified in ORS 332.334.

# Oregon Department of Education

## Chapter 581

### Division 22

### STANDARDS FOR PUBLIC ELEMENTARY AND SECONDARY SCHOOLS

#### **581-022-2223**

#### **Healthy and Safe Schools Plan**

(1) The following definitions apply to this rule:

(a) “Department” means the Oregon Department of Education;

(b) “District” or “School District” means school districts as defined by ORS Chapter 332;

(c) “Education Service District” or “ESD” means an education service district as defined by ORS Chapter 334;

(d) “Electronic Communications Program” means a program or service that allows a School District, Public Charter School or Education Service District to send out electronic communications and email to multiple recipients at once;

(e) “Facilities” means all buildings or properties owned or leased by a District, ESD, or Charter School that are required to be included in the HASS Plan;

(f) “Final Test Results” means final test results for any test required as part of the Healthy and Safe Schools Plan that contains the results from the appropriate laboratory as well as enough additional information to contextualize and explain the laboratory results;

(g) “Healthy and Safe Schools Plan” or “HASS Plan” means a plan that complies with all requirements in ORS 332.331;

(h) “OHA” means the Oregon Health Authority;

(i) “Public Charter School” or “Charter School” means a charter school as defined by ORS Chapter 338;

(j) “Required Fixtures” means fixtures required to be tested for elevated levels of lead per OAR 333-061-0400; and

(k) “Testing Cycle” means a six year cycle, as required per OAR 333-061-0400 in which School Districts, Education Service Districts and Public Charter Schools test all Required Fixtures in all Facilities for elevated levels of lead.

(2) The Department shall publish on its website, and send out via electronic means, a copy of model HASS Plans to Districts, ESDs, and Charter Schools by January 1, 2019.

(3) The model HASS Plan shall:

(a) Contain language that Districts, ESDs, and Charter Schools may adopt in creating their HASS Plans;

(b) Contain all elements required under ORS 332.331; and

(c) Contain instructions to enable Districts, ESDs, and Charter Schools to complete their HASS Plans according to the model plan.

(4) Districts, ESDs, and Charter Schools shall submit an electronic copy of a draft HASS Plan to the Department by April 1, 2019.

(5) The draft HASS Plan submitted by Districts, ESDs, and Charter Schools, shall:

(a) Contain all requirements listed in ORS 332.331; and

(b) Provide a schedule of when the District, ESD, or Charter School will test Required Fixtures for each Facility based on the schedule set forth in this rule.

(6) The Department shall review draft model plans and report their results back to Districts, ESDs, and Charter Schools.

(7) The governing body of a District, ESD, or Charter School shall adopt the final HASS Plan by July 1, 2019.

(8) Districts, ESDs, and Charter Schools must submit an electronic copy of their adopted HASS Plan to the Department by July 15, 2019.

(9) If a District, ESD, or Charter School has a change in Facilities, personnel, policies and procedures, or any other change, which requires updating their HASS Plan, the District, ESD, or Charter School shall submit an electronic copy of the revised HASS Plan to the Department by June 1 of the school year in which the revisions occurred.

(10) By January 1, 2019, the Department shall publish on its website and distribute an electronic copy of a model annual statement required by ORS 332.334 to Districts, ESDs, and Charter Schools.

(11) By June 1 of each year, Districts, ESDs, and Charter Schools shall submit an electronic copy of their annual statement to the Department and all others required by ORS 332.334.

(12) Districts, ESDs, and Charter Schools that have email addresses for parents of minor students and students over 18 years of age may email them the annual certification.

(13) Districts, ESDs, and Charter Schools that use an electronic communications program, in place of an email list, to send regular communications to members of their community may use that program to provide Final Test Results as part of a regular communication to members of the community.

(14) If the electronic communication programs allow the District, ESD or Charter School to specify which community members receive an email communication, then school districts, education service districts, or public charter schools may limit who receives the communication of Final Test results of a specific building so long everyone connected with that building receives the required notice.

(15) The Department shall reimburse Districts, ESDs, and Charter Schools that complete initial testing between July 1, 2019 and June 30, 2020 for testing costs as stated in subsections (17)(a) through (c) of this rule plus an additional ten dollars.

(16) All Districts, ESDs, and Charter Schools must test all Required Fixtures for elevated levels of lead every 6 years starting July 1, 2020 per OAR 333-061-0400.

(17) The Department shall reimburse districts for the following costs:

(a) Actual testing of water samples for elevated levels of lead, as evidenced by invoices from an OHA accredited lab;

(b) Shipping costs to send samples to an OHA accredited lab;

(c) Costs of supplies needed to collect samples; and

(d) An additional amount to be determined by the Department that:

(A) Provides as practical as possible an equal amount per sample across all tests; and

(B) Help districts offset some of the costs of collecting the samples and associated administrative costs.

(18) The Department may reimburse Districts, ESDs, and Charter Schools for testing done on fixtures in addition to the testing done on Required Fixtures. The additional reimbursement shall be at the discretion of the Department and the Department shall consider:

(a) Total available funds for reimbursement; and

(b) Total additional tests done.

(19) Districts and ESDs shall use the following schedule for testing through the Testing Cycle:

(a) Districts with 1-3 schools within their district will test all Required Fixtures in the first year of the Testing Cycle;

(b) Districts with 4-6 schools within their district will test all Required Fixtures in the second year of the Testing Cycle;

(c) ESDs will test all Required Fixtures in the third year of the Testing Cycle;

(d) Districts with 7-8 schools within their district will test all Required Fixtures in the third and fourth years of the Testing Cycle;

(e) Districts with 9-10 schools within their district will test all Required Fixtures in the fifth and sixth years of the Testing Cycle;

(f) Districts with 11-12 schools within their district will test all Required Fixtures in the fourth, fifth, and sixth years of the Testing Cycle;

(g) Districts with 13-15 schools within their district will test all Required Fixtures in the fourth, fifth, and sixth years of the Testing Cycle;

(h) Districts with 16-20 schools within their district will test all Required Fixtures in the third, fourth, fifth, and sixth years of the Testing Cycle;

(i) Districts with over 20 schools within their district will test a portion of all Required Fixtures in each year of the Testing Cycle;

(20) Charter Schools will test all Required Fixtures according to the testing schedule for the district in which they are located.

(21) Districts and Charter Schools that have multiple years to test all Required Fixtures shall report in their HASS Plans when each Facility will be tested.

(22) The Department shall approve District, ESD, and Charter School schedules.

(23) If the Department does not approve a schedule, the District, ESD, or Charter School shall resubmit their schedule.

(24) The Department may determine a schedule for when Districts, ESDs, and Charter Schools must submit their reimbursement requests.

(25) The Department may require Districts, ESDs, and Charter Schools to report data using reimbursement templates and forms developed by the Department for this purpose.

## Responsible Position

The position responsible for maintaining and implementing the Portland Public Schools Healthy and Safe Schools Plan is the Director of Risk Management.

Joe Crelier, ARM  
Director of Risk Management  
Portland Public Schools  
(503) 916-3204  
[jcrelier@pps.net](mailto:jcrelier@pps.net)

## Communications

The District will make all final test results and detailed information explaining the test results, available to the public within 10 business days of receiving the results by posting on the District's Healthy and Safe Schools webpage. [www.pps.net/healthyschools](http://www.pps.net/healthyschools)

Notice of the significant results will be sent over the email system to the affected individual school communities. Hardcopy results are maintained at the District's central office in the Risk Management Department.

# Radon

In accordance with Oregon Revised Statute 332.345, Portland Public Schools has developed the following radon testing plan:

## **Schedule of radon testing**

- Radon testing began during the 2015/2016 school year.
- Testing will continue annually to meet the five or 10-year re-testing requirements.
- Testing will occur in the recommended testing period described as “winter heating months,” typically October through March.

## **Results**

Radon testing results will be available on the District’s web site and provided to the School Board and the Oregon Health Authority. Results will include measurements and reference the level of radon at which the United States Environmental Protection Agency recommends schools take action to reduce indoor radon.

## **Methodology**

Portland Public Schools has contracted with PBS Engineering and Environmental Inc. of Portland, OR for radon level testing, contract number RS- 62476. Additional radon testing resources will be utilized as needed. Portland Public Schools and its contractors will follow the scope and intent of Oregon Health Authority’s Testing for Elevated Radon in Oregon Schools version 1.0– 2016 and EPA guidelines. Construction of mitigation projects are published for competitive bidding.

## **Plan submission**

The District’s radon plan was submitted to the Oregon Health Authority on August 30, 2016, via e-mail to [radon.program@state.or.us](mailto:radon.program@state.or.us). Updates and revisions have been submitted to OHA at the beginning of each school year.

# Elevated Levels of Lead in Water Used for Drinking or Food Preparation

In accordance with OAR 333-061-0400 (Reducing Lead in School Drinking Water) and OAR 581-022-2223 (Healthy and Safe School Plans), all Oregon school districts, education service districts, and public charter schools are required to test for, and mitigate exposure to, elevated levels of lead in water used for Drinking and Food Preparation.

## **Initial testing**

Initial testing is required between January 1, 2016 and June 30, 2020. Portland Public Schools has completed initial testing and continues to replace fixtures and return fixtures to service.

## **Ongoing testing**

Ongoing testing is required every six years beginning July 1, 2020. During every school year, Portland Public Schools will conduct water testing on a portion, approximately 1/6, of the applicable district-wide fixture inventory.

## **Sampling methodology**

Collection of water samples is done in accordance with OHA rules and EPA guidance in the 3Ts for Reducing Lead in Drinking Water in Schools and Childcare Facilities, October 2018.

## **Test labs**

Test labs utilized will be accredited by Oregon Health Authority

## Lead Paint

In order to comply with the United States Environmental Protection Agency's Renovations, Repair and Painting Program Rule, and OAR 581-022-2223(5)(e), Portland Public Schools painting staff and contracted painters are RRP certified. Current paint work abates or encapsulates deteriorating paint.

## Integrated Pest Management

The district has adopted an integrated pest management plan as required by ORS 634.700 through 634.750. Community members may access a copy of Administrative Directive 3.30.083-AD here - [link](#)
