December 13, 2022

To the Community of School District No. 1J, Multnomah County, Oregon, and to the Members of the Board of Education:

We are pleased to submit the Annual Comprehensive Financial Report (ACFR) of School District No.1J, Multnomah County, Oregon (Portland Public Schools or the District or PPS) for the fiscal year ended June 30, 2022, together with the audit opinions of our auditors as required by Oregon Revised Statutes. Responsibility for both the accuracy of the presented data and the completeness and fairness of the presentation, including all disclosures, rests with District management. We believe the financial statements and related information reflecting the financial position and results of the operations of the District are stated fairly in all material aspects. All disclosures necessary to enable the reader to gain understanding of the District's financial affairs have been included.

To provide a reasonable basis for making these representations, District management has established and maintains an internal control structure designed to ensure that the assets of the District are protected from loss, theft or misuse and to ensure that adequate accounting data are compiled to allow for the preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP). Our internal control structure is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived; and (2) the valuation of costs and benefits requires estimates and judgments by management. The internal control structure is subject to periodic evaluation by management. We believe our internal control structure adequately safeguards the assets and provides reasonable assurance of proper recording of all financial transactions. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

Financial Report Presentation

The financial statements of the District are prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the governing body and establishes governmental accounting and financial reporting principles. The more significant of the District's accounting policies are discussed in Note 1 of these financial statements.

Designed to meet the needs of a broad spectrum of financial statement readers, this Annual Comprehensive Financial Report (ACFR) is divided into four major sections:

The **Introductory Section** includes the table of contents, this transmittal letter, the District's organizational chart, and copies of certificates awarded for Portland Public Schools' fiscal year 2020-21 ACFR.

The **Financial Section** includes the Independent Auditor's Report, Management's Discussion and Analysis (MD&A), the basic financial statements including notes to the basic financial statements, required supplementary information (RSI), and supplementary information including major fund financial statements.

The **Statistical Section** includes selected financial and demographic information, generally presented on a multi-year basis. These schedules are designed to improve the understandability and usefulness of the information presented in the financial section.

The **Audit Comments and Disclosures Section** includes disclosures required by the Minimum Standards for Audits of Oregon Municipal Corporations.

GAAP requires that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management’s Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The District’s MD&A can be found immediately following the Independent Auditor’s Report.

Profile of the District

Portland Public Schools, founded in 1851, is a PK-12 urban school district in Portland, Oregon. The District has no component units and is not a component unit of any other government. With more than 45,000 students in 113 schools and other programs, it is one of the largest school districts in the Pacific Northwest, and the largest and oldest school district in Oregon. With highly trained teachers and staff, an engaged parent community, strong partnerships, and a focus on closing the racial educational achievement gap, the PPS graduation rate has consistently improved since 2009-10. Thanks to the state Legislature, school funding is improving and thanks to Portland voters, school improvement general obligation bonds are fueling the modernization of our aging school buildings for 21st century learning.

The District covers an area over 152 square miles, including portions of the cities of Portland (total population 641,162), Lake Oswego (total population 40,411), and Milwaukie (total population 20,946), based on 2021 estimates by the U.S. Census Bureau Population Estimates Program (PEP). The District maintains over 100 campuses with more than 300 buildings and a total floor area of nearly 10 million square feet. The median age of PPS school buildings is 83 years for elementary schools, 83 years for middle schools, and 96 years for high schools. Please see Schedule 17 of the Statistical Section for additional details of each building’s size, age and enrollment.

Student enrollment as of October 2021 was 45,497. Enrollment counts are compiled annually on or about the first of October as required by the State of Oregon. An enrolled student is defined as a student who attends one or more schools or programs within the District. Regardless of the number of schools or programs attended, each student is counted only once; the counts are not duplicated.

The District continues to experience enrollment decline from a high of 49,557 in fiscal year 2017-18 to 45,497 in fiscal year 2020-21. Demographic studies conducted by Portland State University (PSU) project enrollment levels to continue to decrease. The PSU “Middle Series Forecast” scenario estimates enrollment reaching a low of 39,123 in fiscal year 2035-36. Overall enrollment impacts due to the COVID-19 pandemic are only just beginning to be seen and the long-term implications are yet to be fully understood. Additional detail regarding enrollment projections may be found at: <https://www.pps.net/Page/1834>.

The Board of Education

An elected seven-member board establishes and oversees the District’s policies. The Board of Education is the chief governing body and is exclusively responsible for its public decisions. A list of board members can be found on page 9 of this report. The chief administrative officer of the District is the Superintendent, who is appointed by the Board. The Board of Education is accountable for all fiscal matters that significantly affect operations. Guadalupe Guerrero is the Superintendent of Portland Public Schools. Mr. Guerrero served as the chief administrative officer of the district for all of fiscal year 2021-22.

Budgetary Controls

Under Oregon Revised Statutes (33.710), school districts are municipal corporations empowered to provide elementary and secondary educational services for the children residing within their boundaries. Portland Public Schools fulfills this responsibility by building, operating, and maintaining school facilities, developing and maintaining approved educational programs and courses of study (including career/technical educational programs and programs for English language learners and special-needs students), and providing for transportation and feeding of students in accordance with District, State and Federal program guidelines. This report includes all funds of the District.

The District is required by the State of Oregon to adopt an annual budget for all funds subject to the requirements of Municipal Audit Law as outlined in the 2017 Oregon Revised Statutes 297.405 to 297.555 and 297.990. The budget for each individual fund is a plan for the financial operations to be conducted during the coming fiscal year and is adopted annually, prior to July 1, by the Board of Education after certification by the Multnomah County Tax Supervising and

Conservation Commission. The level of budgetary control, that is the level at which expenditure cannot legally exceed the appropriated amount, is established by major function category: Instruction, Support Services, Enterprise & Community Services, Facilities Acquisition & Construction, Debt Service, Transfers Out, Contingency and Ending Fund Balance. After adoption, the budget may be amended through procedures specified in State statute and Board policy.

District Budget Principles

The District's governing body adopted budget principles, by way of resolution number 5229 at its March 8, 2016 meeting. These principles remain in effect today. Exhibit A to that resolution provides detail for each of the principles, but for the sake of brevity, only the principles are presented below. These principles, along with the District's Vision, System shifts and the Board adopted goals, shape the financial planning and analysis activities for the district.

- Providing Students with an Exceptional Educational Experience and Ensuring their Academic Success Should Drive the Budget Process
- Decisions Should Be Driven by Data
- Base Resourcing Decisions on Cost-Effectiveness
- Prioritize the Core Program in All Schools
- Critically Re-Examine Patterns of Spending
- Provide Every Student with Equitable Access
- Take a Long-Term Perspective
- Be Transparent

Service Efforts and Accomplishments

On June 25, 2019, the Board of Education passed resolution number 5909, Portland Public Schools reImagined: Preparing Our Students to Lead Change and Improve the World as the District's Vision. This Vision focuses on what we want to be true for our graduates and includes four main areas: a Graduate Portrait, Educator Essentials, System Shifts and Core Values.

On October 15, 2019, the Board adopted by resolution number 5984, Portland Public Schools Board Goals for 2019-22. These include the following academic goals for our students that align with the community and District vision of the Graduate Portrait:

- Third Grade Reading
- Fifth Grade Mathematics
- Eighth Grade Graduate Portrait
- Post-Secondary Readiness/Ready for College & Career

The Vision, accountability metrics and the theory of action will continue to shape and define the financial planning and decision making as well as serve as the District's roadmap.

Source: ODE Cohort Graduation Rates - <https://www.oregon.gov/ode/reports-and-data/students/Pages/Cohort-Graduation-Rate.aspx>

The PPS four-year graduation rate has improved from 73.7 percent for the Class of 2015 to 84.4 percent for the Class of 2021 (the most recent year available from Oregon Department of Education). The average graduation rate for the State of Oregon Class of 2021 was 80.6 percent.

Factors Affecting Financial Condition

The information presented in the financial statements is perhaps best understood when it is considered in the broader perspective of the specific environment within which the District operates.

PPS derives approximately 81.5 percent of its General Fund revenues from the State School Fund and the allocation of certain property taxes within the associated funding distribution formula. Roughly half of the State School Fund money comes via the appropriation made by the state legislature, while the other half is the aggregate of the local permanent rate property taxes from school districts across the state. The state budget and the legislative appropriation are highly dependent upon state revenues through income taxes. The outlook for the state economy is a leading indicator for the health of this revenue stream and is, therefore, of great importance for PPS.

The second largest revenue item for the District – about 15.2 percent of General Fund revenues - is its local option levy which is a property tax based upon assessed values of property in the PPS taxing district. The local option levy revenues are significantly influenced by real market values of homes within the PPS taxing district.

Oregon State Economy – In June 2022, Oregon’s unemployment rate fell to 3.5 percent from a high of 13.2 percent in April 2020. This is the lowest unemployment rate since the COVID-19 pandemic began.

Source: Bureau of Labor Statistics, Unemployment Data

Approximately 102 thousand jobs were gained over the past year, contributing to a total workforce increase of 5.5 percent from June 2021 to June 2022. The Leisure & Hospitality sector experienced the greatest percentage gains, with 43 thousand jobs gained, representing a 26.0 percent year-over-year increase.

Source: Oregon Economy at a Glance - <https://www.bls.gov/regions/west/oregon.htm#eag>

Local Economy – Portland and the surrounding metropolitan area have a widely diversified economy. Its centralized location and excellent transportation facilities have established the area as a major distribution point on the West Coast for wholesale trade and high-tech exports. During 2021-22, Education, Health Services, and Hospitality accounted for 26.3 percent of the city's economy while the Trades, Transportation and Utilities made up another 18.9 percent.

Long Term Financial Planning and Major Initiatives - For many years, the District did not have adequate funds for capital improvements. In 2012, PPS updated its long-range facilities plan with the assistance of an advisory committee of more than 30 community members that brought a variety of professional perspectives as well as that of teachers, parents, and other interested participants. This committee held a series of community meetings, reaffirmed the need for a capital bond, and laid the foundation for the Board's deliberation on a bond proposal and the criteria for definition of projects to be financed.

In November of 2012, the voters of the district authorized Portland Public Schools to issue up to \$482 million of general obligation bonds to improve school buildings, with 67 percent of voters supporting this capital investment program. This was a landmark accomplishment for PPS after many years of work and we are enormously grateful to the voters in this district for their continued support of PPS and for public education in our district.

The major projects at Roosevelt, Franklin and Faubion schools were completed in the fall of 2017. Grant High School was completed in time for the start of the 2019-20 school year.

A second \$790 million capital bond was passed by voters in May 2017. This bond funds renovations and additions at Benson and Leodis V. McDaniel (formerly known as Madison) High Schools, and full rebuilds of Lincoln High School and Kellogg Middle School. Approximately 30 percent of the budgets for these projects comprehensively address health and safety issues.

Leodis V. McDaniel and Kellogg both opened for the school year starting in 2021. Construction is progressing at Lincoln and is scheduled to be complete in 2023. Modernization work at Benson began in the summer of 2021. Design and work will continue with health and safety projects that improve accessibility, upgrade fire alarms and fire sprinklers, reduce hazardous materials, repair or replace deteriorating school roofs, upgrade school safety and security and strengthen schools against earthquakes.

A third \$1.2 Billion capital bond was passed by voters in November 2020. This bond funds additional health and safety projects across the district, replaces curriculum materials and technology equipment districtwide, modernizes Jefferson High School, completes Benson Polytechnic High School, plans additional neighborhood school projects and continues design and planning to modernize Cleveland and Ida B. Wells-Barnett (formerly known as Wilson) High Schools. PPS remains committed to deliver robust high school and middle school projects as envisioned by the voters, steward bond resources prudently and efficiently, and build and maintain the trust of voters in our community.

Charter Schools

Oregon statute provides state funding for charter schools that flow through the District for schools that local school boards of education have granted a charter. The District had five charter schools in operation during the 2021-22 fiscal year. Due to their size relative to the District, the charter schools do not fall under the component unit reporting requirements set forth by GASB Statement No. 39.

Independent Audits

The provisions of Oregon Revised Statutes require an independent audit of the financial records and fiscal affairs of the District. The auditors selected by the Board of Education, Talbot, Korvola & Warwick, LLP, have completed their audit of the basic financial statements and, accordingly, have included their unmodified Independent Auditor's Report in the financial section of this report.

Uniform Administrative Requirements, Cost Principles and Audit Requirements for Federal Awards (Uniform Guidance) require state and local governments that expend \$750,000 or more in federal assistance in a year have a special form of audit conducted for that year. Since 1989, Portland Public Schools has issued a separate report on these requirements. Talbot, Korvola & Warwick, LLP have also provided various required reports. Contained in the separately issued Report on Audit Requirements for Federal Awards is the Schedule of Expenditures of Federal Awards, and the required reports on internal controls and compliance with laws and regulations.

Awards and Acknowledgments

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the District for its Annual Comprehensive Financial Report for the fiscal year ended June 30, 2021. This was the 42nd consecutive year that the District has achieved this prestigious award. In order to be awarded a Certificate of Achievement, a governmental entity must publish an easily readable and efficiently organized ACFR that satisfies both GAAP and applicable legal requirements. A Certificate of Achievement is valid for a period of one year only. We believe our current report continues to conform to Certificate of Achievement Program requirements, and we are submitting it to GFOA to determine its eligibility for this coveted Certificate.

The Association of School Business Officials International (ASBO) awarded its Certificate of Excellence in Financial Reporting to the District for its Annual Comprehensive Financial Report for the fiscal year ended June 30, 2021. The District was celebrated at ASBO's 2022 Fall Conference for its 50th consecutive year earning this significant award. The Certificate of Excellence is recognition that the District has met the highest standards in school financial reporting as adopted by ASBO. The District believes that this report for fiscal year 2021-22, which will be submitted to ASBO for review, will also conform to these standards.

We wish to express our appreciation to the staff of the Finance Department and members of other District departments who assisted in the preparation of this Annual Comprehensive Financial Report. We further extend our appreciation to the members of the Board of Education, employees of the District, and all of the Portland community whose continued cooperation, support, and assistance have contributed greatly to the achievements of Portland Public Schools.

Respectfully submitted,

INDEPENDENT AUDITOR'S REPORT

Board of Education
School District 1J, Multnomah County, Oregon
Portland, Oregon

Report on the Audit of the Financial Statements

Opinions

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the School District No. 1J, Multnomah County, Oregon (the District), as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the Table of Contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the District, as of June 30, 2022, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for 12 months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

INDEPENDENT AUDITOR'S REPORT (Continued)

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that Management's Discussion and Analysis, Schedule of Changes in the District's Total OPEB Liability and Related Ratios-RHIS, Schedule of the District's Proportionate Share of Net OPEB Liability (Asset) and District Contributions-RHIA, Schedule of the District's Proportionate Share of Net Pension Liability (Asset) and District Contributions, Schedule of Changes in the District's Total Pension Liability and Related Ratios-Stipend, and Notes to the Required Supplementary Information, as listed in the Table of Contents, be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with GAAS, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

INDEPENDENT AUDITOR'S REPORT (Continued)

Accounting principles generally accepted in the United States of America require that the accompanying budgetary comparison information for the General Fund and Special Revenue Fund, as listed in the Table of Contents as Required Supplementary Information, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with GAAS. In our opinion, the required budgetary comparison for the General Fund and Special Revenue Fund are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The other schedules and combining statements, listed in the Table of Contents as Supplementary Information, are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with GAAS. In our opinion, the Supplementary Information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information

Management is responsible for the other information included in the Annual Comprehensive Financial Report. The other information comprises the Introductory and Statistical Sections, as listed in the Table of Contents but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 9, 2022 on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering District's internal control over financial reporting and compliance.

INDEPENDENT AUDITOR'S REPORT (Continued)

Other Reporting Required by Oregon Minimum Standards

In accordance with *Minimum Standards for Audits of Oregon Municipal Corporations*, we have also issued our report dated December 9, 2022, on our consideration of the District's compliance with certain provisions of laws and regulations, including the provisions of Oregon Revised Statutes as specified in Oregon Administrative Rules. The purpose of that report is to describe the scope of our testing of compliance and the results of that testing and not to provide an opinion on compliance.

SCHOOL DISTRICT NO. 1J, MULTNOMAH COUNTY, OREGON

Management's Discussion and Analysis

As management of School District No.1J, Multnomah County, Oregon (Portland Public Schools or the District or PPS), we offer readers this narrative overview and analysis of the financial activities of Portland Public Schools for the fiscal year ended June 30, 2022. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal, which can be found on pages 1-8 of this report.

FINANCIAL AND BUDGETARY HIGHLIGHTS

Financial

At July 15, 2021, authorized by Board Resolution No. 6314, the District issued full faith and credit bonds, Series 2021. The bond proceeds were used to finance a portion of the District's estimated unfunded actuarial liability with the Oregon Public Employees Retirement System (OPERS) and to pay associated issuance costs. The bonds were issued at a par amount of \$399.4 million, with a net original issue premium of \$1.4 million. After issuance costs, the District transferred \$398.7 million to OPERS to be deposited in a "side account" in the PERS fund and used as a prepayment towards the District's annual pension expenses. The District anticipates the total costs of financing the District's actuarial obligation in this manner will result in a significant savings when compared to paying for such costs as additional contribution rates to OPERS.

Budget

On June 15, 2021 the Board of Education (the Board) adopted the fiscal year 2021-22 budget by way of Board Resolution No. 6323. The District's fiscal year 2021-22 budget was based on the Oregon Legislature's biennial budget cycle for 2021-2023 that includes a State School Fund allocation of \$9.3 billion, a Student Investment Account (SIA) allocation of \$778.8 million, and a High School Success (Measure 98 or M98) allocation of \$314.5 million.

The fiscal year 2021-22 budget continued to focus available resources on the PPS Strategic Plan and Vision: PPS Reimagined. Five strategic system shifts will be prioritized through 2025: a connected and transformative school District; racial equity aligned systems and structures; cultivating system-wide learning and a diverse workforce; transformative curriculum and pedagogy; and a culture of physical and emotional safety. Other investments from the fiscal year 2021-22 budget include pandemic-related response and providing equity resources to schools targeting students of color, students on IEPs and emergent bilingual students.

On January 25, 2022, the Board voted to amend the fiscal year 2021-22 budget, by way of Board Resolution No. 6437. This first amendment to the budget revised appropriations and recognized resources to align the budget with updated projections.

- **General Fund:** \$404.7 million to true up beginning fund balance to align with fiscal year 2020-21 audited financials and adjust appropriations across Instruction, Support Services and Debt Service (PERS UAL). The most significant adjustment was to recognize resources and adjust appropriations related to the July 2021 issuance of Limited Tax Pension Obligations, Series 2021.
- **Special Revenue Fund:** \$11.4 million to true up beginning fund balance to align with fiscal year 2020-21 audited financials and to recognize additional resources from state and Federal grants. Resource appropriations were adjusted across Instruction, Support Services and Enterprise & Community Services to align with updated spending plans.
- **Debt Service Fund:** \$18.6 million to true up beginning fund balance to align with fiscal year 2020-21 audited financials and adjust appropriations to account for the July 2021 issuance of the Limited Tax Pension Obligations, Series 2021.
- **Capital Projects Fund:** \$21.8 million to true up beginning fund balance to align with fiscal year 2020-21 audited financials and to align with updated spending plans.

- **Internal Service Fund:** \$0.7 million to true up beginning fund balance to align with fiscal year 2020-21 audited financials.

On June 14, 2022, the Board voted to amend the fiscal year 2021-22 budget a second time, by way of Board Resolution No. 6521. This second amendment to the budget revised appropriations to align with current spending projections.

- **Special Revenue Fund:** \$250 was allocated from Instruction to Facilities Acquisition & Construction to reflect additional anticipated spending.
- **Internal Service Fund:** \$622 was allocated from Contingency to Support Services to reflect additional anticipated spending.

Other Highlights

In November 2012, District voters passed an eight-year, \$482.0 million capital bond measure. With the 2012 School Building Improvement Bond, Portland Public Schools began a 30-year effort to modernize every school in the District. The 2012 authorization enabled the district to make improvements in more than 51 schools, including seismic, accessibility and science classroom upgrades. In addition, Franklin, Roosevelt and Grant High schools were modernized and Faubion PK-8 was completely rebuilt.

At June 30, 2022, the 2012 authorization had a remaining balance of \$507 thousand, comprised of proceeds and related investment earnings.

Summary of Bond Resources as of June 30, 2022 (in thousands)

Authorization		Issued		Unspent Balance
Year	Amount	Par	Premium	
2012	\$ 482,000	\$ 482,000	\$ 56,937	\$ 507
2017	790,000	790,000	69,408	202,698
2020	1,208,000	365,465	29,574	297,349
	<u>\$ 2,480,000</u>	<u>\$ 1,637,465</u>	<u>\$ 155,919</u>	<u>\$ 500,555</u>

In May 2017, District voters passed an eight-year, \$790.0 million capital bond measure. The 2017 Health, Safety and Modernization Bond includes the modernization of Leodis V. McDaniel (formerly known as Madison) and Benson Polytechnic High schools; the construction of a new Kellogg Middle school, a new Lincoln High school and a new Multiple Pathways to Graduation building (on the Benson campus); and district-wide health and safety projects.

The health and safety projects include:

- water quality improvements,
- roof replacements, including roof-level seismic improvements,
- security upgrades at all District schools,
- lead paint, asbestos and radon remediation,
- installation of new fire alarm and sprinkler systems to improve fire safety, and
- ADA upgrades and improvements, including new elevators.

McDaniel High school has been completely modernized and a new Kellogg Middle school has been built. Both schools opened to students in Fall 2021. Construction of a new Lincoln High school began in January 2020. Students will occupy the building in Fall 2022 and the new athletic fields will open in 2023. Construction for the modernization of Benson Polytechnic High school and a new Multiple Pathways to Graduation building on the Benson campus began in summer 2021 and are scheduled to be completed in Fall 2024.

At June 30, 2022, the 2017 authorization had a remaining balance of \$202.7 million.

In November 2020, District voters passed a \$1.208 billion capital bond measure. The measure included authorization to renovate Jefferson and Benson High schools and add a facility for alternative school programs. Additionally, the measure authorized updates to curriculum materials and technology improvements, master planning for Cleveland and Ida B. Wells-Barnett (formerly known as Wilson) High schools and for planning/adding additional capacity at Roosevelt High school. The measure also provided for the development of a culturally responsive community plan and to make targeted investments in neighborhood school facilities in North and Northeast Portland.

Continuing health and safety projects include:

- Removal of barriers to accessibility in schools across the District;
- Repair/replacement of leaking or deteriorating school roofs;
- Seismic retrofit at up to three schools;
- Repair/replacement of high priority mechanical systems (heating, cooling and ventilation);
- Strengthening security measures in schools.

In December 2020, the District issued \$365.5 million of the \$1.208 billion authorized. A premium of \$29.6 million was realized on the sale. At June 30, 2022, \$297.3 million of the initial bond sale remained unspent.

OVERVIEW OF THE FINANCIAL STATEMENTS

This management's discussion and analysis is intended to serve as an introduction to Portland Public Schools' basic financial statements. The basic financial statements are comprised of three components: (1) government- wide financial statements; (2) fund financial statements; and (3) notes to the basic financial statements. In addition to the basic financial statements, this report also contains required and other supplementary information.

Government-Wide Financial Statements are designed to provide readers with a broad overview of the District's finances in a manner similar to a private-sector business. The government-wide financial statements can be found on pages 31-33 of this report.

Fund Financial Statements are designed to demonstrate compliance with finance-related legal requirements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities and objectives. Portland Public Schools' funds can be divided into two categories: governmental funds and proprietary funds. Reports by fund are shown in the Financial Section of the report beginning on page 35.

Governmental Funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus more narrowly on near-term inflows and outflows of available resources, as well as on balances of available resources at the end of the fiscal year.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the District's near-term financial decisions. The Governmental Fund Balance Sheet and the Governmental Fund Statement of Revenues, Expenditures, and Changes in Fund Balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

Portland Public Schools designates four major governmental funds. Information is presented separately for the General Fund, Special Revenue Fund, Debt Service Fund, and the Capital Projects Fund in the Governmental Fund Balance Sheet and the Governmental Fund Statement of Revenues, Expenditures, and Changes in Fund Balances.

Portland Public Schools adopts an annual appropriated budget for each of its funds. A budgetary comparison statement

has been provided for each fund individually in either required or supplementary information to demonstrate compliance with the fund level budgets. The basic governmental fund financial statements can be found on pages 35-41 of this report.

Proprietary funds are used to account for a government's business-type activities. The District maintains only one type of proprietary fund, which is an internal service fund. Internal service funds are accounting devices used to accumulate and allocate costs among various internal functions. The District uses an internal service fund to account for its self-insurance activities related to workers compensation. Because Portland Public Schools has no business-type functions, this service benefits governmental functions and has been included within the governmental activities in the government-wide financial statements.

Internal service funds provide the same type of information as the government-wide financial statements. The internal service fund financial statements provide separate information for the self-insurance fund. The basic internal service fund financial statements can be found on pages 43-45 of this report.

Notes to the Basic Financial Statements provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. These notes can be found on pages 47-87 of this report.

Required Supplementary Information (RSI) is located directly after the notes to the basic financial statements on pages 89-100 and represents the required comparison of the budget and actual results on the District's budgetary basis for the General Fund and Special Revenue Fund. In addition, the RSI discloses the District's proportionate share of liabilities/assets and related employer contributions for pension and other post-employment healthcare benefits obligations.

Supplementary Information (SI) presented on pages 102-104 includes budgetary comparison schedules for the Debt Service Fund, Capital Projects Fund and the Proprietary Fund.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

Analysis of Deferred Outflows and Inflows of Resources

Deferred outflows and deferred inflows include pension and other post-employment healthcare related balances. The changes in these deferred outflows and deferred inflows were due to differences between actual and expected earnings, changes in assumptions used by outside actuaries, and other factors impacting these balances. Additionally, the District implemented GASB No. 87 for the year ended June 30, 2022, recording a deferred inflow related to lease resources.

Analysis of Net Position

The Statement of Net Position presents information on the District's assets, liabilities and deferred outflows and inflows. The difference between assets/deferred outflows and liabilities/deferred inflows is reported as net position. Over time, net position may serve as a useful indicator of the District's financial position. Other indicators that can be useful in reviewing the District's financial health include enrollment trends, debt capacity and the condition of facilities.

Net Position: 2021 compared to 2022

Net Position is a primary indicator of financial position. The District's assets and deferred outflows exceeded liabilities and deferred inflows by \$143.9 million at June 30, 2022. This represents an increase of \$105.4 million in net position from the prior year and is further discussed below. Please note that, based on guidance clarification from the Government Finance Officers Association regarding the calculation of net investment in capital assets, the District has reclassified components of net position and is presenting updated fiscal year 2020-21 amounts for comparison. This reclassification has no effect on total net position.

Net Position	Government-wide (thousands)			
	2021	2022	\$ Change	% change
Assets				
Current or other assets	\$ 1,097,269	\$ 871,350	\$ (225,919)	-20.6%
Net capital assets	1,173,371	1,384,060	210,689	18.0%
Total Assets	2,270,640	2,255,410	(15,230)	-0.7%
Deferred Outflows of Resources				
	249,580	574,645	325,065	130.2%
Liabilities				
Long-term liabilities outstanding	2,052,014	2,013,996	(38,018)	-1.9%
Other liabilities	328,566	351,179	22,613	6.9%
Total Liabilities	2,380,580	2,365,175	(15,405)	-0.6%
Deferred Inflows of Resources

Restricted	199,303	188,616	(10,687)	-5.4%
Unrestricted	(653,199)	(634,960)	18,239	2.8%
Total Net Position	\$ 38,449	\$ 143,887	\$ 105,438	274.2%

Net Investment in Capital Assets has increased to \$590.2 million, a \$97.9 million increase over prior year. The increase is primarily driven by increases in capital assets related to the capital bond work, and payment on related debt.

Restricted Net Position represents the unspent portions of capital project funds, debt service funds, and net assets restricted by grants, donations, and post-employment benefits. Restricted Net Position decreased by \$10.7 million to \$188.6 million this year, primarily due to bond-related expenditures.

Unrestricted Net Position consists of all other amounts not included in categories noted above. Unrestricted Net Position at June 30, 2022 is a negative \$635.0 million, an increase of \$18.2 million over the prior year.

Analysis of Activities

The Statement of Activities presents expenses and related revenues by program, summarizing how the District's net position changed during the most recent fiscal year. The statement reports revenues earned and expenses incurred under the accrual basis of accounting, where changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will result in cash flows in future fiscal periods (e.g., uncollected taxes, pension amounts, other post-employment benefits (OPEB), incurred but not reported (IBNR) claims, and earned but unused vacation leave).

The Statement of Activities of the government-wide financial statements distinguishes functions that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). Portland Public Schools currently does not have any business-type or enterprise fund activities. Additional detail regarding revenue and expense changes are presented to provide a better understanding of the District’s operations in fiscal year 2021-22 compared to fiscal year 2020-21.

The District’s mission is to provide a free and appropriate public education for K-12 students within its boundaries. The District may not charge for its core services, but does charge for non- core services such as facilities rentals and activities fees. Per USDA guidance, free meals were available to all students during the 2021-22 school year. General revenues, primarily property taxes and State School Funds, provide most of the funding required for governmental programs.

Revenue and Expenses: 2021 compared to 2022

Revenues for fiscal year 2021-22 were \$1,037.9 million, an increase of \$97.9 million, or 10.4 percent, from prior year revenues of \$939.9 million. Operating grants and contributions revenues increased by \$70.7 million. The major increases in federal and state funding were related to the Elementary and Secondary School Emergency Relief Fund (ESSER), Student Investment Account (SIA), Measure 98 (M98), and Student Success Act Summer Learning grants. Property and local option taxes increased \$31.9 million over the prior year as assessed values rose and collection rates were consistent with prior years. Construction excise taxes increased \$2.0 million because of increased construction activity over the prior year. State School Fund revenues decreased \$4.3 million from the prior year due to lower enrollment. Investment revenues decreased \$2.1 million from the prior year because of the national decline in interest rates.

Expenses for the District’s program activities include Instruction, Support Services, Enterprise & Community Services, Facilities Services, and Interest & Fees on Long-term Debt. The District’s activities mirror its chart of accounts which is mandated by the Oregon Department of Education for all Oregon public schools.

Current year total expenses were \$932.4 million, which is a slight increase at 0.1 percent, or \$572 thousand, over prior year. Instruction expenses increased \$5.0 million, or 1.1 percent, compared to 2020-21. The major components of this change were staffing and other increases due to additional grant funding, plus step and COLA increases, offset by a reduction in benefits costs resulting from the issuance of Series 2021 Pension Bonds. The issuance of Pension Bonds reduced the District’s PERS unfunded liability which in turn reduced benefits costs. Support Services expenses decreased \$17.1 million, or 4.5 percent, from the prior year. The major components of this change were wage increases due to step and COLA increases, offset by benefits cost reductions due to issuance of Pension Bonds as discussed above. Instruction and support services together accounted for 89.1 percent of the District’s total expenses in fiscal year 2021-22, compared to 90.4 percent in fiscal year 2020-21. Interest and fees expense increased \$8.4 million due to increased debt service requirements related to the new Series 2021 PERS Bonds.

FINANCIAL ANALYSIS OF THE DISTRICT’S MAJOR FUNDS

As noted earlier, the District uses fund accounting to demonstrate and ensure compliance with finance-related legal requirements. The focus of the District’s governmental funds is to provide information on near-term inflows, outflows, and balances of expendable resources. Such information is useful in assessing the District’s financial requirements. In particular, unassigned fund balance may serve as a useful measure of the District’s net resources available for spending at the end of the fiscal year.

General Fund. The General Fund is the major operating fund of the District. The fund’s ending fund balance increased by \$10.1 million to \$98.8 million in fiscal year 2021-22. The General Fund saw an increase of \$18.7 million in revenue, largely due to an increase in property and local option taxes. Instructional expenditures increased by \$9.9 million, or 2.7 percent, in fiscal year 2021-22. Support services increased by \$27.0 million, or 7.4 percent, in fiscal year 2021-22. Increases are primarily related to wage and benefit increases; additional staffing for counselors, school administrators, substitutes, and custodians; the opening of a new school (Kellogg) and utilities and transportation increases as schools returned to in-person learning.

Special Revenue Fund. The Special Revenue Fund ending fund balance increased by \$6.8 million, or 24.3 percent, in fiscal year 2021-22. The Special Revenue Fund saw an increase of \$69.0 million in revenue, largely driven by increases in federal and state support. Expenditures across the fund increased by \$54.6 million due to increased federal and state funding. The major increases in federal and state funding were related to the Elementary and Secondary School Emergency Relief Fund (ESSER), Student Investment Account (SIA), Measure 98 (M98), and Student Success Act Summer Learning grants.

Debt Service Fund. The Debt Service Fund ending fund balance increased \$2.0 million to \$13.7 million in fiscal year 2021-22, primarily due to property tax collections exceeding GO bond debt service. Debt Service expenditures increased \$26.6 million in fiscal year 2021-22, primarily due to the issuance of Limited Tax Pension Bonds.

Capital Projects Fund. The Capital Projects Fund ending fund balance decreased \$249.8 million to \$521.8 million in fiscal year 2021-22 as spending continued for GO Bond projects. Overall spending on GO Bond projects decreased \$36.0 million in fiscal year 2021-22 primarily due to the substantial completion of the McDaniel and Kellogg projects in Fall of 2021, offset by an increase in activity for the Benson modernization. Spending on curriculum and technology modernization projects increased \$33.0 million to \$50.7 million in fiscal year 2021-22.

BUDGETARY HIGHLIGHTS FOR THE GENERAL FUND

Adopted budget compared to final budget. There were two amendments to the fiscal year 2021-22 budget. The amendments allocated funds across Instruction and Support Services, appropriated funding for the PERS UAL lump sum payment, reduced funding across Instruction and Support Services to reflect a reduction in SIA allocation, allocated additional funding across appropriations to recognize new Special Revenue Fund resources, and adjusted appropriations across Support Services and Enterprise and Community Services to align the budget with intended expenditures of additional resources.

Final budget compared to actual results. In fiscal year 2021-22 the District underspent the final General Fund budget by \$38.6 million before contingency, or roughly 3.4 percent. Salaries and associated payroll costs across Instruction and Support Services accounted for \$18.6 million of the underspend, while non-personnel expenditures made up the other \$16.6 million. Per the Governor's order, PPS returned to in-person instruction for the 2021-22 school year, after utilizing a comprehensive distance learning model, followed by a hybrid instructional model, during the pandemic.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets. The District's investment in capital assets includes land, building and improvements, vehicles and equipment, and construction in progress. As of June 30, 2022, the District had invested \$1.38 billion in capital assets, net of depreciation and amortization, as shown in the following table:

Capital assets	Government-wide (thousands)

District-wide, capital assets increased by \$210.7 million in fiscal year 2021-22, and the District recognized \$26.6 million of depreciation and amortization. Capital construction accounted for the majority of the increase. Further discussion of capital assets can be found in Note 7 of the financial statements.

Debt Administration. At the end of the current fiscal year, the District had total debt outstanding of \$1.70 billion (excluding premiums and discounts), which is comprised of limited tax pension and refunding bonds (\$679.2 million) and debt backed by the full faith and credit of the District (\$1,018.7 million). During fiscal year 2021-22, the District reduced debt by making scheduled debt service payments of \$129.6 million and issued the \$399.4 million in series 2021 limited tax pension bonds. Further explanation of debt is shown in Note 10 of the Financial Statements.

State statutes limit the amount of general obligation debt a school district may issue based on a formula for determining the percentage of the Real Market Value of all taxable properties within the District. The District's general obligation bond debt capacity is 7.95 percent of Real Market Value or \$11.7 billion.

OPERS is Oregon's public pension system. Under the pension plan, the actuarial liability is the present value of the plan's current and expected benefits payments (plus administrative expenses). If the fund's actuarial liability exceeds its assets, then the fund has a shortfall that is known as a Net Pension Liability ("NPL"). OPERS requires that school Districts pay (or "amortize") this NPL over a period of 20 years (Tier One / Tier Two portion) and 10 years (Retiree Health Insurance Account portion). Since interest rates had been at historic lows, an opportunity to benefit from lowered interest was created.

The District has issued limited tax pension obligation bonds, Series 2002, 2003 and 2021. Proceeds from the bond issues were put into PERS "side accounts" and used to offset a portion of the OPERS Net Pension Liability (NPL). The reduced contribution rate charged for the NPL that has resulted from the District's decision to borrow, has saved an estimated \$35.2 million in the current year; savings that the District has used to provide more instruction and support services. Over time, this reduction in rates could dampen the effects of future increases in the District's NPL. As long as OPERS' investment returns exceed the costs of servicing the bonds, the benefits of this program will exceed the costs. The District's NPL was reduced but was not eliminated by these borrowing transactions. Statutes, legislation, regulations, and rules regarding OPERS can change at any time.

NEXT YEAR'S BUDGET AND ECONOMIC FACTORS

The 2022-23 budget will continue to support the District's Strategic Plan and Vision: PPS Reimagined as well as the goals set by the Board. The budget coincides with the Oregon Legislature's biennial budget cycle for 2021-23, which includes a \$9.3 billion State School Fund, and full funding for SIA and M98. The biggest unknown for the District continues to be enrollment. The 2022-23 budget assumes a decline of approximately 3,400 students, or 8.0 percent, from pre-pandemic enrollment levels. Enrollment for the District as of October 1, 2021, was 45,497 students, a decline of 3,981 from October 1, 2019 (pre-pandemic). The enrollment decrease is most significant in PPS Elementary schools, which has been offset somewhat by increases at Middle and High schools, as well as Alternative Programs.

Population and enrollment trends in Portland show increases in the overall population within the PPS boundary. District population has grown steadily, from 374,000 in 1980 to approximately 520,000 in 2020. A mid-range forecast estimates a population of 596,000 by 2040. However, declining fertility rates among the fastest-growing cohort of the population, young adults (20 to 34-year-olds) suggest that the population of school-aged children will continue to decline, not keeping pace with the overall population growth.

The 2022-23 budget investments include addressing unfinished learning as a result of the pandemic; increasing learning opportunities for every student; creating time for professional educators to plan, collaborate and prepare; providing high-quality emotional, mental health and wrap-around supports; and making meaningful progress on our community's top priorities as identified in PPS Reimagined.

The Oregon state economy and labor market has increased during the past year. Oregon's unemployment rate has decreased from 5.4 percent in June of 2021 to 3.5 percent in June of 2022. However, the Oregon Economic and Revenue Forecast assumes a mild recession beginning at the end of calendar year 2023.

Reconciliation of the Statement of Revenues,
Expenditures, and Changes in Fund Balances to the Statement of Activities
For the year ended June 30, 2022
(amounts expressed in thousands)

Net change in fund balances - total governmental funds (page 40) \$ (230,759)

Amounts reported for governmental activities in the Statement of Activities are different because:

Governmental funds report all capital outlay as expenditures. However, in the Statement of Activities the cost of certain assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlays in the current period of \$272,078 exceeded depreciation and disposals of \$61,389. 210,689

Property tax revenues that do not provide current financial resources are not reported as revenues in the governmental funds. This is the change in deferred inflow of resources related to property taxes. (877)

The Internal Service Fund is used to account for all costs incurred for claims arising from workers' compensation losses. The primary funding sources are charges to other funds. This amount is the change in net position for the year. (3,154)

Incurred but not reported property and liability insurance claims expenses are reported in the Statement of Activities but they are not reported as expenditures in the governmental funds. (389)

The issuance of long-term debt (e.g., bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on the change in net position. Also, governmental funds report the effect of issuance costs, premiums, and similar items when debt is first issued. Premium amounts are deferred and amortized in the Statement of Activities. (263,377)

Pension actuarial liability activity is reported in the Statement of Activities but not in the governmental funds. 370,359

Other Post Employment Benefits actuarial liability activity is reported in the Statement of Activities but not in the governmental funds. 2,564

Change in compensated absences 362

Change in bond interest payable 20,020

School District No. 1J, Multnomah County, Oregon
Notes to the Basic Financial Statements
For the Year Ended June 30, 2022
(Dollar amounts, unless otherwise indicated, are expressed in thousands)

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

School District No. 1J, Multnomah County, Oregon, known as Portland Public Schools or the District, is governed by a seven-member elected board. The District is the special-purpose primary government exercising financial accountability for all public K-12 education within its boundaries. As required by accounting principles generally accepted in the United States of America, the accompanying financial statements present all significant activities and organizations of the District. The District reports no component units, nor is the District a component unit of any other entity, and specifically has no relationship or connection with Multnomah County, Oregon.

The financial statements of the District have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the governing body and establishes governmental accounting and financial reporting principles. The more significant of the District's accounting policies are described below.

A. Government-wide and fund financial statements

The government-wide financial statements (i.e., the Statement of Net Position and the Statement of Activities) report information on all of the activities of the District. For the most part, the effect of interfund activity has been removed from these statements except that interfund services provided and used are not eliminated in the process of consolidation.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers who purchase or use goods, services, or privileges provided by a given function and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Taxes and other items not properly included among program revenues are reported instead as general revenues. Certain functional expenses contain an element of indirect cost.

Separate financial statements are provided for Governmental Funds and the Self-Insurance Fund, which is an internal service fund (proprietary fund). The Self-Insurance Fund is included in the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements. In the internal service fund, all revenues and expenses except interest earnings, transfers, and federal and state support are considered to be related to operations.

Measurement focus, basis of accounting, and financial statement presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers revenues to be available if they are collected within 60 days of the end of the current fiscal year. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service and expenditures related to compensated absences are recorded only when payment is due.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – continued

A. Government-wide and fund financial statements - continued

Measurement focus, basis of accounting, and financial statement presentation – continued

Property taxes and grant reimbursements are considered to be susceptible to accrual, if received in cash by the District or a county collecting such taxes within 60 days after year-end. All other revenue items are recognized in the accounting period when they become both measurable and available. Measurable means the amount of the transaction can be determined. Available means collectible within the current fiscal year or soon thereafter.

The District reports the following major governmental funds:

General Fund – Accounts for the general operations of the District. The General Fund accounts for all financial resources except those required to be accounted for in another fund. The General Fund's resources are available to the District for any purpose provided they are expended or transferred according to a resolution or policy of the District and/or the laws of Oregon.

Special Revenue Fund – Accounts for revenues and expenditures that are restricted and committed for specific projects. Principal revenue sources are federal, state and local funding.

Debt Service Fund – Accounts for the accumulation of financial resources for the payment of long-term debt principal, interest and related costs. Current debt instruments include General Obligation (GO) bonds, Limited Tax Pension Obligations and Full Faith and Credit Obligations.

Capital Projects Fund – Accounts for financial resources to be used for the acquisition of property, technology, construction or renovation of facilities.

Additionally, the District reports the following internal service fund:

Self-Insurance Fund – Accounts for all workers' compensation activities. The activity and balances of this fund are included in the governmental activities in the government-wide financial statements. The primary resources are charges to other funds, investment earnings and federal and state support. All revenues except for investment revenues and transfers in are considered operating revenue. Operating expenses include salaries, benefits, materials, premium costs, claims, and other related costs.

B. Appropriations and Budgetary Controls

The District prepares a budget for all funds in accordance with the modified accrual basis of accounting, with certain adjustments, and legal requirements set forth in Local Budget Law.

Consistent with Local Budget Law, expenditures are appropriated by fund for each legally adopted annual operating budget at the following levels of control, as appropriate:

- Instruction
- Support Services
- Enterprise and Community Services
- Facilities Acquisition and Construction
- Debt Service
- Contingency
- Fund Transfers

School District No. 1J, Multnomah County, Oregon
Notes to the Basic Financial Statements
For the Year Ended June 30, 2022
(Dollar amounts, unless otherwise indicated, are expressed in thousands)

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – continued

Capital outlay expenditures are appropriated within the service levels for Instruction, Support Services, Enterprise and Community Services, and Facilities Acquisition and Construction. Debt service expenditures in the General Fund are generally appropriated within the Support Services level of control. For reporting purposes all other debt service expenditures are segregated from the supporting services budgetary control levels and are presented in the debt service expenditures category.

After the original budget is adopted, the Board of Education may approve appropriation transfers between the levels of control without limitation. Supplemental appropriations may be approved by the Board of Education if any occurrence, condition, or need exists which had not been anticipated at the time the budget was adopted. An appropriations transfer that alters estimated total expenditures by less than 10.00 percent of any individual fund may be adopted at the regular meeting of the Board of Education. For conditions that require either supplemental appropriations or an increase in expenditures greater than 10.00 percent of an individual fund, a supplemental budget must be adopted, requiring public hearings, publications in newspapers and approval by the Board of Education. Supplemental budgets are submitted, reviewed and certified, similar to the original budget, by the Multnomah County Tax Supervising and Conservation Commission subsequent to approval by the Board of Education. Appropriations lapse at the end of each fiscal year. The District had two supplemental budgets during budget year 2022.

C. Encumbrances

During the year encumbrances are recorded in the accounting records when purchase orders are issued. The use of encumbrances indicates to District employees that appropriations are committed. All encumbrances expire at year-end.

D. Cash and Cash Equivalents and Investments

For the purpose of the Statement of Cash Flows, the Statement of Net Position and the Balance Sheet, the District's monies in the Oregon Local Government Investment Pool, savings deposits, demand deposits and cash with fiscal agents are considered to be cash and cash equivalents. Investments with a remaining maturity of more than one year at the time of purchase are stated at fair value. Other investments are stated at amortized cost, which approximates fair value.

E. Property Taxes

Uncollected real and personal property taxes are reflected on the Statement of Net Position and the Balance Sheet as receivables. Under state law, county governments are responsible for extending authorized property tax levies, computing tax rates, billing and collecting all property taxes, and making periodic distributions of collections to entities levying taxes. Property taxes become a lien against the property when levied on July 1 of each year and are payable in three installments due on November 15, February 15 and May 15. Property tax collections are distributed monthly except for November, when such distributions are made weekly.

F. Inventories and Prepaid Items

Inventories of school operating supplies, maintenance supplies, and food and other cafeteria supplies are stated at cost using the weighted average method. A portion of the inventory consists of commodities purchased from the United States Department of Agriculture (USDA). The commodities are recorded at wholesale market value as provided by the USDA. The District accounts for inventory based on the consumption method. Under the consumption method, inventory is recorded when purchased and expenditures are recorded when inventory items are used. Donated foods consumed during the year are reported as revenues and expenditures. The amount of unused donated food at year-end is immaterial.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – continued

Prepaid assets are recognized as expenses/expenditures based on the consumption method when their use benefits the District.

G. Capital Assets

Expenditures for capital assets, which include land, buildings and site improvements, construction in progress, and vehicles and equipment are reported in the Statement of Revenues, Expenditures, and Changes in Fund Balance by function. The District defines capital assets as assets with an initial cost exceeding the threshold amounts shown in the schedule below, and an estimated useful life in excess of one year. District capital assets are recorded at historical cost, or estimated historical cost if purchased or constructed, and depreciated or amortized, where appropriate, using the straight-line method. Donated capital assets are recorded at acquisition value at the date of donation. Major outlays for capital assets and improvements are recorded as construction in progress and capitalized as projects are completed. When the District determines that an asset has been impaired as defined by GASB Statement No. 42 it adjusts the asset value. Under the pronouncements of GASB Statement No. 51 the District capitalizes intangible asset costs, such as costs relating to internally developed computer software. The intangible asset costs are classified as equipment.

Major asset classifications, useful lives and capitalization thresholds are as follows:

<u>Asset</u>	<u>Capitalization threshold</u>	<u>Useful lives, years</u>
Buildings	\$ 25	100
Land & site improvements	25	5 to 25
Equipment	5	5 to 15
Vehicles	5	5 to 8

H. Grant Accounting

Unreimbursed expenditures due from grantor agencies are recorded in the financial statements as accounts receivable and revenues. Cash received from grantor agencies in excess of related grant expenditures is reflected as unearned revenue on the Statement of Net Position and the Balance Sheet.

I. Insurance

The District operates the Self-Insurance Fund to account for the costs of workers' compensation related costs and resources. Charges to other funds are recognized as revenues and as expenditures in the fund incurring the charges. The District accounts for all other insurance related resources and costs, such as general liability claims, property and fire loss claims, and the payment of premiums through the General Fund.

The District recognizes the liabilities for estimated losses to be incurred from pending claims and for claims incurred but not reported (IBNR). The IBNR claims are estimates of claims that are incurred through the end of the fiscal year but have not yet been reported. These liabilities are based on actuarial valuations.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – continued

The District’s insurance deductibles and policy limits are as follows:

	Deductibles	Excess Coverage per Occurrence
General and Automobile Claims	\$ 1,000	\$ 10,000
Property and Fire Claims	1,000	250,000
Earthquake Claims	1,000	75,000
Flood Claims	1,000	75,000
Workers' Compensation Claims	1,000	25,000

The District has not exceeded the claims limitation on its insurance policies for the last five years.

J. Compensated Absences

Depending on years of service and union membership, employees can earn annual vacation leave between 10 days and 22 days per year. Administrators earn 22 days of annual vacation leave. Employees are allowed to carry over twice their maximum yearly earned balances from one fiscal year to another. All outstanding vacation leave is payable upon resignation, retirement, or death. Compensated absences are recognized as liabilities in the District’s proprietary fund. Compensated absences are not reported as liabilities in the governmental funds because they have not “matured,” meaning they are not yet payable to the employee.

Sick leave accumulates each month without a limit on the total hours that can be accumulated. Accumulated sick leave does not vest and is forfeited at resignation, retirement or death. Sick leave is recorded as an expense/expenditure when leave is taken and no liability is recorded.

K. Receivables and Payables

Receivables expected to be collected within sixty days following year-end are considered measurable and available and are recognized as revenues in the governmental fund financial statements. Other receivables are offset by unearned revenues and, accordingly, have not been recorded as revenue. Receivables, net of any allowance for doubtful accounts, are recorded on the Statement of Net Position/Balance Sheet.

Activities between funds that represent lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as “due to/from other funds” in the fund financial statements, and are eliminated in the government-wide statements.

L. Long-term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations including accrued compensation and claims are reported as liabilities. Bond premiums and discounts are deferred and amortized over the life of the bonds using the straight line method which approximates the effective interest method. Bonds payable are reported net of applicable bond premium or discount. Bond issuance costs are reported as outflows of resources (expenses) in the period incurred.

In the fund financial statements, governmental fund types recognize bond premium and discounts, as well as bond issuance costs as incurred. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs are reported as expenditures.

M. Retirement Plans

Most District employees participate in Oregon's Public Employees Retirement System (OPERS). Contributions are made as required by the plan and are recorded as expense/expenditures. Pension benefits are explained in Note 11.

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of OPERS and additions to/deductions from OPERS's fiduciary net position have been determined on the same basis as they are reported by OPERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized by OPERS when due and payable in accordance with the benefit terms. OPERS investments are reported at fair value.

The District provides tax-deferred annuity contracts established under Section 403(b) of the Internal Revenue Code. Participation in the program is voluntary. Contributions are made from salary deductions from participating employees within the limits specified in the Code. This plan is accounted for under the provisions of Governmental Accounting Standards Board (GASB) Statement No. 68, *Accounting and Financial Reporting for Pension Plans*.

The District also provides a single-employer defined benefit early retirement program (Note 11-B). The stipend benefit is actuarially determined, is reflected as a long-term liability in the government-wide financial statements, and reflects the present value of expected future payments. This plan is accounted for under the provisions of GASB Statement No. 73.

N. Other Post-Employment Benefits

The District is mandated to contribute to Retirement Health Insurance Accounts (RHIA) for eligible District employees who are members of OPERS, and were plan members before January 1, 2004. The plan was established by the Oregon Legislature.

The Retirement Health Insurance Subsidy (RHIS) is a health and welfare program the District provides for retirees. The plan is actuarially determined, is reflected as a long-term liability in the government-wide financial statements, and reflects the present value of expected future payments. The net other post-employment benefits liability and expenditure in the governmental fund financial statements are limited to amounts that become due and payable as of the end of the fiscal year, and are reported on the pay-as-you-go basis.

Certificated employees who have met the requirements for age and years of service with the District are eligible for early retirement benefits (Note 11-B), which includes early retirement benefits and other post-employment benefits as explained in Note 12.

Both plans are accounted for under the provisions of GASB Statement No. 75.

O. Net Position

Net position represents the difference between the District's total assets and deferred outflows and total liabilities and deferred inflows. District net position currently has three components:

Net investment in capital assets represents capital assets plus unspent bond proceeds less accumulated depreciation and outstanding principal of capital asset related debt.

Restricted net position represents net position upon which constraints have been placed, either externally by creditors, grantors, contributors or others, or legally constrained by law.

Unrestricted net position represents net position that does not meet the definition of "restricted" or "net investment in capital assets".

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – continued

P. Deferred Inflows and Outflows of Resources

In addition to assets, the Statement of Net Position reports a separate section for Deferred Outflows of Resources. This separate financial statement element, *Deferred Outflows of Resources*, represents a consumption of net assets that applies to a future period and so will not be recognized as an outflow of resources (expense/expenditure) until then.

In addition to liabilities, the Statement of Net Position reports a separate section for Deferred Inflows of Resources. This separate financial statement element, *Deferred Inflows of Resources*, represents an acquisition of net assets that applies to a future period and so will not be recognized as an inflow of resources (revenue) until then.

Q. Lease Receivables

Lease receivables are recognized at the net present value of the leased assets at a borrowing rate either explicitly described in the agreement or implicitly determined by the District, reduced by principal payments received.

R. Management Estimates

The preparation of basic financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the basic financial statements and reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

S. Fund Balance Definitions

In the governmental financial statements, fund balances are reported in classifications that comprise a hierarchy based primarily on the extent to which the District is bound to honor constraints on the specific purposes for which amounts in those funds can be spent.

Governmental fund balance definitions, from most to least restrictive are:

1. *Non-spendable fund balances* – Amounts that are not in spendable form or due to legal or contractual requirements. Examples of resources in this category are prepaid amounts, inventory or notes receivable.
2. *Restricted fund balances* – Amounts constrained to specific purposes by their providers (such as grantors or bond holders), through constitutional provisions or by enabling legislation. These are primarily amounts subject to externally enforceable legal restrictions.
3. *Committed fund balances* – Amounts constrained to specific purposes by resolution of the District's Board. The District's Board can modify or rescind a commitment at any time through passage of a new resolution. In order to commit fund balances the District must take formal action prior to the close of the fiscal year.
4. *Assigned fund balances* – Amounts the District intends to use for a specific purpose that are neither restricted nor committed are reported as assigned fund balance. Intent can be expressed by the Board or delegated authority to an official. An example of assignment is when the District's Board adopts the annual budget which includes funds identified as reserved for a specific purpose.
5. *Unassigned fund balance* – Amounts not included in other classifications above. The amount represents spendable fund balance that is not restricted, committed or assigned in the General Fund. This classification is also used to report any deficit fund balance amounts in other governmental funds.

S. Fund Balance Definitions - continued

The District's Board has passed resolution number 4461 titled: *Compliance with Governmental Accounting Standards Board Statement No. 54 (GASB 54): Fund Balance Reporting and Governmental Fund Type Definitions*. The resolution reads as follows:

- The Board affirms that it is the highest level decision authority for the District.
- The Board hereby delegates the authority to classify portions of ending fund balance as "Assigned" to the Superintendent.
- The Board adopts GASB 54 definitions for Non-spendable, Restricted, Committed, Assigned and Unassigned fund balances.
- In conjunction with the adoption of GASB 54 fund balance classifications, the Board declares its budgeting practices and budget allocations for restricted and unrestricted fund balance amounts will be consistent with the fund balance classification hierarchy.
- The Board hereby adopts GASB 54 definitions of fund types for the General Fund, special revenue funds, debt services funds, capital projects funds, and permanent funds.

T. Use of Restricted Resources

When an expense is incurred that can be paid using either restricted or unrestricted resources (net position), the District first applies the expense toward restricted resources and then toward unrestricted resources. In governmental funds, the District first applies the expenditure toward restricted fund balance and then to other, less-restrictive classifications, committed and then assigned fund balances, before using unassigned fund balances.

U. Fund Balance Policy

Per District board policy 8.10.025P, updated in June 2019, the Board has established a goal to fund and maintain a reserve in the General Fund that shall range from 5.00 percent to 10.00 percent of annual General Fund revenues. The goals for the reserve will be set as part of the District's long-range financial plan, with an expectation that the District will achieve and sustain a 10.00 percent reserve. The Board shall establish an annual operating contingency each fiscal year during the budget process.

V. Stabilization Arrangements

The District established a PERS Rate Stabilization Reserve Fund by Board Resolutions 2679, adopted on June 16, 2003, and 4471, adopted on June 27, 2011. The purpose of the Fund is to minimize effects of large fluctuations in the PERS rate assessed against District salaries and wages, and to repay the 2002, 2003 and 2020 PERS UAL borrowings. This Fund resides within the Special Revenue Fund, and the primary revenue source is 0.11 percent of Current Year Permanent Rate and GAP Property Taxes. Use of the resources must be authorized through formal Board resolution. In any given year, funds may be transferred to the General Fund not to exceed either 1) the increase in PERS rate over rates in effect at June 30, 2011; or 2) the increase in the internally charged PERS UAL fringe rate over the fringe rate in effect at June 30, 2011, multiplied by the PERS eligible budgeted salary base for that year. The ending fund balance in the PERS Rate Stabilization Reserve Fund at June 30, 2022 is \$19,389.

W. New Accounting Standards Implemented

GASB Statement No. 87. *Leases* requires recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. It establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset.

NOTE 2 – BUDGETARY BASIS OF ACCOUNTING

The District reports financial position, results of operations, and changes in fund balance / net position on the basis of accounting principles generally accepted in the United States (GAAP). The budgetary statements provided as part of required or other supplementary information are presented on the budgetary basis to provide a meaningful comparison of actual results with the budget.

NOTE 3 – STATE CONSTITUTIONAL PROPERTY TAX LIMITS

The State of Oregon has a constitutional limit on property taxes for schools and non-school government operations. Under the provisions of the limitation, tax revenues are separated into those for the public school system and those for local government operations other than the public school system. Property taxes levied for the payment of bonded indebtedness are exempt from the limitation, provided such bonds are either authorized by a specific provision of the Oregon Constitution or approved by the voters of the District for capital construction or improvements.

The District's tax rates for the year ended June 30, 2022 are as follows:

Permanent rate	\$ 5.2781 per \$1 thousand of assessed value
Local option rate	\$ 1.9900 per \$1 thousand of assessed value
GO Bond Levy amount	\$ 146,000,000 (unrounded dollars)

NOTE 4 – CASH, CASH EQUIVALENTS AND INVESTMENTS

Deposits with financial institutions include bank demand deposits, deposits in the Local Government Investment Pool, time certificates of deposit and savings account deposits, as authorized by Oregon statutes.

The District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs. At June 30, 2022, the District's cash, cash equivalents, and investments were comprised of the following:

	June 30, 2022	Fair Value Measurements Using
Oregon Local Government Investment Pool	\$ 67,428	N/A
Cash in demand deposits	97,385	N/A
Petty cash	7	N/A
Total cash and cash equivalents	<u>164,820</u>	
 Cash and cash equivalents held by fiscal agents	 <u>25,265</u>	 N/A
 U.S. Government agency securities	 385,260	 Level 1
Commercial Paper	163,335	Level 1
Municipal Bonds	<u>23,171</u>	Level 1
Total investments	<u>571,766</u>	
Total cash, cash equivalents and investments	<u><u>\$ 761,851</u></u>	

A. Investments

Accounting principles generally accepted in the United States of America require investments with a remaining maturity of more than one year at the time of purchase to be stated at fair value. Fair value is determined at the quoted market price, if available; otherwise the fair value is estimated based on the amount at which the investment could be exchanged in a current transaction between willing parties, other than in a forced liquidation sale. Investments with maturities of less than one year are carried at amortized cost.

Investments in the Oregon Local Government Investment Pool (LGIP) are stated at share value, which approximates fair value, and is the value at which the shares can be withdrawn. The LGIP does not report all investments at fair value in accordance with the provisions of GASB Statement No. 31. The LGIP is required by Oregon Revised Statutes (ORS) to compute the fair value of all investments maturing more than 270 days from the date the computation is made. If the fair value totals more than one percent of the balance of the LGIP in terms of unrealized gain or loss, the amount is required to be distributed to the pool participants. Fifty percent of the LGIP portfolio must mature within 93 days. Up to twenty-five percent of the LGIP portfolio may mature in over one year and no investment may mature in over three years.

The District requires all securities to be purchased in the District's name and held in third party safekeeping.

Interest rate risk

In accordance with its investment policy, the District manages its exposure to declines in fair value of its investments by structuring the investment portfolio so that securities mature to meet ongoing operations.

Credit risk

Oregon Revised Statutes authorize school districts to invest in obligations of the U.S. Treasury, agencies and instrumentalities of the United States, commercial paper, bankers' acceptances guaranteed by a qualified financial institution, repurchase agreements, interest bearing bonds of any city, county, port or school district in Oregon, Washington, Idaho, and California (subject to specific standards), and the LGIP, among others. The Board of Education has adopted a policy which complies with state statutes.

NOTE 4 – CASH, CASH EQUIVALENTS AND INVESTMENTS - continued

A. Investments - continued

Concentration of credit risk-investments

In accordance with GASB 40, the District is required to report all individual non-federal investments which exceed 5.00 percent of total invested funds. As of June 30, 2022 the District held the following individual non-federal assets that exceeded 5.00 percent of total invested funds:

	<u>Value</u>	<u>Percentage of Total Investments</u>
Bank of America Corp	\$ 30,113	5.3%

Custodial risk-deposits

The District's deposits with financial institutions are insured by the Federal Depository Insurance Corporation (FDIC); interest and non-interest bearing accounts are insured up to \$250 thousand. To provide additional security required and authorized by Oregon Revised Statutes, Chapter 295, deposits above insurance limits are covered by collateral held in a multiple financial institution collateral pool administered by the State of Oregon. At June 30, 2022, bank balances of \$1,250 were insured by the FDIC. Funds not covered by FDIC insurance are covered by the Oregon State Treasury Collateral Pool. At June 30, 2022, the carrying amount of the District's balance was \$97,385 and the bank balance was \$96,378.

Custodial credit risk-investments

For an investment, this is the risk that, in the event of a failure of the counterparty, the District will not be able to recover the value of its investments or collateralized securities that are in the possession of an outside party. The District's investment policy limits the types of investments that may be held and does not allow securities to be held by the counterparty.

The LGIP is administered by the Oregon State Treasury with the advice of other state agencies and is not registered with the U.S. Securities and Exchange Commission. The LGIP is an open-ended no-load diversified portfolio offered to any agency, political subdivision, or public corporation of the State that by law is made the custodian of, or has control of any fund. The LGIP is commingled with the State's short-term funds. In seeking to best serve local governments of Oregon, the Oregon Legislature established the Oregon Short Term Fund Board, which has established diversification percentages and specifies the types and maturities of the investments. The purpose of the Board is to advise the Oregon State Treasury in the management and investment of the LGIP. Investments within the LGIP must be invested and managed as a prudent investor would, exercising reasonable care, skill and caution. Professional standards indicate that the investments in external investment pools are subject to custodial risk because they are not evidenced by securities that exist in physical or book entry form. Nevertheless, management does not believe that there is any substantial custodial risk related to LGIP investments.

A. Limited Tax Pension Bonds

In October 2002 Portland Public Schools participated as one of forty-one Oregon school districts and education service districts in issuing limited tax pension bonds. The proceeds were used to finance a portion of the estimated unfunded actuarial liability of each participating school district with the Oregon Public Employees Retirement System (“OPERS”). The Oregon School Boards Association (“OSBA”) sponsored this pooled limited tax pension bond program. The OSBA does not have a financial obligation in connection with the bonds issued under the program. Except for the payment of its pension bond payments and additional charges when due, each participating school district has no obligation or liability to any other participating school district’s pension bonds or liabilities to OPERS. In April 2003, OSBA sponsored another pooled limited tax pension bond program with thirty school districts and education service districts. Payments of yearly principal and interest are recorded as financial statement expenditures in instruction and in support services. The District anticipates the total costs of financing the District’s actuarial obligation in this manner will result in a significant savings to the District when compared to paying for such costs as additional contribution rates to OPERS.

The District issued \$210,104 Limited Tax Pension Bonds, Series 2002 (Federally Taxable), of which \$53,524 are Series 2002A (deferred interest bonds) and \$156,580 are Series 2002B (current interest bonds). The 2002 series Limited Tax Pension Bonds were issued on October 31, 2002, and are payable annually through June 2028. Interest on the deferred interest bonds is accreted semiannually at a yield of 6.10 percent. Interest on the current coupon bonds is payable semiannually at rates ranging from 5.48 to 5.55 percent. The Series 2002A Bonds are not subject to optional prepayment prior to maturity. The Series 2002B Bonds maturing June 30, 2028 are subject to mandatory prepayment prior to stated maturity, in whole or part, on any June 30 on or after June 30, 2024. During 2012 \$14,200 of Series 2002 Pension Bonds were refinanced. See the description of the Limited Tax Pension Bonds, Series 2012 below.

The District issued \$281,170 Limited Tax Pension Bonds, Series 2003 (Federally Taxable), of which \$124,800 are Series 2003A (deferred interest bonds) and \$156,370 are Series 2003B (current interest bonds). The Series 2003 series Limited Tax Pensions Bonds were issued on April 30, 2003, and are payable annually through June 2028. Interest on the deferred interest bonds is accreted payable semiannually at rates ranging from 5.45 to 6.27 percent. Interest on the current coupon bonds is payable semiannually at rates ranging from 5.45 to 6.27 percent. The bonds are federally taxable and are not subject to optional prepayment prior to their stated maturities.

On July 15, 2021 the District issued \$399,390 in Limited Tax Pension Bonds, Series 2021. The interest rate is fixed at rates ranging from 0.30 to 2.50 percent and interest payments on the bonds are payable semiannually in June and December. The bonds mature on June 30, 2040 if not redeemed earlier pursuant to optional early redemption. The Series 2021 bonds maturing in years 2022 through 2031 are not subject to optional redemption. The Series 2021 bonds maturing on or after June 30, 2032 are subject to optional prepayment in whole or in part at the option of the District.

Under the terms of the borrowing agreements for the 2002 and 2003 Limited Tax Pension Bonds, the District is bound by an intercept agreement whereby Wells Fargo Bank Northwest NA, as the trustee, directly receives specified amounts that have been withheld from the District’s State School Fund support payments that are deposited in trust with LGIP. Under the terms of the borrowing agreement for the 2021 Limited Tax Pension Bonds the District is bound by an intercept agreement whereby U.S. Bank NA, as Trustee, directly receives specified amounts that have been withheld from the District’s State School Fund support payments that are deposited in trust with U.S. Bank NA. Wells Fargo Bank Northwest NA and U.S. Bank NA then make the scheduled semi-annual debt service payments from the LGIP or U.S. Bank NA trust accounts respectively.

C. Other Debt

Pursuant to the American Recovery and Reinvestment Act of 2009 (ARRA), the City of Portland was awarded \$13,500 in Recovery Zone Economic Development Bonds (RZEDBs). In July 2010, the City sub-awarded \$11,000 of the RZED bonds to Portland Public Schools, which are being used to complete energy and water conservation projects that will financially benefit the District in reduced energy and water costs and will yield on-going financial benefit once the bonds are paid off. The District makes semi-annual interest payments and annual principal payments, and the bonds will mature in December 2022. The bond's interest payments of 5.05 percent are 42.4 percent federally subsidized.

On November 9, 2016 the District issued \$5,048 in Full Faith and Credit Obligations, Series 2016. The interest rate is fixed at 2.99 percent. Interest payments on the obligations are payable semiannually in June and December, beginning June 1, 2018. The obligations mature on December 1, 2031, with principal payments due annually on December 1. The obligations carry a prepayment option such that any or all outstanding maturities may be redeemed on or after December 1, 2018. The bonds were issued at par.

On August 4, 2016 the District issued \$4,000 in Qualified Zone Academy Bonds (QZAB), Series 2016. The District pays no interest rate over the 20 year term of the bonds. The bonds carry a 4.39 percent interest rate for structuring purposes, but the purchaser of the bonds receives a Federal tax credit in lieu of interest earnings. The bonds mature on August 4, 2036 with level principal payments due annually on August 4.

Article XI-K of the Oregon Constitution allows the state to guarantee the general obligation bonded indebtedness of school districts. For the Series 2013B, 2015B, 2017B, 2020, 2020B and 2020C GO Bonds mentioned immediately above, the District participated in the Oregon School Bond Guaranty program (ORS 328.321 to 328.356), whereby the State of Oregon (State) guarantees all principal and interest payments until maturity will be made to bondholders when due. Should the District fail to make a payment of debt service on these bonds when due, the State will make the payment on behalf of the District, and then will seek recovery from the District. The State may recover funds by means of intercepting any source of operating moneys normally remitted from the State to the District. Since the inception of the bonds, the District has not used the guarantee, and there are no outstanding amounts due to the State of Oregon as of June 30, 2022.

NOTE 11 – PENSION PLANS

Pension Plans - Summary

The District offers a cost-sharing multiple-employer defined benefit plan through the Oregon Public Employees Retirement System (OPERS) and a single-employer defined benefit early retirement stipend (Stipend). The breakdown of the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions are:

	<u>OPERS</u>	<u>Stipend</u>	<u>Net</u>
Total Pension Liability	\$ (267,828)	\$ (5,468)	\$ (273,296)
Total Pension Expense	\$ 28,666	\$ (439)	\$ 28,227
Pension Deferred Outflows of Resources	\$ 557,100	\$ 903	\$ 558,003
Pension Deferred Inflows of Resources	\$ (307,479)	\$ (40)	\$ (307,519)

General Information about the Pension Plan

Name of the pension plan: The Oregon Public Employees Retirement System (OPERS) is a cost-sharing multiple-employer defined benefit plan, administered by the Public Employees Retirement Board with authority granted by the Oregon Legislature.

Plan description. Employees of the District are provided with pensions through OPERS. The General Fund and the Special Revenue Fund are the primary funds from which the pension liability is liquidated. All the benefits of OPERS are established by the Oregon legislature pursuant to Oregon Revised Statute (ORS) Chapters 238 and 238A, and Internal Revenue Code Section 401(a). The ORS Chapter 238 Defined Benefit Pension Plan is closed to new members hired on or after August 29, 2003. OPERS issues a publicly available financial report that can be obtained at:

<https://www.oregon.gov/pers/Pages/Financials/Actuarial-Financial-Information.aspx>.

Benefits provided under Chapter 238 - Tier One / Tier Two Retirement Benefit Plan

1. *Pension Benefits.* The OPERS retirement allowance is payable monthly for life. Members may select from 13 retirement benefit options that are actuarially equivalent to the base benefit. These options include survivorship benefits and lump-sum refunds. The basic benefit is based on years of service and final average salary. A percentage (2.00 percent for Police and Fire employees, 1.67 percent for General Service employees) is multiplied by the number of years of service and the final average salary. Benefits may also be calculated either under a formula plus annuity (for members who were contributing before August 21, 1981) or a money match computation if a greater benefit results.

A member is considered vested and will be eligible at minimum retirement age for a service retirement allowance if he or she has had a contribution in each of five calendar years or has reached at least 50 years of age before ceasing employment with a participating employer (age 45 for Police and Fire members). General Service employees may retire after reaching age 55. Police and Fire members are eligible after reaching age 50. Tier One general service employee benefits are reduced if retirement occurs prior to age 58 with fewer than 30 years of service. Police and Fire member benefits are reduced if retirement occurs prior to age 55 with fewer than 25 years of service. Tier Two members are eligible for full benefits at age 60. The ORS Chapter 238 Defined Benefit Pension Plan is closed to new members hired on or after August 29, 2003.

Benefits provided under Chapter 238 - Tier One / Tier Two – continued

2. *Death Benefits.* Upon the death of a non-retired member, the beneficiary receives a lump-sum refund of the member's account balance (accumulated contributions and interest). In addition, the beneficiary will receive a lump-sum payment from employer funds equal to the account balance, provided one or more of the following conditions are met:
 - the member was employed by an OPERS employer at the time of death,
 - the member died within 120 days after termination of OPERS-covered employment,
 - the member died as a result of injury sustained while employed in an OPERS-covered job, or
 - the member was on an official leave of absence from an OPERS-covered job at the time of death.
3. *Disability Benefits.* A member with 10 or more years of creditable service who becomes disabled from other than duty-connected causes may receive a non-duty disability benefit. A disability resulting from a job-incurred injury or illness qualifies a member (including OPERS judge members) for disability benefits regardless of the length of OPERS-covered service. Upon qualifying for either a non-duty or duty disability, service time is computed to age 58 (55 for Police and Fire members) when determining the monthly benefit.
4. *Benefit Changes after Retirement.* Members may choose to continue participation in a variable equities investment account after retiring and may experience annual benefit fluctuations due to changes in the fair value of the underlying equity investments of that account.

Under ORS 238.360 monthly benefits are adjusted annually through cost-of-living changes (COLA). The COLA is capped at 2.00 percent.

Benefits provided under Chapter 238A - Oregon Public Service Retirement Plan (OPSRP).

1. *Pension Benefits.* The ORS 238A Defined Benefit Pension Program provides benefits to members hired on or after August 29, 2003.

This portion of the OPSRP provides a life pension funded by employer contributions. Benefits are calculated with the following formula for members who attain normal retirement age:

General Service: 1.50 percent is multiplied by the number of years of service and the final average salary. Normal retirement age for General Service members is age 65, or age 58 with 30 years of retirement credit.

A member of the OPSRP pension program becomes vested on the earliest of the following dates: the date the member completes 600 hours of service in each of five calendar years, the date the member reaches normal retirement age, and, if the pension program is terminated, the date on which termination becomes effective.

2. *Death Benefits.* Upon the death of a non-retired member, the spouse or other person who is constitutionally required to be treated in the same manner as the spouse receives for life 50 percent of the pension that would otherwise have been paid to the deceased member.

3. *Disability Benefits.* A member who has accrued 10 or more years of retirement credits before the member becomes disabled or a member who becomes disabled due to job-related injury shall receive a disability benefit of 45 percent of the member's salary determined as of the last full month of employment before the disability occurred.
4. *Benefit Changes after Retirement.* Under ORS 238A.210 monthly benefits are adjusted annually through cost-of-living changes. The cap on the COLA vary based on the amount of the annual benefit.

Contributions:

OPERS funding policy provides for monthly employer contributions at actuarially determined rates. These contributions, expressed as a percentage of covered payroll, are intended to accumulate sufficient assets to pay benefits when due. This funding policy applies to the OPERS Defined Benefit Plan and the Other Postemployment Benefit Plans.

Employer contribution rates during the period were based on the December 31, 2019 actuarial valuation. The rates based on a percentage of payroll, first became effective July 1, 2021. The state of Oregon and certain schools, community colleges, and political subdivisions have made unfunded actuarial liability payments to establish side accounts, and their rates have been reduced.

The District's rates in effect for the fiscal year ended June 30, 2022 were:

Tier One / Tier Two	0.00%
OPSRP General Service	0.00%

The District contributed approximately \$401.4 million for the year ended June 30, 2022.

Actuarial Valuations:

The employer contribution rates effective July 1, 2021 through June 30, 2022, were set using the entry age normal actuarial cost method. For the Tier One / Tier Two component of the OPERS Defined Benefit Plan, this method produced an employer contribution rate consisting of (1) an amount for normal cost (the estimated amount necessary to finance benefits earned by the employees during the current service year), and (2) an amount for the amortization of unfunded actuarial accrued liabilities, which are being amortized over a fixed period with new unfunded actuarial accrued liabilities being amortized over 20 years.

For the OPSRP Pension Program component of the OPERS Defined Benefit Plan, this method produced an employer contribution rate consisting of (a) an amount for normal cost (the estimated amount necessary to finance benefits earned by the employees during the current service year), (b) an actuarially determined amount for funding a disability benefit component and (c) an amount for the amortization of unfunded actuarial accrued liabilities, which are being amortized over a fixed period with new unfunded actuarial accrued liabilities being amortized over 16 years.

Actuarial valuations of an ongoing plan involve estimates of the value of projected benefits and assumptions about the probability of events far into the future. Actuarially determined amounts are subject to continual revision as actual results are compared to past expectations and new estimates are made about the future. Experience studies are performed as of December 31 of even numbered years. The methods and assumptions shown above are based on the 2018 Experience Study.

Discount Rate:

The discount rate used to measure the total pension liability was 6.90 percent for the Defined Benefit Pension Plan. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and those of the contributing employers are made at the contractually required rates, as actuarially determined. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments for the Defined Benefit Pension Plan was applied to all periods of projected benefit payments to determine the total pension liability.

Depletion Date Projection:

GASB 67 generally requires that a blended discount rate be used to measure the Total Pension Liability (the Actuarial Accrued Liability calculated using the Individual Entry Age Normal Cost Method). The long-term expected return on plan investments may be used to discount liabilities to the extent that the plan's Fiduciary Net Position (fair value of assets) is projected to cover benefit payments and administrative expenses. A 20-year high quality (AA/Aa or higher) municipal bond rate must be used for periods where the Fiduciary Net Position is not projected to cover benefit payments and administrative expenses. Determining the discount rate under GASB 67 will often require that the actuary perform complex projections of future benefit payments and asset values. GASB 67 (paragraph 43) does allow for alternative evaluations of projected solvency, if such evaluation can reliably be made. GASB does not contemplate a specific method for making an alternative evaluation of sufficiency; it is left to professional judgment.

The following circumstances justify an alternative evaluation of sufficiency for OPERS:

- OPERS has a formal written policy to calculate an Actuarially Determined Contribution (ADC), which is articulated in the actuarial valuation report.
- The ADC is based on a closed, layered amortization period, which means that payment of the full ADC each year will bring the plan to a 100% funded position by the end of the amortization period if future experience follows assumption.
- GASB 67 specifies that the projections regarding future solvency assume that plan assets earn the assumed rate of return and there are no future changes in the plan provisions or actuarial methods and assumptions, which means that the projections would not reflect any adverse future experience which might impact the plan's funded position.

Based on these circumstances, it is OPERS' independent actuary's opinion that the detailed depletion date projections outlined in GASB 67 would clearly indicate that the Fiduciary Net Position is always projected to be sufficient to cover benefit payments and administrative expenses.

To develop an analytical basis for the selection of the long-term expected rate of return assumption, in June 2021 the OPERS Board reviewed long-term assumptions developed by both Milliman's capital market assumptions team and the Oregon Investment Council's (OIC) investment advisors. The table below shows Milliman's assumptions for each of the asset classes in which the plan was invested at that time based on the OIC long-term target asset allocation. The OIC's description of each asset class was used to map the target allocation to the asset classes shown below. Each asset class assumption is based on a consistent set of underlying assumptions, and includes adjustment for the inflation assumption. These assumptions are not based on historical returns, but instead are based on a forward-looking capital market economic model.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions:

At June 30, 2022, the District reported a liability of \$267,828 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2021, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of December 31, 2019. The District's proportion of the net pension liability was based on the District's projected long-term contribution effort as compared to the total projected long-term contribution effort of all employers. At June 30, 2022, the District's proportion was 2.24 percent, which is a decrease of 0.15 from the District's proportion of 2.39 percent for the year ended June 30, 2021.

For the year ended June 30, 2022, the District recognized pension expense of \$31.8 million for the defined benefit portion of the pension plan. At June 30, 2022, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflow of Resources	Deferred Inflow of Resources	Net

Defined Contribution Plan

OPSRP Individual Account Program (OPSRP IAP)

Plan Description:

Employees of the District are provided with pensions through OPERS. All the benefits of OPERS are established by the Oregon legislature pursuant to Oregon Revised Statute (ORS) Chapters 238 and 238A. Chapter 238 Defined Benefit Pension Plan is closed to new members hired on or after August 29, 2003. Chapter 238A created the Oregon Public Service Retirement Plan (OPSRP), which consists of the Defined Benefit Pension Program and the Individual Account Program (IAP). Beginning January 1, 2004, OPERS active Tier One and Tier Two members became members of the IAP of OPSRP. OPERS members retain their existing defined benefit plan accounts, but member contributions are deposited into the member's IAP account. OPSRP is a part of OPERS and is administered by the OPERS Board.

Defined Contribution Plan- continued

Pension Benefits:

Participants in OPERS defined benefit pension plans also participate in their defined contribution plan. An IAP member becomes vested on the date the employee account is established or on the date the rollover account was established. If the employer makes optional employer contributions for a member, the member becomes vested on the earliest of the following dates: the date the member completes 600 hours of service in each of five calendar years, the date the member reaches normal retirement age, the date the IAP is terminated, the date the active member becomes disabled, or the date the active member dies.

Upon retirement, a member of the OPSRP IAP may receive the amounts in his or her employee account, rollover account, and vested employer account as a lump-sum payment or in equal installments over a 5-, 10-, 15-, 20-year period or an anticipated life span option. Installment amounts vary with market returns as the account remains invested while in distribution. When chosen, the distribution option must result in a \$200 minimum distribution amount, or the frequency of the installments will be adjusted to reach that minimum.

Death Benefits:

Upon the death of a non-retired member, the beneficiary receives in a lump sum the member's account balance, rollover account balance, and vested employer optional contribution account balance. If a retired member dies before the installment payments are completed, the beneficiary may receive the remaining installment payments or choose a lump-sum payment.

Contributions:

Employees of the District contribute 6.0 percent of their covered payroll. The District did not make any optional contributions to member IAP accounts for the year ended June 30, 2022. Included in accrued liabilities at June 30, 2022 are \$2.4 million for employee contributions owed to the plan.

B. District Plan - Stipend

Plan Description

The District provides a single-employer defined benefit early retirement program for members of the Portland Association of Teachers (PAT), physical therapists, occupational therapists and licensed administrators. Certificated employees with 15 consecutive years of at least half time service with the District, and who are eligible to retire under OPERS, and who retired before age 62 are eligible for the early retirement benefits. Eligible employees are entitled to a monthly benefit of \$425 dollars commencing on the first month after the retirement. Benefits are payable up to the earlier of attaining age 62 or receiving 60 monthly payments. The General Fund and the Special Revenue Fund are the primary funds from which the stipend liability is liquidated. The District does not issue a separate stand-alone financial report for this plan. The District pays for the benefits without any cost to employees. The contributions are financed on a pay-as-you-go basis, and there are no assets accumulated in a trust. The program was established under separate bargaining agreements and may be amended by the District under new collective bargaining agreements.

Total Stipend Liability

The District's total stipend liability of \$5.5 million was measured as of June 30, 2021, rolled forward to June 30, 2022, and was determined by an actuarial valuation as of July 1, 2020.

A. Retirement Health Insurance Subsidy (RHIS)

Plan Description

The District provides a single-employer defined benefit plan that provides postemployment health, dental, vision and life insurance benefits to eligible employees and their spouses for employees who have retired from the District with a minimum of fifteen accumulated years of service and are eligible to retire from the Oregon retirement system. There are 5,820 active and 484 retired members or beneficiaries currently receiving benefit payments in the plan. Covered employees under the plan are eligible to receive full or part District-paid medical and pharmacy benefits for up to 60 months, or until reaching age 65, whichever comes first. The District also pays a portion of the spouse/domestic partner medical and pharmacy costs during the benefit period. The program was established under separate collective bargaining agreements with the certificated and classified employees and by precedent for all other District employees. The Portland Teachers Association (PAT) group terminated this benefit after September 30, 2019. All other bargaining units and employee groups, except the District Council Unions (DCU), agreed to terminate this benefit after June 30, 2014. The DCU agreed to terminate this benefit after December 31, 2014. Under Oregon Revised Statute (ORS) 243.303 any OPERS qualifying public employee is allowed to pay the full cost for continued coverage under the District group health plans until they become Medicare eligible. The plan does not issue a separate financial report, and there are no assets accumulated in a trust. The plan may be amended by the District under new collective bargaining agreements.

Benefits Provided

The District pays for the benefits. The contributions are financed on a pay-as-you-go basis. The General Fund and the Special Revenue Fund are the primary funds from which the Other Post Employment Benefit liability is liquidated.

Employees covered by benefit terms

As of June 30, 2022, the following employees were covered by the benefit terms:

Inactive employees or beneficiaries currently receiving benefit payments	355
Inactive employees entitled to but not yet receiving benefit payments	129
Active employees	5,820
	<u>6,304</u>

Total RHIS Liability

The District's total RHIS liability of \$75.9 million was measured as of June 30, 2021, and was determined by an actuarial valuation as of July 1, 2020, rolled forward to June 30, 2022.

Actuarial Methods and Assumptions

Actuarial methods and assumptions, with the exception of the Health Care Cost Trend, are consistent with those disclosed for the District Stipend. See Footnote 11 – Pension Plans, part B. District Plan - Stipend for additional information on Actuarial Assumptions and Methods, the Long-Term Expected Rate of Return, and the Discount Rate.

Health Care Cost Trend – The actuarial calculations used an assumption that medical costs will increase to 5.75 percent in the first year and reach an eventual ultimate rate of 4.00 percent. These trends are based on a long-term medical trend model published and updated by the Society of Actuaries. Known as the "Getzen model", it produces long-range trend assumptions built on assumed long-term relationships between certain key economic factors. It also assumes that dental and vision costs will increase by the lesser of the medical cost trend previously described and 4.00 percent per year.

B. Retirement Health Insurance Account (RHIA)

Plan Description

As a member of Oregon Public Employees Retirement System (OPERS) the District contributes to the Retirement Health Insurance Account (RHIA) for each of its eligible employees. RHIA is a cost-sharing multiple-employer defined benefit other postemployment benefit plan administered by OPERS. Oregon Revised Statute (ORS) 238.420 established this trust fund. Authority to establish and amend the benefit provisions of RHIA reside with the Oregon Legislature. The plan is closed to new entrants after January 1, 2004. OPERS issues a publicly available financial report that includes financial statements and required supplementary information and is available at: <http://www.oregon.gov/pers/Pages/Financials/Actuarial-Financial-Information.aspx>

Benefits

RHIA pays a monthly contribution toward the cost of Medicare companion health insurance premiums of eligible retirees.

Contributions

Because RHIA was created by enabling legislation (ORS 238.420), contribution requirements of the plan members and the participating employers were established and may be amended only by the Oregon Legislature. ORS require that an amount equal to \$60 dollars or the total monthly cost of Medicare companion health insurance premiums coverage, whichever is less, shall be paid from the Retirement Health Insurance Account established by the employer, and any monthly cost in excess of \$60 dollars shall be paid by the eligible retired member in the manner provided in ORS 238.410. To be eligible to receive this monthly payment toward the premium cost the member must: (1) have eight years or more of qualifying service in OPERS at the time of retirement or receive a disability allowance as if the member had eight years or more of creditable service in OPERS, (2) receive both Medicare Parts A and B coverage, and (3) enroll in an OPERS-sponsored health plan. A surviving spouse or dependent of a deceased OPERS retiree who was eligible to receive the subsidy is eligible to receive the subsidy if he or she (1) is receiving a retirement benefit or allowance from OPERS or (2) was insured at the time the member died and the member retired before May 1, 1991.

The District's rates in effect for the fiscal year ended June 30, 2022 were:

Tier One / Tier Two	0.05%
OPSRP General Service	0.00%

District contributions for the year ended June 30, 2022 were \$126.

RHIA Liabilities, RHIA Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to RHIA

At June 30, 2022, the District reported an asset of \$9.2 million for its proportionate share of the OPERS net RHIA asset. The net RHIA asset was measured as of June 30, 2021, and the total RHIA liability used to calculate the net RHIA asset was determined by an actuarial valuation as of December 31, 2019 rolled forward to June 30, 2021. The District's proportion of the net RHIA asset was based on the District's actual, legally required contributions made to the RHIA program during the measurement period relative to total actual contributions from all participating employers. At June 30, 2022, the District's proportionate share was 2.67%, which is a decrease of 0.26% from its proportion of 2.93% as of June 30, 2021.

NOTE 13 - RISK MANAGEMENT

The Internal Service (Self-Insurance) Fund charges other funds for the costs incurred for workers' compensation claims. Charges to other funds by the Self-Insurance Fund are recognized as revenues in the Self-Insurance Fund and as expenditures in the fund incurring the charges. The Self-Insurance Fund recognized \$821 of revenues from other governmental funds for the year ended June 30, 2022.

The District is exposed to various risks of loss related to injuries; torts; theft or damage to and destruction of assets; errors and omissions; and natural disasters. The District is self-insured up to \$1 million and carries commercial excess insurance. Settlements have not exceeded insurance coverage for the years ended June 30, 2020 through 2022. There have been no reductions to the District's insurance coverage during the year ended June 30, 2022. The District anticipates that all accrued claims losses will be paid within twelve months.

The total claims payable at June 30, 2022 of \$7.1 million was made up of approximately \$4.0 million in worker's compensation claims (recorded in the Internal Service Fund) and \$3.1 million in property and general liability claims (accounted for in the General Fund and not accrued on the fund financial statements). Changes in the balances of claims liabilities during the years ended June 30, 2020, through June 30, 2022, were as follows:

Fiscal Year	Beginning Balance	New Claims	Payments on Claims	Ending Balance
2020	6,843	3,905	(3,895)	6,853
2021	6,853	2,516	(3,795)	5,574

NOTE 14 – COMMITMENTS AND CONTINGENT LIABILITIES

Contracts

Under Oregon Revised Statute No. 279, should funding not be available, the following contracts may be cancelled without penalty. Estimated future District service commitments in excess of \$3.0 million are listed as follows:

Supplier	Commitments
Andersen Construction Co of Oregon LLC	\$ 277,006
First Student Inc	56,006
Hoffman Construction Company of Oregon	42,742
2KG Contractors Inc	4,726
Bassetti Architects PS	4,715

Future District service commitments by fund are as follows:

	Commitments
General Fund	\$ 56,006
Capital Projects Fund	329,189
	<u>\$ 385,195</u>

Dr. Matthew Prophet Educational Service Center (formerly Blanchard Education Service Center)

In June 2000, Multnomah County leased a portion of the District's headquarters for \$3.5 million under a 99-year agreement. In December 2008, Portland Public Schools reacquired a portion of that space for \$800 thousand, which was fully paid as of June 30, 2014. This lease agreement stipulates that a portion of the initial lease payment received from Multnomah County be set aside to be applied toward the County's share of major repairs. Any unused balance earns interest at the monthly interest rate earned from the Local Government Investment Pool. As of June 30, 2022 the Multnomah County Reserve balance held in the Facilities Capital Fund, a sub-fund of the Capital Projects Fund, was \$544.

Pending Legal Actions

The District is a defendant in certain pending legal actions. Although the outcome cannot be determined, the District believes that settlement of these matters will not have a material effect on the District's financial position and results of operations.

Grantor Agencies

Amounts received or receivable from grantor agencies are subject to audit and adjustment by these agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the district. The amount, if any, of costs which may be disallowed by the grantor cannot be determined at this time, although district management expects such amounts, if any, to be immaterial.

School Support Fund

A substantial portion of the District's funding consists of an apportionment of funds from the State Basic School Support Fund. This apportionment is determined by a formula taking into account the District's weighted average daily student membership and revenue derived from local District sources. Local District sources may vary from year to year and may be revised retroactively or prospectively changing the amount of State Basic School Support received or to be received.

NOTE 16 – RELATED ORGANIZATIONS

The District includes five charter schools that are legally separate, tax-exempt organizations. The most recent data available indicates charter school total students were 1,295 (representing less than 3.0 percent of the District's total enrollment); and that charter schools' Net Position was \$2,880. Because of their size relative to the District, the charter schools do not fall under the component unit reporting requirements set forth by GASB Statement No. 39.

NOTE 17 – ARTS TAX

In November, 2012, voters in the City of Portland passed Ballot Measure 26-146 to restore school arts and music education, funded through an income tax of \$35 per person per year. In December of 2012, the District entered into an intergovernmental agreement IGA/R 59656 with the City of Portland to receive a portion of this tax, to be used to provide arts and music education, through certified arts and music teachers, to all K-5 students, including charter schools within the District.

¹ Includes amounts for unexpended revenues carried forward from prior years.

NOTE 18 – TAX ABATEMENTS

The District is subject to tax abatements (exemptions) granted by Multnomah, Washington and Clackamas counties of Oregon. Counties are allowed to grant abatements due to numerous Oregon Revised Statutes (ORS). Washington and Clackamas counties had no tax abatements affecting the District. Multnomah county has numerous abatement programs which affected District revenue as described below.

City of Portland Low Income Rental Housing (ORS 307.540 to 307.548)

In 1985, Oregon legislature authorized a property tax exemption for low-income housing held by charitable, nonprofit organizations. The tax exemption is intended to benefit low-income renters by alleviating property tax burden on those agencies that provide this housing opportunity. The qualifying property must be located within the city of Portland.

Day Care Centers, Student Housing and Religious Schools (ORS 307.145)

The child care facilities, schools, academies and student housing accommodations, owned or being purchased by incorporated eleemosynary institutions or by incorporated religious organizations, used exclusively by such institutions or organizations for or in immediate connection with educational purposes, are exempt from taxation.

Transit Oriented Development (ORS 307.600 to 307.637)

Cities and counties may grant a property tax exemption for multiple unit rental housing (excluding land) in areas designated as core areas, light rail station areas and transit oriented areas for up to 10 successive years. Housing that can qualify for this exemption includes newly constructed housing and property converted to housing use.

Historic Property (ORS 358.475 to 545)

The Special Assessment for Historic Property program is a state-sponsored incentive program instituted in 1975 to encourage the preservation and appropriate rehabilitation of properties listed in the National Register of Historic Places. Under this program a property is specially assessed for a period of 10-15 years. This allows the owner to restore or improve the condition of the property and not pay additional taxes on the resulting increase in the property's value until the ten-year benefit period has expired.

Enterprise Zone (ORS 285C.050 to 285C.255)

The Oregon Enterprise Zone program is a State of Oregon economic development program established, that allows for property tax exemptions for up to five years. In exchange for receiving property tax exemption, participating firms are required to meet the program requirements set by state statute and the local sponsor. The Enterprise Zone program allows industrial firms that will be making a substantial new capital investment a waiver of 100% of the amount of real property taxes attributable to the new investment for a 5-year period after completion. Land or existing machinery or equipment is not tax exempt; therefore, there is no loss of current property tax levies to local taxing jurisdiction.

Housing Authority Partnership (ORS 456.225)

The property of a housing authority is declared to be public property used for essential public and governmental purposes. The property and the housing authority are exempt from all taxes and special assessments of the city, the county, the state or any political subdivision of the city, county or state.

The following schedule represents the District's portion of tax abatements granted by Multnomah County for tax year 2021-22. Programs with exemptions totaling more than \$500 thousand were listed separately; all other programs were grouped together:

Exemption Program	Amount
City of Portland Low Income Rental Housing	\$ 4,405
Day Care Centers, Student Housing & Religious Schools	2,923
Transit Oriented Development, Portland	1,939
Historic Property	1,721
Enterprise Zone	876
Housing Authority Partnership	705
All other exemption programs	745
Total Abatements	<u>\$ 13,314</u>

NOTE 19 – SUBSEQUENT EVENTS

The date to which events occurring after June 30, 2022, the date of the most recent statement of net position, has been evaluated for possible adjustment to the financial statements or disclosure is December 9, 2022, which is the date on which the financial statements were available to be issued.

REQUIRED SUPPLEMENTARY INFORMATION

The information in this section compares budget to actual for the District's General and major special revenue funds.

The budgetary basis of accounting for all funds is modified accrual, which is the same as that required by accounting principles generally accepted in the United States of America. Unless otherwise noted, a reconciliation of budgetary to generally accepted accounting principles activity is not required.

Notes

Beginning July 1, 1997 property taxes were based on an assessed value. Assessed value is defined as the lower of "maximum assessed value" or "real market value". For the 1997-1998 tax year, "maximum assessed value" was set at the 1995-1996 real market value less 10 percent. Assessed value for later years is limited to 3 percent annual increases.

The net levy is the actual imposed tax after adjustments and constitutional property tax limitations due to the passing of Measure 5 in 1990 and Measure 50 in 1997.

Source for real market values is Tax Supervising & Conservation Commission and Multnomah County annual reports yearly real market and assessed values by county.

Notes

The permanent and local option tax rates are determined by the State of Oregon Constitution and State Statutes. Existing districts cannot increase their permanent rate authority. Local option levies are limited to five years for operations and ten years for capital projects. Elections for local option levies must meet the double majority election test, except in the November general election in even numbered years. Rates for debt service are set based on each year's requirements.

Notes

The net taxes levied are combined for Multnomah, Washington, and Clackamas counties. Responsibility for the collection of all property taxes rests within each County's Department of Assessment and Taxation. Current taxes are assessed as of July 1, become due as of November 15 and become delinquent as of May 15. Assessed taxes become a lien upon real property in the fourth year of delinquency. Proceeds of tax sales are applied to delinquent taxes, interest and other costs attributable to the property sold.

¹ The net levy is the actual imposed tax after adjustments and constitutional property tax limitations due to the passing of Measure 5 in 1990 and Measure 50 in 1997. Additional information can be found on Schedule 5. Note that the Net Taxes Levied in Schedule 5 is based on the Assessed Value, while data for this schedule is based on the actual Net Taxes Levied.

² Collections in subsequent years includes current year revenue received for taxes levied in prior years.

Notes

Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the District. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses of the District. This process recognizes that, when considering the District's ability to issue and repay long-term debt, the entire debt burden borne by the residents and businesses should be taken into account. However, this does not imply that every taxpayer is a resident, and therefore responsible for repaying the debt of each overlapping government.

¹ Net Property-tax Backed Debt includes all General Obligation (GO) bonds and Limited-tax GO bonds, less self-supporting unlimited tax (GO) and self-supporting limited-tax (GO) debt.

² Overlapping Debt is calculated using Net Property-tax Backed Debt times Percent Overlapping that are provided by Oregon State Treasury, Debt Management Division.

³ Direct District debt is net of unamortized premiums and discounts.

¹ Enrollment counts are compiled on or about the first school day in October. An enrolled student is defined as a student who attends one or more schools or programs within the District. Regardless of the number of schools or programs attended, each student is counted only once; the counts are unduplicated.

² Kellogg School opened in Fall 2022.

³ Weighted Average Daily Membership ("ADMw") is the enrollment figure, adjusted for part-time students and students with special needs, that is used to allocate revenues appropriated by the State to school districts. The most recent two years are preliminary data.

**INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE AND INTERNAL CONTROL
OVER FINANCIAL REPORTING BASED ON AN AUDIT OF FINANCIAL STATEMENTS
PERFORMED IN ACCORDANCE WITH OREGON STATE REGULATIONS**

Board of Education
School District No. 1J, Multnomah County
Portland, Oregon

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of School District No. 1J, Multnomah County, Oregon (the District) as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated December 9, 2022. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States.

Compliance

As part of obtaining reasonable assurance about whether the District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grants, including the provisions of Oregon Revised Statutes as specified in Oregon Administrative Rules 162-10-000 through 162-10-330 of the *Minimum Standards for Audits of Oregon Municipal Corporations*, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion.

We performed procedures to the extent we considered necessary to address the required comments and disclosures which included, but were not limited to the following:

- Deposit of public funds with financial institutions (ORS Chapter 295).
- Indebtedness limitations, restrictions, and repayment.
- Budgets legally required (ORS Chapter 294).
- Insurance and fidelity bonds in force or required by law.
- Programs funded from outside sources.
- Authorized investment of surplus funds (ORS Chapter 294).
- Public contracts and purchasing (ORS Chapters 279A, 279B, 279C).
- State school fund factors and calculation.
- Public charter school requirements.

In connection with our testing, nothing came to our attention that caused us to believe the District was not in substantial compliance with certain provisions of laws, regulations, contracts, and grants, including the provisions of Oregon Revised Statutes as specified in Oregon Administrative Rules 162-10-000 through 162-10-330 of the *Minimum Standards for Audits of Oregon Municipal Corporations*, except as follows:

**INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE AND INTERNAL CONTROL
OVER FINANCIAL REPORTING BASED ON AN AUDIT OF FINANCIAL STATEMENTS
PERFORMED IN ACCORDANCE WITH OREGON STATE REGULATIONS (Continued)**

- In our test sample of 60 students with more than 10 absences, there was one student with ten or more consecutive absences who was not withdrawn from ADM as required by State rules.
- In our test sample of 60 teachers, the District misreported years of experience for six teachers.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the District's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Purpose of This Report

This report is intended solely for the information and use of the Board of Education, Oregon Secretary of State Audits Division, and management and is not intended to be and should not be used by anyone other than these specified parties.
