

19:21:36 From Leah Dickey-Harrison Park, She/Her : I will be right back

19:22:23 From Jennifer Fontana (she/her) Atkinson Principal to Marne Maykowskyj(Direct Message) : Can I get shifted to programs?

19:51:18 From Sheilagh Diez (she/ella) Atkinson : Just curious, is there any history/benefit to having some areas have two options?

19:51:59 From Jenny Axelrod | FLO Analytics : Jeandre - if you're back, we'd be happy to have your input.

20:04:06 From Sheilagh Diez (she/ella) Atkinson : I feel the same way.

20:10:55 From Sheilagh Diez (she/ella) Atkinson : Michael is bringing top something I've been very curious about. What does PPS mean by "robust?" is it just numbers or more based on access to particular classes? Do we have a document that shares what classes (esp. advanced math, & arts programming) at each ms and how changing enrollment (and possibly impacting Title 1 status) impact the offerings?

20:17:55 From Beth Brett (she/her); Creston parent : @Jed - you mentioned when introducing the options that E2 could be changed to lower enrollment at Mt. Tabor and increase enrollment at Hosford (or potentially Sellwood). Could you please talk about what some of those boundary changes might be?

20:19:27 From Jenny Axelrod | FLO Analytics to Marne Maykowskyj(Direct Message) : Are we still here because the other room is needing more time?

20:20:21 From Marne Maykowskyj to Jenny Axelrod | FLO Analytics(Direct Message) : yes. and that we were not to E2 yet when we decided to go long

20:21:31 From Jenny Axelrod | FLO Analytics to Marne Maykowskyj(Direct Message) : ok - there is really only one key difference between 1 and 2 - where the programs are and the boundary/feeder for Atkinson (e1 feeds to kellogg, e2 feeds to Harrison park).

20:21:57 From Marne Maykowskyj to Jenny Axelrod | FLO Analytics(Direct Message) : we are capturing the issues with both since they are so similar

20:22:12 From Jenny Axelrod | FLO Analytics to Marne Maykowskyj(Direct Message) : yep

20:23:14 From Marne Maykowskyj to Jenny Axelrod | FLO Analytics(Direct Message) : The other room needs a FLO rep
