

Draft Proposal A

Scenarios should be evaluated for their long-term and regional impacts. Phased implementation and high school changes will be recommended to the Board by district staff.

Scenario Summary

Middle schools: Harrison Park becomes the regional hub for Spanish and Chinese DLI programs and boosts neighborhood enrollment through attendance area expansion. Lane boosts enrollment through attendance area expansion.

Elementary schools: Bridger and Lent become regional hubs for Chinese and Spanish DLI, respectively. Clark becomes the neighborhood K-5 school for Harrison Park students. Attendance areas are adjusted to accommodate the dispersal of Bridger and Lent neighborhood programs and boost enrollment for schools no longer co-located with DLI.

K-8 schools: Creative Science is moved to Woodstock and enrolled through the neighborhood.
