Notes: The 2025-26 enrollment forecast was published by the Portland State University Population Research Center (PSU PRC) in March 2021. The 2021-22 enrollment reflects the official October 2021 student counts used for district-wide reporting. Student locations and demographics are not provided in the PSU PRC forecasts, so socioeconomic indicators are based on 2021-22 actual enrollment. Low income demographic category is based on direct certification which is an economic indicator. Direct certification also determines a school's Title 1 status: schools with 33% or more direct certification students is considered Title 1.
