

Dyslexia 101

Dyslexia is invisible and frequently misunderstood, yet it affects up to 20% of the population. Dyslexia 101 informs attendees about this neurobiological learning difference by exploring: early warning signs, causes, treatment and consequences of not providing teacher training or evidence-based instruction for dyslexia in America's public schools and discussion of recent Oregon legislation regarding dyslexia.

Register in the library or online at multcolib.org/events

Note: In the event there are not enough people pre-registered, the program will be cancelled.

Wednesday
Feb.6
6:30 pm - 7:30 pm
