**Special Topic** 7:00 pm – 8:00pm

**Attendance – From Absent to Present – Helping Students Show Up and Succeed**

Lisa Kensel, *Oregon PTA President* – Sharing a Statewide and National perspective from the workgroup on attendance and how PTA advocates for all children. (10 mins)

James McGee, *Principal* – Sharing the impact of poor attendance on Grant's community and on student success. He will also share his vision and action plan for making improvements in attendance.

-----

Lisa Kensel joins Senators Weber and Nguyen on a committee on absenteeism with OPTA . Bill coming forward on absenteeism. Chronic absenteeism is a Community issue...parents, admin and teachers have to work together to address this issue

18 days counts as chronic absenteeism. About 20% of our Oregon population is chronically absent, putting Oregon as one of the highest in the country. See attached presentation.

McGee presented:

On Attendance:

- 37% of Grant students chronically absent or worse
- Planning new protocols for participation in sports and extracurriculars (85% in previous year and 90% during sports season). Students marked with a skip on the day of a performance or match are not allowed to participate. Working with the district to make that work and hope to implement 4<sup>th</sup> quarter to work out kinks.
- We do not have an attendance coach currently...working on hiring that
- Need parent support...don't call kiddo in as absent if that isn't the case
- Looking at incentives...for kiddos with high and improving attendance rates, competitions by class (All In April), perfect attendance breakfast mid and end of year
- Attendance Supports...bring back after school detention, attendance intervention meetings, Re-engagement meetings, reconnections referral

- Engage community partners...SEI, BPI (black parent initiative) asked to lean in with students and families
- Grant graduation rates are up due to an increased focus on determining barriers to attendance and addressing root causes. It takes a lot of resources to do this.

#### On Graduation cords

- Pulling back on the cords
- Kids comparing cords/shaming...needs to stop
- Need to focus on the gains of the experience...not just completing something to get a cord
- Why not take all away? Some are district lead and left in Affinity Groups.
