

Wearing a Mask At School

Social Story

Teachers and students will wear masks when we go back to school. Masks help to not spread germs.

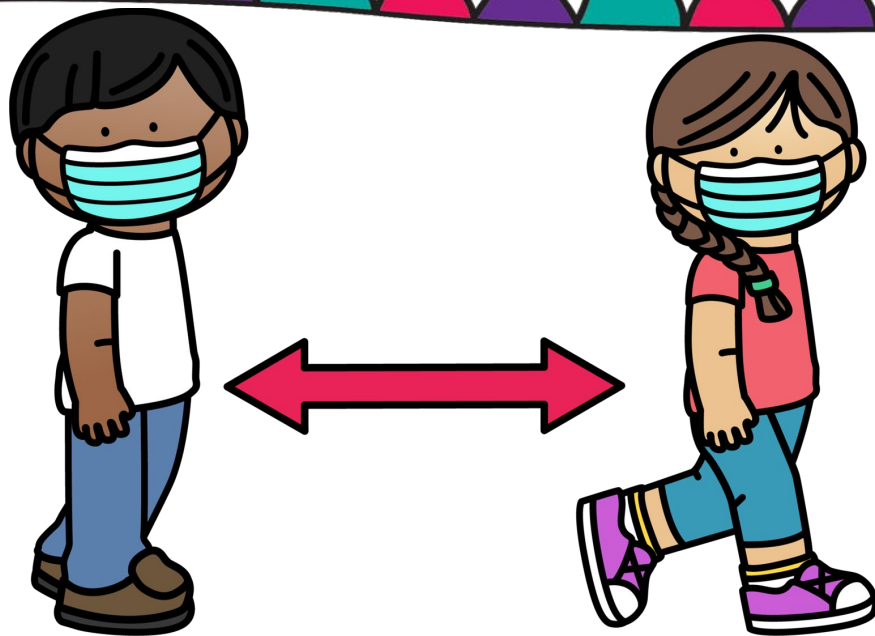

I need to wear my mask at all times during school.
This helps keep everyone safe.

My mask needs to cover my nose and mouth at all times.

My mask might feel uncomfortable, but I will get used to it!

I still need to use my personal space tool when I wear my mask.

Even though masks help to not spread germs, I still need to wash my hands.

Now I know how to wear my mask to keep everyone safe at school.
