

PORTLAND PUBLIC SCHOOLS

REOPEN

Reopening Guide

March 2021

Multnomah County has met the [Governor's metrics](#) to offer Hybrid in-person instruction. The information in this Reopening guide is intended for students and families to better understand the health and safety protocols that Portland Public Schools has put in place to mitigate the spread of COVID-19 in schools.

You can also access this Centers for Disease Control (CDC) [tool](#) to help parents, caregivers, and guardians weigh the risks and benefits of available educational options to help them make decisions about sending their student back to school. It is organized to provide parents and caregivers with information on COVID-19, why safely reopening schools is so critical, help you assess your student's and your family's risk of COVID-19; and consider factors that will help you make a choice of instructional format.

PPS is committed to ensuring safety measures are in place in every school as we welcome students back this month. We hope that these resources will help you make the decision that is best for your student and your family.

[What's happening in my county?](#) You can use this tool for tracking your county's COVID rates as they relate to school reopening status.
