Forecasting provides you with the opportunity to identify the core courses required for you to graduate as well as *elective* courses available to you that can both enhance and support your school experience. PPS requires 24 credits to graduate. 9th through 11th grade students will be enrolled in a full schedule. A full schedule of eight classes provides you with the opportunity to take maximum advantage of the educational opportunities. You should carefully review the list of courses available, consult with your parents and counselor as needed, and select 8 courses along with alternate course choices that meet your educational goals.

Directions:

1. Read through your course guide. Remember this is your opportunity to have an impact on your schedule for next school year.
2. On this sheet, select two (2) elective courses (**place an X beside your choice**), and two (2) alternate electives (**place an A1 and A2 by your alternate elective choices**)
3. Legibly write the selected course names in the appropriate fields located in the box provided below.
4. Discuss these choices with your parent /guardian. After discussing it, you and your parent/guardian sign this document.
5. Return this signed forecasting sheet to your counselor.

I have reviewed the Course Guide and discussed my course selections with my parent or guardian. I understand my final grades this year could impact my final schedule. **I have made my choices thoughtfully and I understand I will not be allowed to make changes (other than appropriate level changes) or drop courses in the fall or 2nd semester.** Course offerings and staffing decisions are based upon student forecasting. Signatures indicate understanding of the forecasting process.
