

# Oregon Universities: Credits offered for AP Exams

This chart shows how much credit students receive for a passing AP score at Oregon State, University of Oregon, Portland Community College and at Portland State University.

For example, a student who passes AP Biology or AP Spanish Language will receive credit for THREE classes, saving up to \$3,300 and saving time spent in college. A student who passes an AP English or AP Art exam will receive credit for one class and save up to \$1,200. Nearly all of these classes count towards general education requirements and will help the student graduate faster! *Note that universities update their credit policies every year. Please check the university's website for the most up-to-date policy.*

AP classes are open to any student who is hard working and ready for a challenge.
