

4.40.050-AD Student Clubs

Portland Public Schools believes that student clubs are an integral part of the educational program of the Portland school system.

All student clubs must apply to the school for recognition and are subject to the rules set forth in this Administrative Directive.

I. Definitions

- (1) Clubs. Clubs are recognized student groups or organizations that may be curricular or non-curricular.
- (2) Curriculum-related student clubs. Curriculum-related student clubs are an extension of and a supplement to the regular school curriculum. The subject matter of a curricular student club is actually taught or will soon be taught in a regularly offered class; or the subject matter of the club concerns the body of courses as a whole; or participation in the club is required for a particular course; or participation in the club results in academic credit. Examples: French Club, Constitution Team, Mathematics Club, Thespians.
- (3) Non-curriculum-related student clubs. Secondary school students may form non-curriculum related student clubs. The fact that such clubs are permitted to conduct meetings on District premises shall not constitute District endorsement of the purposes of such clubs or the content of their meetings.

Non-curriculum student clubs may be identified as service, honorary or interest clubs.

- (a) Service clubs. Clubs designed to provide a genuine function of service to the school and/or community. Such service activities should be more than just token undertakings or superficial justifications for the functioning of the club for social purposes. Examples: Key Club, Interact (Rotary), Students for Environmental Action, Second Wind.

- (b) Honorary clubs. Clubs designed to grant membership to students of the basis of special achievement in attaining openly published standards in defined areas of school life. Examples: National Honor Society.
 - (c) Interest clubs. Clubs organized in any area which may offer valuable experiences supplementary to educational programs including but not limited to: International Culture Club, Chess Club, Gay/Straight Alliance, Multi-Cultural Council, Hispanic Club, and further examples listed below for political clubs, Religious clubs or sport clubs.
 - (d) Religious clubs. Interest clubs whose purpose is to promote religion, who espouse a specific religious point of view and/or are sponsored by or affiliated with community or national religious organizations. Examples: Youth for Christ, Young Muslim Association, B'nai Brith Youth Organization.
 - (e) Political clubs. Interest clubs which espouse and/or promote a particular political view point. Examples: Young Republicans, Young Democrats.
 - (f) Sport clubs. Interest clubs for student sports activities that are not official PIL sports. Examples: Ski Club, La Crosse Club, Rugby Club, Dragon Boat teams.
- (4) Non-instructional time. Time during the school day not devoted to classroom instruction such as before school, after school (until the end of the school day) and lunch time.
- (5) Supervision of student clubs. For the purposes of this Administrative Directive, supervision of a student club means advising and taking an active role in planning and implementing the activities of the club. All clubs with the exception of religious, political and sports clubs must have a staff supervisor. See Section V for more detail.
- (6) Monitoring student clubs. For the purposes of this Administrative Directive, monitoring a student club means being present at meetings on school premises for the purpose of observation. Religious, political and sports clubs must have a

staff monitor. Monitors may not participate in, plan or implement the activities of the club that occur during the school day. Any participation by monitors in the activities of religious, political or sports clubs outside of the school day is at their own risk. See section V for more detail on monitoring.

II. Basic Requirements of Student Clubs

- (1) Non-Discrimination. All student clubs shall operate according to democratic procedures and shall not discriminate on the basis of age, color, creed, disability, marital status, national origin, race, religion, sex or sexual orientation.
- (2) Freedom of Assembly. Students may meet on school premises to express and espouse views in the exercise of their right of free expression under the Board Policy on freedom of expression on school premises. Board Policy 4.40.070-P
- (3) Equal Access. The Equal Access Act, 20 USC § 4071, requires that public secondary schools grant equal access to student clubs wishing to meet for religious, political or philosophical purposes if the school allows other types of non-curriculum related student clubs to meet on school premises during non-instructional times. The District shall comply with the Equal Access Act and all laws that impact student clubs. All student clubs shall have the same opportunity to use school facilities regardless of religious, political, philosophical, or other content of the speech at such meetings.

All student clubs are subject to the rights and obligations of the District to maintain order and discipline on school premises; to abide by this Administrative Directive and all other applicable policies and rules; to protect the well-being of students and faculty; and assure that students attending these meetings are doing so voluntarily.
- (5) Financial Obligations. When entering into any contract or financial obligation to a third party (including, but not limited to vendors for non-PPS facilities, supplies, equipment, transportation, uniforms, etc.), the student club shall make it clear to the third party that the club and not the affiliated school

is responsible for the obligation
