American Indian Science and Engineering Society (AISES) Exploring STEM (Science, Technology, Engineering, Math) through College and Career Readiness

www.aises.org/pk12/PPSCamp

American Indian Science and Engineering Society (AISES) outreach staff will work with AISES membership in the area, local college and professional chapters, as well as tribal councils, Native community organizations, and PPS to recruit students interested in participating in Exploring STEM through College and Career Readiness. One AISES staff member will travel on one pre-camp outreach trip to engage Native community members, build relationships, and increase registration numbers. Once a student is interested in registering for camp, they will find more information on how to register on the aises.org website. They will fill out a registration form and, once the form is filled out, AISES staff will contact each participant to invite them to view a webinar detailing the camp and outlining what to expect during their time with AISES. A broad overview of AISES, the camp, college and career readiness, and STEM fields will be included.

Are you interested in Science, Technology, Engineering, or Mathematics? Do you want to learn about what you need to attend college or trade school? If so, join the American Indian Science and Engineering Society this summer as we learn the ins and outs of college and career readiness. Each day will focus on how to prepare for life after high school as we address questions like “How do I apply to college?”, “What is financial aid?” and other important information – all while participating in fun STEM activities. Learn robotics, coding, digital storytelling, Indigenous star lore, and so much more! Want to talk to a STEM professional? – Indigenous guest speakers and Native knowledge keepers to guide you in the process. This camp offers students STEM learning through an Indigenous lens and is open to all learners!

Open Enrollment

Capacity: 20 per session

Contact: Stacy Ledford, sledford@aises.org, 720-758-9736

Black Excellence Group

This is an opportunity for current Black Excellence Group students and families.

All Black Excellence Group students and families, our programming is extending to SUMMER! Get ready for a Summer of Black Excellence! Hear about programming in groups this April and May to get connected.

Direct Registration

Capacity: 135

Contact: mashari@blackexcellencegroup.org

Bodecker Foundation Creative Workshops

www.bodeckerfoundation.org

The Bodecker Foundation partners with professional artists, writers, designers, and educators to lead FREE, multidisciplinary creative workshops for Portland-area high school students. Our workshop disciplines include songwriting, audio engineering, creative writing, film/video, fashion, design, illustration, studio art, slam poetry, portfolio development, and zine making – among others. Threaded throughout is a career exploration and applied arts approach that uniquely centers collaboration, inclusivity, and positive affirmation of student identities.

Open Enrollment

Capacity: 12-15 students per workshop, total 120 High School

Online registration at www.bodeckerfoundation.org/workshop.

Questions? Please contact jodi@bodeckerfound.org or workshops@bodeckerfound.org

Boys & Girls Clubs of Portland (BGCP)

www.bgcpportland.org

BGCP has been on the forefront of providing youth development programs for Portland youth since 1946. Our mission is to empower all young people, especially those who need us most, to discover their full potential as caring, engaged, responsible community members. Our approach to youth development reflects this mission and uniquely positions us to address critical needs such as, unfinished learning, social emotional supports, healthy lifestyles, sports & recreation.

Direct Registration

Capacity: 45 youth per location & 30 teens per location

Visit www.bgcpportland.org to register.

Black Parent Initiative (BPI) Summer Camp Programming (Sawubona)

<https://www.thebpi.org>

Black Parent Initiative (BPI) is implementing its summer enrichment programming for Black and African American students in 2nd through 5th grade. Programming will be engaging, in person, and culturally specific, while adhering to current summer camp guidelines. The programs will focus on positive cultural identity development and skill building through literacy and health-focused activities. Transportation will be provided if needed. On-site meals will also be provided. Every other Friday we will host an off-site field trip. Parents are welcome to serve as volunteers. Please reach out to our team if you are interested in volunteering or your child attending programming.

BPI will conduct outreach among families currently enrolled in programming. If interested in attending, they will be provided the necessary registration forms.

Direct Registration

Capacity: 25-30

Contact Stephanie Harvey, 971.808.6454, Stephanie.Harvey@thebpi.org

BRAVO Summer Performing Arts Programming

<https://oregonbravo.org>

Program #1: General Music classes at Rosa Parks & Cesar Chavez: 126 students

Program #2: Pilot programs: Choir class - 60 students; Drums - 20 students, Dance - 28 students

Program #3: BRAVO Summer Camp: 40 existing BRAVO students

Program #4 - BRAVO Summer Scholarships: 15 existing BRAVO students

Program #5 - HS Mentorship Youth Employment Program: 20 existing BRAVO students.

Grades: K-5, Middle School, High School

Program #1: General Music classes at Rosa Parks & Cesar Chavez - open enrollment

Program #2: Pilot programs: at Faubion, Woodlawn and Boise-Eliot - open enrollment

Program #3: BRAVO Summer Camp - Direct appointment

Program #4 - BRAVO Summer Scholarships - Direct appointment

Program #5 - The BRAVO HS Mentorship Youth Employment Program - Direct appointment

Open Enrollment:

Program #1: General Music classes at Rosa Parks & Cesar Chavez: BRAVO's introductory music class will focus on musical exploration through poetry, musical genre, and games. Students will have the opportunity to discover various styles of music and the fundamentals that make up those styles, and have choices on which genres they would like to learn more about. In this fun and enriching environment, students can try their hand at writing a song or a rap, and they will have opportunities to share their work with the group and offer feedback, learning the value of teamwork, kindness, respect, diversity, and discipline through creativity.

Program #2: Pilot programs:

*In BRAVO Choir Class: students will learn proper vocal techniques such as good breathing, blending, pitch, and harmony. Students will also explore and sing different genres of music. Each week, students will work on the songs they've chosen as a group and at the end of the 4 weeks they will perform their pieces. In addition to musical skills students will learn the value of teamwork, kindness, respect, diversity, and discipline.

*In BRAVO Drumming Class, students will learn musical coordination and drills, in a structured, and goal-oriented team building environment. Students will have fun learning the values of notes, performance technique, and how to build confidence while enjoying the thrill of being part of an amazing ensemble drumming performance at the end of the 4-week summer class session.

*In BRAVO Dance Class, students will learn the latest dance steps with an infusion of hip-hop, African and modern influences. Each week students will be introduced to new moves and techniques that will culminate in an explosive Dance performance at the end of the 4-week summer session.

Contact BRAVO's Director of Afterschool Programs Cinda Jackson to register at 971-255-0077 or cinda@oregonbravo.org

Camp Fire Columbia Summer Youth Leadership Program

<https://campfirecolumbia.org/programs/teen/>

Camp Fire Columbia will offer youth an opportunity for leadership development and to learn life skills through hands-on experiences, field trips, and discussions. In addition, youth will explore, reflect, and participate in social-emotional learning methods and practices, social justice, and identity exploration. Youth will also have the opportunity to participate and learn about nature through hiking, exploring, and active experiences at Camp Namanu. Program will be offered three days a week between Monday and Friday from 1:00 pm - 7:00 pm.

Direct Registration

Capacity: Franklin - 10 students, Roosevelt - 30 students, McDaniel - 30 students, Chavez - 10 students

Grades: Middle School, High School

Interested students please contact Jorge (jcruz@campfirecolumbia.org, 971-400-6642).

Camp Fire Columbia's Summer Day Camp 2022

<https://campfirecolumbia.org/portland-summer-day-camp/>

Camp Fire Columbia offers themed, planned activities designed and implemented by Summer Day Camp staff which include, but are not limited to arts and crafts, group games, active recreation, cooking, reading, science projects, team building, academic connections, world cultures, community-based learning, life skills, outdoor activities, creative expression, leadership development, and more! Program is offered Monday-Friday from 7:00 am - 6:00 pm.

Direct Registration

Capacity: 60 per site

Registration will occur through Camp Fire's website:

(<https://campfirecolumbia.org/portland-summer-day-camp/>).

Contact Jon (jmyers@campfirecolumbia.org and 503-784-4093);

or Sam (smorelli@campfirecolumbia.org and 503-803-9223) before registering to receive an access code for registration.

CETI Enchanted Technology Festival 2022

<https://ceti.institute> and <https://ceti.institute/programs/enchanted-tech-22>

Six weeks of collaborative learning, play, and creative experiments using cutting edge technologies (xr, creative code, smart tech, interactive objects), art and music to craft delightful and imaginative interactive objects, stories, spaces, and experiences placed around the city. Our festival this year will be made up of 3 institutes for Youth and Community Interactive Murals (Jul 11 - Jul 21); Enchanted Objects (Jul 25 - Aug 4); and Augmented Storytelling (Aug 1 - Aug 12) followed by project creation (and an optional September community showcase).

The participatory institutes, a series of formal and informal experiences are composed of workshops, inspiring speakers (demos/show and tell), project hours, mentoring, peer learning, collaborative idea generation, experimentation, and prototyping, family-style meals and discussions, field trips, site visits, and research "walks".

Come experiment and create with an amazing talented community of artists and technologists, creating wondrous, whimsical, mesmerizing objects, stories, and spaces. You can drop-in and engage as much as you wish. Bring friends and family.

We will have plenty of mentored time where participants can learn, train, and experiment in the lab, and time to work on projects independently or in groups throughout July and August. We will attempt to stream workshops and speakers, and create videos of the content to share with families, friends, neighbors, and community to encourage deeper engagement. We will have an optional show in September for participants to share their creations with the broader community. These showcases are empowering for youth and their families, allowing them to share their inspiring ideas and creations. Participants can join the stream at home with the community but we will also stream to a space at PSU so students can watch on site and continue discussions.

Open Enrollment

Capacity: 75

Students can register for 1 - 3 institutes and can choose workshops within those. Workshop enrollment is more limited.

Enchanted Technologies Summer Festival 2022: July 7 – Aug 19, 2022

Details (including a link to register) at <https://ceti.institute/programs/enchanted-tech-22>.

Send email to hello@ceti.institute with questions or to talk.

Champions Summer Camp

www.discoverchampions.com

Summer Quest 2022: Discovery, Learning, Adventure. Join us for a race to discover the world—no flight required! This summer students go on a journey of discovery around the world where they'll take on new perspectives beyond the walls of their home and school. The theme draws inspiration from popular TV shows featuring travel challenges. Students team up and engage in weekly quests that broaden their exposure to and understanding of people and places around the world. They'll learn how to innovate to solve real-world problems, connect with diverse cultures, persevere through challenges, and celebrate their accomplishments as a team and as individuals - all while practicing key skills in math, language, social studies, and science! At the beginning of each week, students will embark on a quest to discover something about their world through tasks that ultimately lead them to a mystery destination. As they gather clues and complete tasks, they'll practice sustainable ways to care for our world, try out new ways to take care of their mental and physical health, embrace different perspectives, and explore the impact of their influence when they create and share information with others. To close out the quest, students will compile all they've learned into a collective solution to the quest. They'll reflect on and celebrate where their adventures took them and discover the different paths other teams chose, learning that there are many ways to complete the same quest. Our summer program is aligned to four guiding principles based on input from families about what kids need most today. While each of the 10 summer quests are aligned to a particular guiding principle, all four guiding principles show up strongly in every quest! We've provided some examples for field trips and service-learning projects that also align to the guiding principles, and these could be scheduled at any time throughout the summer. This summer's program also includes a more comprehensive approach to learning loss through reading and writing clubs, reading circles, read-alouds, independent reading time, math manipulatives, math games, and more.

Open Enrollment

Capacity: 45 per site, 60 at Astor Elementary

Contact: Sherri Burks, sburks@discoverchampions.com, 503-701-3488

Chess for Success Summer Camp

www.chessforsuccess.org

Chess for Success Day Camps create ways for children to grow and learn through outdoor play, chess instruction, pro-social peer interaction, and exploration. Camps take place in July and August in various locations around the city. Chess for Success camps offer various ways for children to nurture their relationship to themselves, peers, and trusted adults.

Parents can register online at www.chessforsuccess.org and click the "Summer Camp" tab.

Open Enrollment

Capacity: 30

Grades: K-5, Middle School

For assistance, contact Patty O'Hollearn at 503-295-1230

Circus Theater Camp, Echo Theater Company

<https://www.echotheaterpdx.org>

Explore acrobatics, physical theater, juggling, stilt-walking and your own imagination in this safe and inclusive camp. Build confidence, grace, and strength as you discover your inner circus performer. Collaborate with peers and directors to create a unique Circus Show for family and friends. No experience necessary.

In order to support underserved populations, we are prioritizing low income and BIPOC families. Families will complete a Google Form application to request a space in a camp. Spaces will be given to families based on need as available. Families will be contacted by email as spots become available. The application will be available at www.echotheaterpdx.org.

Open Enrollment

Capacity: 20

Grades: K-5, Middle School

Contact hello@echotheaterpdx.org or 971-267-3246 for more information.

Commercial Kitchen Workforce Internship

<https://feedthemass.org/>

Feed The Mass is offering opportunities for young people to gain valuable workforce experience over the summer. We are looking for 8 paid interns to train in our commercial kitchen. Programming is designed to equip interns with the vital knowledge, skills, and experience they'll need to succeed in high level jobs in the hospitality industry.

Open Enrollment

Capacity: 8

Grades: High School

Contact: Jacobsen Valentine, jvalentine@feedthemass.com

Em-POWER-ing Summer Leadership Experience

www.IAmMOREresilient.com

I Am MORE and its community-based partners and artists are coming together to offer Black elementary and high school youth a unique, culturally relevant summer experience. Young students will be able to interact with a Grammy-nominated artist for drumming, singing and creative activities, such as painting, drawing and music making, as well as the city's first Black clown, Nikki The Brown Clown, who will offer literacy programming, and opportunities to teach youth about farming at a community garden she manages on NE Emerson. We will also have certified teachers who will tutor young kids in reading and math. Breakfast and lunch will be provided. Black high schoolers who apply for I Am MORE's Em-POWER-ing Summer Learning Experience will be paid \$18/hour for their participation in a series of leadership-preparation workshops, such as life skills, financial literacy, adulting, business and other topics. They will also be engaging in creative opportunities that develop social-justice leadership, entrepreneurship and service learning. They will also engage in Black Joy outings, performances and hands-on opportunities to learn marketing, creative design and other business skills. The high school curriculum is more of a cultural rite-of-passage program to groom potential leaders, entrepreneurs, arts and creative thinkers and social justice advocates.

Direct Registration

We have 60 of the paid positions available for high schoolers. We are open to no more than 80-100 elementary schoolers. The elementary school youth do not need to apply; they can just show up. As this is also a paid learning experience for high schoolers, we will take applications that allow youth to identify their interest and note their commitment levels.

Contact: Dr. S. Renee Mitchell, IAmMOREresilient@gmail.com

Fiction & Fun and Playwriting & Performance

<https://www.writopialab.org/PPS>

Writopia Lab will create two creative, thought-provoking, and super fun programs for middle school writers.

Fiction and Fun

In the mornings, young writers work in small age-based groups with a published author or produced playwright on developing and completing a short story, poetry collection, one-act play, or another piece of writing that's important to them. In the afternoon, writers will explore various writing genres and forms, such as comedy, mystery, spoken word, poetry walks around the neighborhood, flash fiction, zinemaking, and screenwriting. The weeks will culminate in a public reading of brand new work by talented young writers.

Playwriting and Performance

Young playwrights spend the mornings developing brand new plays or musicals under the guidance of a professional playwright. In the afternoons, they dive into the world of performance, with mini-workshops in character creation, theatrical design, voice and speech, and a look at acting fundamentals as they take on roles in their peers' plays. The week will culminate in a live performance of original one-act plays written and performed by these young dramatists of tomorrow.

Open Enrollment

3 sessions 20 students each session

Grades: Middle School

Registration: register@writopialab.org

Fred Hampton Summer: The Making of the Next Rainbow Coalition

<http://www.michaelstevensonjr.com/fred-hampton-summer/>

Fred Hampton Summer is a four-week creative experience for students in grades 3-8. Students will co-create the group's culture and rules with the guidance of local artist Michael Bernard Stevenson Jr. Additionally, students will learn the local history of the Alberta/Albina neighborhood, taking inspiration from local activists like the Black Panthers and their co-founder, Mr. Kent Ford. Also covered will be culturally-specific local restaurants, outdoor gardening projects, activities involving the work of contemporary Black artists, and more. All activities will ask students to reflect on historical events and draw upon lessons learned in order to craft their personal vision for the future.

Interested parents and students should email fredhamptonsummercamp@gmail.com for additional information about the program and to sign up.

Direct Registration

Capacity: 20

Grades: K-5, Middle School

Contact: (971) 910-3756, fredhamptonsummercamp@gmail.com

Girl Scout Summer Adventure

<https://www.girlscoutsosw.org>

You're invited to join us for Girl Scouts Summer Adventure Days – a two-week, hands-on adventure! Whether she's building a solar oven, making art from natural materials, hiking a forest trail, or honoring local change-makers through a service learning project, she'll discover something new – about her world and herself – each day. With new friends and caring adults by her side, she'll take the lead, grow and have FUN this summer! (Additional information to include M-F 9am-3pm 2-3 graders or 4-5 graders)

Session 1: June 21 – July 1
Boise-Eliot/Humboldt Elementary School
Monday-Friday, 9am-3pm

Session 2: July 5 – July 15
New Columbia/Tamarack - Home Forward N. Portland
Monday-Friday, 9am – 3pm

Session 3: July 18 – July 29
Stephens Creek Crossing Home Forward SW Portland
Monday-Friday, 9am – 3pm

Open Enrollment

30 spaces per session: 15 spaces for 2-3 grades, 15 spaces for 4 grade. There are 3 sessions: total program enrollment will be 90

Grades: K-5

PPS Student registration for Girl Scout Summer Adventure will enter registration using this link to our Google Intake form and our registration team will contact them to complete their registration and confirm their dates: <https://forms.gle/MMF2AhsvVBPYhCbf6>

For additional assistance by phone call 509 977- 6800

Grounding Waters and Constructing Careers

<http://theblueprintfoundation.org>

Constructing Careers and Grounding Waters are two tracks of a project-based mentoring program, for environmental science and green building, respectively. The program uses hands-on training, multigenerational-mentoring, and civic engagement to inspire Black middle and high school youth to pursue careers in the green sector. Our approach uses a 4-phase WISE (witness, Investigate, Solve and Educate) model, where youth (a) Witness natural areas, (b) Investigate environmental issues, (c) Solve a community environmental issue, and (d) Educate their community about environmental issues and environmental stewardship. Programming occurs on the weekends and includes meals, transportation, and stipends (for selected restoration activities).

Open Enrollment

Spaces: 25

Grades: Middle School, High School

To register, students can email Jason Stroman jason@theblueprintfoundation.org

Hampton Academy Summer Enrichment

<https://www.hamptontutors.com/pps>

Hampton Tutors is once again offering an engaging summer program that combines academic and arts enrichment to support lifelong learning and social-emotional well-being. Students deserve a summer of safe and fun in-person activities! Come join us for STEM, art, music and theater!

Open Enrollment

Number of students per session: (2 sessions offered throughout the summer):

K-2nd: 88, 3rd-5th: 88

Grades: K-5

Contact: hello@hamptontutors.com, or 1-800-614-5450

Families can register online at: <https://www.hamptontutors.com/pps>

Hand2Mouth Theater-Making Summer Camps

hand2mouththeatre.org

Hand2Mouth (H2M) will be offering 4 main camps at varying times throughout the 2022 PPS Summer Break.

Spanish Speaking Devising Theater Camp for Middle School: This 2 week-long creative camp uses H2M's devising theater curriculum to transcend language barriers, providing youth the opportunity to create a unique performance piece of their own devising.

Youth Devising Residency Program Workshops for High School: Young people ages 14 and up from all backgrounds who are interested in creating in ensemble a uniquely devised performance piece. Students of all abilities work under the guidance of Hand2Mouth teaching artists, who are world-class performers, to create and perform an original community-reflective theater piece of their own devising. Limited to 20 students - These slots are by interview and are paid positions

Youth Devising Theater Camps for Middle School – Middle School Theater Makers: Devising Theater Workshop. Using storytelling, improvisation, movement, visual art, music, film-making, sound, text, and media students craft a unique play of their own devising based on the world in which they live.

Dream Logic – Devising in a Dream World for Middle School: Prepare to be transported into a world parallel to our own, the world of Dream|Logic; a world of strange creatures and machines of your own devising where the rules of our own reality don't apply, where the same door can take you to infinite places. Students will craft this world together in ensemble, sharing and honoring one another's dreams.

Session 1: June 21 – July 1 | Spanish Speaking Storytelling | Roseway Heights MS

Session 2: June 21 – July 1 | Youth Devising Residency | Roosevelt HS

Session 3: July 4 – July 15 | Student Voices | Roosevelt HS

Session 4: July 4 – July 15 | Student Voices | Ida B. Wells MS

Session 5: July 18 – July 29 | Dream Logic | Roseway Heights MS

Session 6: July 25 – August 5 | Youth Devising Residency | Roosevelt HS

Open Enrollment

Capacity: 30

Grades: Middle School, High School

Registration will be via our online box office and class registration portal – via ArtsPeople, and managed by the H2M staff and Education Director

Impact NW Youth Summer Camp and Impact NW Pathways to Trade Summer cohort

www.impactnw.org

Youth Summer Camp is open to Fall 2022 incoming 1st thru 5th graders. Our youth camp will consist of hands-on STEM activities through Impact NW's (also known as) Science program, social emotional learning thru our Communities for Safe Kids program, and lots of fun outdoor activities to keep students active, engaged, and learning during the summer. Students will participate in Biology and Earth Science activities, and explore topics such as Understanding Feelings, Diversity, Healthy Friendships and Bullying through puppet workshops and interactive activities. Through the Pathways to Trade summer cohort for Fall 2022 incoming 10th-12th graders, students will gain job readiness skills, get industry exposure, set goals, prepare for job interviews and gain valuable soft skills to enter the workforce. Students will also participate in hands-on kits related to each trade sector (IT/Tech, Healthcare, Infrastructure/Construction, and Manufacturing). Students will also have an opportunity to participate in our week long Makerscamp the week of August 8th-12th at our Dancing Tree location (10055 E Burnside St).

Registration will be electronic via google forms (paper applications will be available). Once a student has registered, staff will confirm enrollment by June 27th (2 weeks prior to start date). Registration will be available in multiple languages.

Open Enrollment

Capacity: Youth Program: 60; Pathways cohort: 45; MakersCamp (not located at PPS site) 12

Grades: K-5, High School

Contact: gkim-folston@impactnw.org

IRCO Summer Success Program

www.ircoco.org

IRCO's Summer Success will offer culturally specific and responsive academic and enrichment programming for PPS students ranging from Pre-K-12th grade. Classes will be based at schools and community locations, incorporate fun and engaging academic and enrichment activities as well as experiential and hands-on learning through field trips. Summer Youth Internships will be available for High School students. Priority is for current IRCO clients.

Direct Registration

Capacity: 15 Kindergarten Readiness, 69 Elementary, 94 Middle School, 52 High School

Grades: K-5, Middle School, High School

Registration contact: Lyn Tan (lynt@ircoco.org)

Mad Science of Portland and Vancouver

portland.madscience.org

Mad Science Camps and Classes are a fun way to spend your summer! Mixing chemicals, building electric circuits, and manipulating magnetic fields are just a few examples of the science activities children can experience. Our programs are fun STEM explorations that include fascinating equipment, supplies, and take-home materials which the children build themselves! We aim to Spark Imaginative Learning! All classes and camps are comprised of large group demonstrations, small group activities, and individual take home projects related to the scientific concept covered that day.

Science, Technology, Engineering, Mathematics (STEM)

Open Enrollment

Capacity: 15/camp or class; 160 total for the summer

Grades: K-5

Families should visit portland.madscience.org to register for camps. They need to use Coupon Code PPS22 to waive registration fees. Can also call 503-230-8040 for assistance.

Maurice Lucas Foundation STEAM (Science, Technology, Engineering, Art, Math) Summer Learning Program

www.ml20.org

Students will create, innovate and find confidence through a STEAM-based character development curriculum, physical activity and project-based learning opportunities; engage in activities that turn summer from a time of high risk to an opportunity to learn more about themselves and their community; and embrace health and wellness through physical activities, nutritional knowledge and sleep habits.

Students may register on the Maurice Lucas Foundation website (www.ml20.org) via the pop-up notification with program registration details.

Open Enrollment

Spaces: 40

Grades: Middle School

Contact: Sheila Zachry, (503) 310-7604, szachry@ml20.org

NAYA Summer Enrichment and Engagement Programming

www.nayapdx.org

Culturally based summer safety, engagement, enrichment and school readiness activities for youth and their families.

Direct Registration

Capacity: 100

Grades: K-5, Middle School, High School

Contact Daniel Guilfoyle at danielg@nayapdx.org

Neighborhood House Summer Program

www.nhpdx.org

The Neighborhood House summer Early Kindergarten Transition (EKT) program runs from 11:30-4:30pm, Monday-Thursday from July 18-August 4, 2022. We would like to provide support for 15 children in the form of child care and enrichment activities After the Early Kindergarten Transition (EKT) program for all three weeks on site at Boise- Eliot/ Humboldt (BEH) school. We will pick the kids up after lunch and spend the afternoon having enriching activities. We know that when families and children feel more comfortable interacting with their school, they are more likely to be successful academically and socially. The Early Kindergarten Transition (EKT) program provides an opportunity for children and families in schools to start to develop a trusting relationship with the school in a small group before the first day of school. Neighborhood House operates a licensed child care and enrichment program at BEH during the school year. We have a classroom space there and have strong relationships with the BEH principal and staff so we are excited to continue our partnership with PPS and Self Enhancement Inc. (SEI) at this school.

Arts, Childcare, Enrichment, Science, Technology, Engineering, Mathematics (STEM)

Direct Registration

Capacity: 15

Grades: K-5

To sign your child for our summer program at Bosie-Eliot please email saenrollment@nhpdx.org. Then paperwork will be sent to you. Please say you are signing up for the Early Kindergarten Transition (EKT) Summer program. If you have questions about the program please call Angie Raffaele at 971-601-9001.

Ninth Grade Counts

<http://www.latnet.org/ninth-grade-counts-9th-grade>

Ninth Grade Counts (NGC) focuses on helping students uncover their own potential, supports them in their academic and socio-cultural journey towards high school graduation, and encourages them to pursue post secondary education. NGC provides students with leadership development skills, a stronger sense of connection to their academic and cultural community, and enhances student self-perception of confidence and adversity.

Direct Registration

Capacity: 40

Grades: High School

Please contact Melissa McCoy, mmelissa@latnet.org for registration.

Pacific Islander Youth Mentoring and Tutoring Program

<https://www.samoapdx.org/>

In this program we will increase Pacific Islander student engagement and academic performance through culturally specific cultural programs, tutoring and mentorship.

Direct Registration

Spaces: 50

Grades: Middle School, High School

Passion Impact Summer Internship Program

<https://passionimpact.org/student-programs/summerinternship/>

Passion Impact will engage a total of 12 students from Franklin High School (FHS) and McDaniel High School (MHS) in a post-high-school-preparation themed, collaborative, paid Summer Internship Program that prepares them to become Volunteer Event Program (VEP) leaders at their respective schools. As VEP leaders, they will be instrumental in leading their schools' teams of 15 students to plan monthly civic-engagement events to empower youth to follow their passions in creating a healthier world. It is important to recognize that all of the work that is put into the Summer Internship experience by staff and students creates ripple effects that affect their peers, school communities, and the community at large throughout the entire school year.

Our internship is open to any student 16 and older who applies and we intentionally promote the opportunity to culturally specific clubs and students in programs who are from communities that have been historically marginalized. Our programs serve a wide range of students and are designed to create a safe and culturally respectful space for BIPOC students to express themselves authentically as they learn about themselves, one another, and a range of social justice topics.

Playwriting Workshop

<https://www.playwriteinc.org>

Over the course of two weeks, PlayWrite workshops offer youth the rare opportunity to write and direct their own play with the guidance of a personal coach. Our trauma-informed coaches challenge student-writers to excavate their inner creativity as a resource for their material. On the final day, an amazing team of professional actors perform the plays for an audience of peers and family. The community that is created is something our student-writers and coaches alike find fun and meaningful.

For two decades PlayWrite has facilitated important, potent, and life-changing workshops that put youth voices front and center in significant ways. Research has demonstrated the power of story and sharing difficult personal narratives through performance art has a unique and long-lasting impact. Built into every workshop are resiliency tools, exercises, and personal development skill building. We put a lot of emphasis on cultivating trust, relationship and communication as well. PlayWrite workshops are an engaging and transformative way to enjoy this summer!

POIC+RAHS Summer Earn & Learn

<https://www.portlandoic.org/>

Portland Opportunities Industrialization Center (POIC) and Rosemary Anderson High School (RAHS) will provide robust summer engagement services available to all POIC+RAHS students throughout the summer. Our students will choose from an array of options offered at five separate locations (three existing POIC+RAHS campuses and two PPS campuses). All activities will be credit-bearing, and students will receive incentives and/or wages to participate, depending on which programming they choose. Activities will include internship opportunities, core summer school courses, credit-bearing enrichment activities, field trips, and more.

Direct Registration

Capacity: Up to 30 slots per site; these will be offered first to current POIC+RAHS students

Grades: Middle School, High School

Portland Playhouse Summer Camp

<https://portlandplayhouse.org/pps>

A different theatre- and play-based exploration program every week of the summer.

Each week-long session will guide students through games and activities with the aim of building connections, developing confidence, and supporting self-expression by exploring storytelling, mask-making, music, movement, and more. Nutritious snacks will be provided for students throughout the day and bus passes will be available for students and a guardian. Register for one week, a few, or all!

Register online at <https://portlandplayhouse.org/pps> or by calling 503-488-5822. We will also have paper applications available and are happy to send one to you by mail or arrange for pick up at Portland Playhouse in the King Neighborhood.

Open Enrollment

Capacity: 6 classes per site with 15 students per class; 90 students total per site for each weekly camp.

Grades: K-5

REAP

www.reapusa.org

REAP's summer program provides fun, safe, structured and engaging activities for culturally diverse students that enhance learning and foster leadership. Enrichment activities include field trips, youth-led service projects, and leadership opportunities that focus on academic learning, social emotional learning, physical activity, and leadership development.

Students can register for the program through REAP's on-line registration form posted on our website: www.reapusa.org or in person at their school with the assistance of one of REAP's staff stationed at that school.

Rigor, Relevance, Relationships: Strategies for Elevating Youth Achievement

<https://onehopepdx.church/events/one-h-o-p-e-summer-school/>

Our program is designed to engage students in meaningful learning experiences that will not only educate but inspire them to be actively responsible in their families and community. We will implement services that are filled with experiential, hands-on learning, collaboration, excitement, and topics in STEAM. Students will have opportunities to choose clubs and activities that they are interested in along with required English language arts, math, and social emotional classes. Community partners will participate weekly by offering specialized classes, sharing their expertise, and providing opportunities for possible mentorship to our students. There will also be a culturally specific and culturally relevant field trip every Friday.

Sail2Change Maritime Access

www.sail2change.org

Sail2Change offers step by step gateways of change and empowerment to support youth in realizing and mapping their life journey. Our aim is for each student to have a post-high school plan and a sense of hope and purpose while building a community where they feel safe to discover the best versions of themselves. Sail2Change (S2C) empowers historically under-served and under-represented youth through access to sailing, environmental education, mentorship and tutoring as a catalyst for equitable academic opportunity and maritime industry employment. During the spring and summer seasons Sail2Change offers customized two-week beginner's sailing courses at Willamette Sailing Club (WSC) with transportation and lunch provided. Students learn the basics of sailing and racing, navigation, knot tying, and explore the Willamette River via small boats. Youth are taught the mechanics of sailing on their first day and quickly move to a hands-on learning approach as they try sailing a two-person dinghy with their partner, engaging trust and communication skills. Students who have completed 4 weeks of beginner's sailing have the chance to return as volunteers to assist new sailors. Each summer, they will advance their skills, to sail larger boats, earn certifications, and eventually become a certified sailing instructor if they choose. As youths mature and become juniors, they can take advantage of training center courses to improve their grades and skill set, and take part in job shadowing opportunities. Seniors will receive assistance in applying for their Transportation Worker Identification Credential (TWIC) which is required for most maritime training programs

Science of Life

<https://feedthemass.org/> • <https://www.bb2s.org/> • <https://www.feedthemass.org/summer>

Feed The Mass and Building Blocks 2 Success have teamed up to deliver our Science of Life program to students and their families through the Portland Public School Summer Enrichment, Engagement, and Safety Program. This collaboration brings a combination of science-based life skills education and practical real world STEM-based science education.

The program is designed to provide quality learning experiences that engage students in the collaborative process of learning new skills together, and exploring their individual interests and abilities. Workshops encourage organic natural learning experiences, introducing approachable opportunities for problem solving, critical reflection, and creative adaptability that will translate as skills into other areas of everyday life. Classes are specifically designed to support a variety of learning styles through a relaxed yet adventurous environment that involves all five senses and helps each participant find a helping role.

By making learning fun, active, and tangibly rewarding, we hope to engage and support kids who may be struggling in a standard school setting and empower them to take this confidence back into the classroom. Students will be guided to reflect on their increased level of confidence and self efficacy as they gain new knowledge and skills. Equipping students with the skills to contribute tangibly to their own and others' wellbeing promotes positive identity formation, pride in their accomplishments, and empowerment as active, productive members of their community.

Feed The Mass brings a holistic, multi-disciplinary education initiative in support of long term solutions to food insecurity and wellness-based health inequity. Each discipline focuses on a discrete element of health competency, which builds on and integrates with the components of the other disciplines to create a spectrum of empowerment. Programming seeks to equip students and their families with a holistic set of ideas and behaviors by strengthening their knowledge and skills at each of several key functional root causes of suboptimal health. We've focused on some of the most common causes of health inequity, and will educate and support students in each practice. Our featured disciplines include: food education (nutrition, cooking, and urban agriculture), fitness education with an emphasis on low impact movement, financial literacy, and mental wellness with an emphasis on overcoming and healing from social inequity.

Building Blocks 2 Success brings a STEM focused robotics program that teaches a fundamental set of skills that promote lifelong science learning through hands-on STEM-based activities. Classes develop and support critical thinking, problem solving, and teambuilding skills through a series of fun and educational challenges that require students to apply math and science concepts to the exciting world of robot building and programming. We strive to enhance personal and academic success by using STEM as a motivational tool to advance educational and intellectual achievement. Our programming provides connections to local science leaders and bridges to post-secondary opportunities in the STEM field.

<https://www.feedthemass.org/summer>

Open Enrollment

Capacity: 40 spaces per day for on-site activities; 100 spaces per day for online activities

Grades: K-5, Middle School, High School

Self Enhancement, Inc. Summer 2022

<https://www.selfenhancement.org>

Self Enhancement, Inc. will provide seven weeks of free, fun, and high-energy summer programming for elementary, middle, and high school students, at partnering PPS schools and at our Center for Self Enhancement facility on N. Kerby Avenue. Over five weeks, Monday-Friday, the afternoon schedule will offer enrichment classes, sports leagues and recreation, small-group and individual support, and opportunities to learn about the wider community and potential pathways to college/careers. Over two weeks in August, SEI will offer our high-energy sports camps for basketball varsity and hoops league play at the middle and high school levels, as well as volleyball, and softball. SEI's July Block Party at the Center will kick off the summer with a community-wide celebration.

Students/families can register online via the link provided on Self Enhancement Inc. (SEI's) website, and with the assistance of their in-school coordinators and Schools Uniting Neighborhoods (SUN) Community School managers

Summer Academy for Education and Employment (SAFE2) - 2022 Project

www.kukatonon.org

The Summer Academy for Education and Employment (SAFE2)-2022 Project recruits youth and young adults, 16-25-year-olds, for summer professional development training and coaching. After successful completion of the two-week mandatory training/onboarding (from Monday, June 20 to Friday, July 1 from 9 AM to 5 PM), eligible recruits will receive an agreement to serve as interns with pay and incentives. The SAFE-2022 Project interns will operate a low-cost day camp with youth ages 7-15, "campmates" and guide "emerging leaders" 13-15-year-olds eligible to earn incentives including pay.

The day camp will operate on Monday to Friday for five (5) weeks at 10 AM to 4 PM starting on Tuesday, July 5 to Friday, August 5. The 2022 Open Village/Family Night will be on Friday, July 22 from 11 AM to 10 PM. The all-inclusive (group meals, travel, lodging, supplies) 2022 Family Camp Out will be held on Friday, August 5 to August 7. At the conclusion of the SAFE2-2022 Project, successful interns will be invited to an all-inclusive End of Summer Retreat at the beach/coast planned for Thursday, August 11 to Sunday, August 14, and other awards. The Google Form enrollment applications are separate for interns and campmates.

Open Enrollment

Capacity: 20 total for interns; 48 total for day camp

Grades: K-5, Middle School, High School

Contact safe2@kukatonon.org for access to Google Enrollment Forms (interns and campmates separate applications) will be used to register, and marketing materials that will also be located on the www.kukatonon.org website

Summer Dreaming

www.cobmportland.org

This is a 7-week program meeting three days a week (Tuesday, Thursday, and Friday) beginning July 7, 2022 and ending August 18, 2022. The average day will run from 10am-3pm. Tuesdays and Thursdays will consist of journalism workshops in the morning and on Tuesdays an enrichment outing in the afternoon (i.e. hike, tour, etc.). On Fridays we will have a full or half-day outing. Our program aims to broaden students' options to opportunities for them inside and outside their community. Breakfast, lunch and snacks will be provided as well as transportation. To register please fill out the Google Form and we will reach out via email or phone.

Direct Registration

Spaces: 20

Grades: Middle School, High School

For more information, contact us at mentoring@cobmportland.org

Summer Escalera

<http://www.latnet.org/escalera-12th-grade>

Summer Escalera provides students with leadership development skills, a stronger sense of connection to their academic and cultural community, and enhances student self-perception of confidence and adversity. Six workshops are combined with enrichment activities to teach students about time management, tips for high school success, career exploration, college planning, writing, and Latin American culture. For many of the students we work with who have often struggled in high school, Summer Escalera is an opportunity to meet other Latinx students, to learn from strong Latinx role models, and to begin to set a trajectory toward college confident in their identity. We also will provide a one-week college tour of university campuses in Oregon and California. During these University visits our students will explore the benefits of attending University, life at the respected University through a student-led panel, and financial aid resources and opportunities. The tours will mainly be conducted by Latino Student-Led Organizations like Hermanos/Hermanas Unid@s to further build our student's sense of belonging at these higher education institutes.

Direct Registration

<https://sites.google.com/uniteoregon.org/yield/home?authuser=0>

To register for Summer YIELD (Youth-Led Involvement through Engagement and Leadership Development) Program participants must complete the YIELD Registration Form on our website and click on the Application tab in the top right hand corner. There it will take you to the registration form to complete. Once application is submitted Melissa, YIELD Organizer will contact you via phone or email to confirm registration.

Open Enrollment

Spaces: 20

Grades: Middle School

Our YIELD summer programming is a student leadership program with an emphasis on school community development, workforce development, and safe recreational trips.

Trại Hè Summer Camp

www.hphpdx.org

Hội Phụ Huynh is hosting its Vietnamese Dual Language Immersion Summer Camp, Trại Hè, in the summer of 2022. Hội Phụ Huynh aims to provide this camp free of cost to all accepted applicants. Trại Hè is the only Vietnamese Dual Language Immersion Summer Camp of its kind in the Portland Metro region, which is home to the second Vietnamese Dual Language Immersion (VDLI) program in the country. As the second most spoken emergent language in Portland, Trại Hè will meet an extremely large need in the community that is otherwise currently unmet.

A typical week at camp would include enrichment classes such as cooking, art, music, Vietnamese language, and an end-of-week celebration for students and families. All of our staff and volunteers have either studied Vietnamese, are bi-lingual, native speakers or are of Vietnamese heritage, and come to us from local and Vietnamese schools, universities and the community.

The Vietnamese Dual Language Immersion summer camp, Trại Hè, serves students and families participating in the Vietnamese Dual Language Immersion program in Portland Public Schools. This currently extends to Vietnamese Dual Language Immersion (VDLI) students at both Rose City Park Elementary School and Roseway Heights Middle School for summer 2022.

The camp is planned for three one-week cohorts, with one training week for staff preceding (from the week of June 20th ending the week of July 4th).

The goal of the camp is to provide a safe, culturally enriching and linguistically enriching environment for our underserved and underrepresented Vietnamese Dual Language Immersion students. We plan to provide continuity of language exposure throughout the summer as well as to provide culturally relevant and enriching experiences to our students through a variety of unique and engaging activities that are rarely found in any of PPS's summer offerings.

Some examples of curriculum and culturally specific, educational camp activities include:

- Arts: Work with Thư Pháp Style Writing, Tò he,
- Dance: Lion dancing in partnership with the White Lotus Lion Dance Team
- Games: folk games (Mèo đuổi chuột, Rồng rắn lên mây, kéo co, nhảy dây)
- Singing: Traditional Songs and practice with vocabulary
- Drama Based Stories: Students Perform historical or traditional stories
- Cooking: Iconic Vietnamese dishes
- Geography and History of Vietnam

All of these activities are designed to reinforce the language, identity and heritage of our students while also introducing and sharing parts of our culture to those that do not necessarily identify as Vietnamese-American. This helps not only to provide social and emotional support to our Vietnamese-American students, but will also broaden and expand the understanding of our culture to other participants that otherwise do not identify as Vietnamese-American.

Direct Registration

Capacity: 90

Grades: K-5, Middle School

Registration online at www.hphpdx.org and paper registration will be available at Rose City Park Elementary and Roseway Heights Middle School and any interested families can reach out to Hội Phụ Huynh directly at hoiphuynh.vdli@gmail.com

TYE (TiE Young Entrepreneurs) Start Your Startup Summer Camp

<https://oregon.tie.org/tye-summer/>

The “Start Your Startup Summer Camp” will challenge and empower students to become the next generation of entrepreneurs, business, and community leaders. During this week-long camp, students will be guided into an entrepreneurial mindset of solving problems through invention. By the end of the week, students will have identified a problem, come up with a viable solution, prototyped their product, and will pitch their invention and business to their peers.

Student will leave the camp with:

- A like-minded peer group interested in invention and entrepreneurship
- Business mentors they can turn to for future assistance with business and invention ideas
- An entrepreneurial mind-set that will help them solve problems in their communities
- Increased presentation skills and confidence they can take with them throughout their lives”

Register here: <https://oregon.tie.org/tye-summer/>

Open Enrollment

Spaces: 50

Urban League of Portland (ULPDX) Summer Youth Leadership Academy

www.ULPDX.org

The ULPDX Summer Youth Leadership Academy provides full summer programming with activities, engagements, and coaching targeted toward BIPOC middle and high school youth. The program is intended to introduce students to non-traditional activities that encourage them to get active and it is based on our pillars of leadership, empowerment, advocacy, and community service. The summer calendar includes a combination of small and large group activities, organized outings, and fun physical activities.

Direct Registration

Spaces: 50

Grades: Middle School, High School

Electronic and paper applications are available by contacting YouthPrograms@ulpdx.org beginning on 5/15/22. Staff is available to answer questions and assist with the enrollment process Monday–Friday 8:30 a.m. – 5 p.m. In addition, the Urban League provides access to our Resources Room and the use of a computer to complete the application process by appointment.

Vibe's Lift Youth Voices Mural Project

www.vibepdx.org

Vibe of Portland is offering a 6-week, full-day summer program which offers drawing, painting, and mural making. Meals will be available on-site. Be part of an incredible opportunity to have your voice be heard and turned into permanent art, for all to see. Primarily for grades 6-8, students will learn basic illustration and drawing skills needed to design a mural, and then painting and mural construction skills when the mural is mounted. Students will also learn how to write stories and autobiographies based on interviewing family and friends that will go into the design of the mural. Together we will also read a common book and discuss how the story reflects our lives in Portland currently. This program is a wonderful opportunity to learn, develop and work on art skills, in addition to becoming stronger in our reading and writing skills. The final result of this exciting and intensive program will be a permanent mural that we can admire and take pride in for years to come.

Open Enrollment

Spaces: 20

Grades: Middle School

Registration is through our in-house system Sawyer. We will set up courses on our system, and students or parents can enroll directly. Please contact Dunja Marcum 503.320.5600

Wellness Squad

www.VillageResiliency.com

Wellness Squad is a weekly group held for B/I/POC students that centers social and emotional health. The Wellness Squad will meet every Tuesday for 8 weeks, June 21–August 9th. Each group will run for 3 hours.

Wellness Squad will focus on a different aspect of social and emotional health each week, while specifically focusing on stress management tools and building healthy identity. Every group includes an in-depth project where students will be exposed to a variety of outlets for creative expression and building confidence. Examples of projects included in Summer 2022 are shoe painting/design, candle making, creating a stress toolkit, etc.; students will keep their completed projects each week.

This group is designed and reserved for students who identify as Black, Indigenous, or a Person of Color, and is appropriate for all genders.

Wellness Squad will have two sections offered:

AM 9a -12p for Incoming 6th and 7th graders

PM 1p-4p for Incoming 8th and 9th graders”

Direct Registration

30 spaces available; 15 in AM section; 15 in PM section

Grades: Middle School, High School

Contact: Vanessa Washington - Vanessaw@villageresiliency.com or Michelleg@villageresiliency.com; 360.601.7842.

Youth must be registered by 5p on Friday June 10. Please contact Michelle or Vanessa to register.

Wild Diversity Summer Camp - Land and Paddle Adventures

<https://wilddiversity.com/youth-ecology>

Wild Diversity's Summer Camp - Land and Paddle Adventures is a multi-week outdoor experience that includes two separate tracks focused on experiencing adventures on either land or on water. Youth participants will dive deeper into building specific skill sets, in the field, for a full day each week. During the final week the students will design and lead a multi-day overnight adventure trip. Wild Diversity's Summer Camp is geared toward serving up to 28 BIPOC middle and high school aged youth (ages 11–18). There is space for 20 youth in the nine-week Land Adventurer track (on Mondays or Tuesdays, 9 AM–5 PM) and 8 youth in the eight-week Paddle Adventurer track (on Wednesdays, 9 AM–5 PM).

Direct Registration

Capacity: 28 (20 spaces for land adventures; 8 spaces for paddle adventures)

Contact: admin@wilddiversity.com

YMCA of Columbia-Willamette

<https://www.ymcacw.org/camps/summer>

YMCA Summer Day Camps provide fun, child-centered activities and opportunities for learning through discovery, and challenge children to grow in imagination, creativity, self-directed initiative and leadership. Curriculum activities focus on themed arts and crafts, STEM, Physical Activity, Literacy, Service Learning, and more!

Open Enrollment

There are 10 spaces reserved for this purpose at each of our five summer camp locations. There are an additional 15 slots at Beach for our CIT (counselor in training)/LIT (leader in training) program.

Grades: K-5, Middle School

To register please either go to the YMCA Summer Camps page at <https://www.ymcacw.org/camps/summer>, select the location of your choice, and complete registration online; or contact Ryan Brickley at rbrickley@ymcacw.org to be registered by a YMCA employee.

Young Audiences Art Camps

<https://www.ya-or.org/summer-2021-art-camps-pps>

Get ready for a summer break filled with color and creativity. Our popular Teaching Artist programs have become week-long Art Camps with the goal of connecting kids with their natural creativity for a great day camp experience.

Talented teaching artists and classroom staff members will introduce campers to a variety of different art media through open ended exploration and project work in the visual and performing arts.

Open Enrollment

Capacity: 20 per class per week. 320 total spaces available.

Grades: K-5

Registration will open online in late April <https://www.ya-or.org/summer-2022-art-camps-pps>

Students may register for one of four weeks of camp.

Direct registration questions to Kristi@ya-or.org or 503-225-5900.
