

9th Grade Welcome Guide

Name: _____

What is a 9th Grade Academy?

All Madison 9th graders travel in academies. Students take English, History, and Physics together as a class community. This allows teachers to work closely and know their students well. Teachers help students make the transition from middle school to high school. We use common academic strategies and restorative justice practices to create rigorous, safe, and collaborative classes. Our goals in the 9th grade year are to introduce students to college and career opportunities while preparing them to reach graduation requirements.
