❖ Oregon Administrative Rule 581-022-1620 requires students to take a full course load. Students in 9<sup>th</sup> through 11<sup>th</sup> grade will be enrolled in a full schedule.

Forecasting provides you with the opportunity to identify the core courses required for you to graduate as well as *elective* courses available to you that can both enhance and support your school experience. PPS requires 24 credits to graduate. A full schedule of eight classes provides you with the opportunity to take maximum advantage of the educational opportunities. You should carefully review the list of courses available, consult with your parents and counselor as needed, and select 8 courses along with alternate course choices that meet your educational goals.

**Directions:**

1. Read through the course guide.
2. Select appropriate Math, World Language, and Electives
3. **Circle or highlight 8 courses or 16 semesters on this sheet. Identify 2 alternates. Use planner on back.**
4. Discuss choices with parent/guardian/caregiver. Both student and parent/guardian need to sign form.
5. Return this completed sheet to your English teacher.

Students without forecasting sheets will have schedules created for them. Jefferson uses forecasts to determine program and course offerings for the upcoming year and limits schedule change requests once forecasting is complete.

I have reviewed the Course Guide and discussed my course selections with my parent or guardian. I understand my second semester grades could impact my final schedule. **I have made my choices thoughtfully and I understand that I will not be allowed to make changes (other than level changes) in the Fall.** Course offerings and staffing decisions are based upon student forecasting.
