# PPS Non-Represented Employee Mileage Stipend Program Information October 1, 2015

Given the significant travel demands required of many PPS non-represented employees, a monthly mileage stipend program has been developed to cover business mileage incurred while performing their PPS duties. This stipend may take the place of tracking and submitting business mileage for reimbursement each month, if a non-represented employee qualifies.

### **Eligible Positions**

All PPS non-represented positions are eligible to apply for the <u>Non-Represented Employee Mileage Stipend</u> <u>Program.</u>

Positions deemed eligible for a monthly mileage stipend must meet the following criteria:

- Position requires the non-represented employee to frequently travel to multiple sites other than their home office location and
- Travel is conducted using the non-represented employee's personal vehicle; and
- The non-represented employee submits proof of a demonstrated need for a stipend (see below)

### **Qualifications and Mileage Stipend Amounts**

- The monthly stipend amount is currently set at \$80, \$130 or \$180 per month dependent upon how much the non-represented employee drives for their job. The mileage stipends are calculated using the current IRS mileage reimbursement rate, which is currently (10/1/2015) .575 cents per mile.
- Verification of business miles driven must be provided to the PPS Benefits Director before a mileage stipend may begin.
- The submitted verification must consist of at least a two-month period of district reimbursed mileage that meets or exceeds the stipend amount requested.
- Verification submissions may happen any time during the fiscal year.
- Mileage verifications must contain signed supervisor approval and also be approved by HR.
- The mileage stipend will be prorated according to FTE and stopped while an employee is on a leave of absence.

## **Payment Frequency**

Stipends will be paid in twelve (12) equal amounts and are included in the non-represented employee's PPS monthly paycheck. All stipends are taxed according to IRS rules and regulations.

# **Mileage Stipend Budgeting**

The PPS non-represented employee business mileage stipend is paid from each employee's payroll chartfield, which is paid out of their department budget.

## New Hires, Employees Transferring to New Positions, or Changing Job Status

Employees may apply when newly hired, or reapply when transferred to a new position, or experience a job status change. It is important to know that employees do not automatically qualify for the mileage stipend, even if the employee before them was receiving a mileage stipend, or they qualified in their previous position. This program takes the place of any mileage stipend made part of an eligible employee's job offer.

# **Opting Out**

It is possible for the non-represented employee who previously qualified for the mileage stipend to opt out and instead submit mileage through PPS Accounting for direct mileage reimbursement. If the non-represented employee chooses to opt out, they must contact the PPS Benefits Director at <a href="mailto:tburton@pps.net">tburton@pps.net</a> to find out how to do this.

### **Ineligible Positions**

- PAT/PFSP/ATU/DCU/SEIU Employees
- Senior Leadership Level, including salary levels 100/200\*
- Licensed School Administrators Principal/VP/AP (special programs)\*
- Temporary Employees
- Limited Terms
- Substitutes

## **Employees Who Do Not Qualify For Mileage Stipend Program**

All PPS employees who do not qualify for a mileage stipend are still eligible to submit business miles for direct reimbursement to PPS Accounting. Please go to this link to learn more. <a href="http://inside.pps.k12.or.us/forms-processes/143.htm">http://inside.pps.k12.or.us/forms-processes/143.htm</a>

Please keep in mind that employees receiving a mileage stipend may not apply for direct mileage reimbursement through PPS Accounting.
