

**BODECKER
FOUNDATION**

***Sparking young people to realize their creative power
through immersive learning experiences.***

Led by professional artists, writers, musicians, and educators, our creative workshops for high school students encourage immersive learning and collaboration. In addition to workshops, we offer long-term mentorship through our cohort program for students who are interested in visual arts, audio engineering, and creative writing.

All youth programs are held at our NW building and designed for young people ages 14-18. They are **FREE** to attend. Learn more below.

Bodecker Foundation believes in the dignity and intrinsic worth of every human being. We welcome and prioritize the participation of Black, Brown, Indigenous, and other students of color, as well as immigrants and refugees, queer and trans youth, people with disabilities, and all intersections therein. No matter where you are from, Bodecker Foundation is dedicated to creating a place where all people can be sparked to realize their creative power.
