

ROOSEVELT

ACCESSIBILITY SUMMARY

Roosevelt High School
6941 N Central Street
Portland, OR 97203

SUMMARY

Roosevelt has an elevator, but the it does not provide access to the west library addition basement or the second floor. Additionally, the east wing is not served by the elevator. The cafeteria is connected via an exterior ramp, rather than an interior accessible route. Priority should be given to providing access to the common areas in these spaces, particularly the library and computer labs. The major accessibility upgrades for Roosevelt are summarized on this sheet. This ramp at Roosevelt is an example which illustrates exterior access only between variable main floor levels of building additions in need of an interior accessible route.

Exterior ramp into cafeteria
