

School Improvement Bond Update Bond Accountability Committee Meeting August 23, 2023

1 16-

Agenda

- Welcome & Introductions ۲
- **Public Comment** ۲
- **Program Administration Updates** ullet
- **Modernization Project Updates** ullet
- Adjourn •

- 5:30 5:40 pm
- 5:40 5:45 pm
- 5:45 6:00 pm
- 6:00 7:30 pm

7:30 pm

Public

Comment

(public comments received via email prior to the meeting will be read aloud)

Business Equity Utilization Data Constraints

Business equity utilization data from the B2GNow software system represents a point in time and may not fully represent actual payments received by Certified Businesses. The accuracy of the utilization data is contingent on several factors:

- PPS's payment data from Peoplesoft is uploaded into B2GNow monthly and reflects all payments from PPS to prime contractors during the prior month.
- Accurate data on payments to subcontractors is contingent on prime contractors or upper tier subs entering their subcontractors in B2GNow and subsequently self-reporting their monthly payments to each subcontractor in a timely and accurate manner.
- If prime contractors (or first tier subs) enter payments to first tier or subsequent tier subs in a timely manner, the total equity utilization calculation can be expected to accurately reflect contract expenditures as of approximately one to two months prior to the report date.
- If prime contractors (or first tier subs) do <u>not</u> enter payments to first tier or subsequent tier subs in a timely manner, accurate equity utilization data will be delayed, at times significantly. Even closed contracts may be updated later if PPS learns of new subcontractor payments that were made months or even years prior.

2012 Budget Notes

Staff are working through closing out all non-active 2012 commitments and projects, and returning unspent funds to the Program. -

Any remaining 2012 funding will go towards prior add-on project requests at 2012 modernizations (such as additional security cameras at Franklin and Grant). -

- Remaining program contingency is being shown for transparency but, as noted above, will go to prior add-on project requests once all other funding sources and expenditures have been reconciled.

2017 Budget Notes

85% spent

Benson HS Modernization funding is split between 2017 and 2020. The 2017 Benson HS Modernization information shown above reflects 2017 funding and budget only, with actuals and additional encumbered specific to the 2017 funding as well. The Benson Swings shares total budget/funding with Benson HS Modernization, so the "under" amount of budget in the Benson Swings project will be applied to the Benson HS Modernization and is therefore shown as an "over" amount in the Benson HS Modernization line.

The McDaniel Modernization project has funds being held in the project until all project scope has been finalized and completed. The netting repair project is already
included in the Estimate at Completion. The Lincoln Modernization project is forecasting roughly \$11.4M under budget during Phase 2 of construction.

OSM continues to forecast full use of 2017 Program Contingency at this time but anticipates the full amount will not be needed for risk mitigation of existing projects.
 Once the Lincoln HS Modernization project has completed, OSM will review Program Contingency and Bond Administration budgets in coordination with review of unneeded budget from Lincoln and McDaniel, for discussion regarding potential additional 2017 Bond-funded projects.

As the 2017 Health & Safety projects wind down, OSM is also reviewing to ensure that any Health & Safety funds not needed to complete certain categories of H&S scope
get reallocated to other H&S categories, to ensure that the full \$150M dedicated to Health & Safety projects by the 2017 Bond measure is utilized as such.

2020 Budget Notes

24% spent

- PPS held their second 2020 Bond sale in April 2023. \$420M in bonds were sold, gaining a premium of \$44.8M. This was added to Contingency above.

- OSM transferred \$4M in 2020 Program Contingency to the MPG project, due to large increases in costs for material inspections, permitting, and addressing costs
 associated with an extraordinarily large number of hidden drywells underground. As noted in previous reports, the GMP amount was already \$2.5M over the previously
 established budget, due to extreme inflationary pressures. The project team had hoped to be able to find savings in other areas of the budget, but over the course of the
 last several months, it became clear that was not possible.
- Consistent with prior reporting, the project to convert Harrison Park to a middle school has required use of program contingency funds to fully fund the project. The budget of this complex project is now fully funded with 2020 Bond funds from Capacity, Mechanical, Security, ADA, Technology and Program Contingency, consistent with the respective scopes of work. After all other fund sources were added, OSM transferred in \$25M in program contingency to make up the remainder of the budget for this critical project. As discussed in the May 2023 BAC meeting, while the need for this project was anticipated in the 2020 Bond measure with a set-aside of Capacity funds, the exact amount of funding was unknown at that time; the bond measure instead included a significant Program Contingency to address unknowns such this.
- Curriculum reporting in the Bond Programs Report shows Bond funds only. Non-bond funds related to planned bond scope were tracked in eBuilder for a short period of
 time only. For a full report of non-Bond funds used for planned bond scope, please see the Curriculum Project Status report in the February 2023 BAC update. The next
 Curriculum Project Status report will be presented at the November 2023 BAC update.

Project Design & Budget Update Topics

) Schematic Design Process to date Overview of cost estimates and main factors affecting cost differences

Value Engineering Workshop Process

Value Engineering Workshop Studies

Value Engineering Workshop Findings & Project Updates

Design Process Overview

Schematic Design

Starting in January 2023, the Design team started developing the design with feedback from PPS stakeholders, JHS leadership, DAG, neighbors, alumni, current & future students, staff, City and land use officials

•SD Pricing Set (issued 4/28/23)

a set of concept drawings and narratives to describe the project at this early stage of design

•Design Team estimate (mid-May)

shows 19% overage for the project. This is within typical range at this phase. (Estimate used national cost data, similar regional projects.)

•Andersen Construction joins Project Team (early May)

Andersen begins working with the design team to provide input on construction logistics and durations.

•Andersen provides second cost estimate (mid-June)

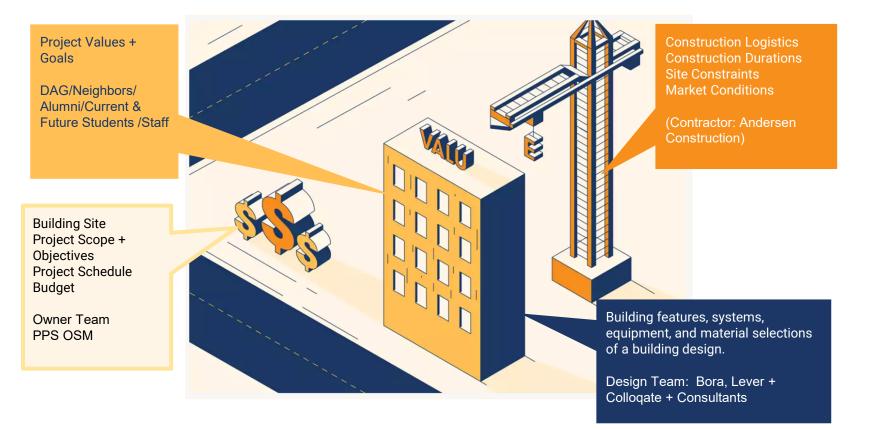

based on 4/28 SD Pricing Set using expertise in construction logistics and durations; shows significant overage.

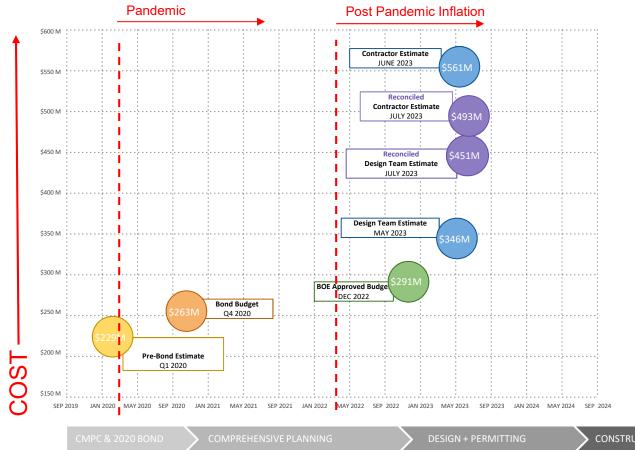

•Value Engineering Workshop (7/10-14)

A week-long 9am-5pm workshop with members of the <u>entire design & construction team</u> to review, validate, and critique the design goals, re-assess previous assumptions and decisions, and look for opportunities to get the project cost back in line with the budget.

Multiple Factors Affecting Cost Difference vs. Budget

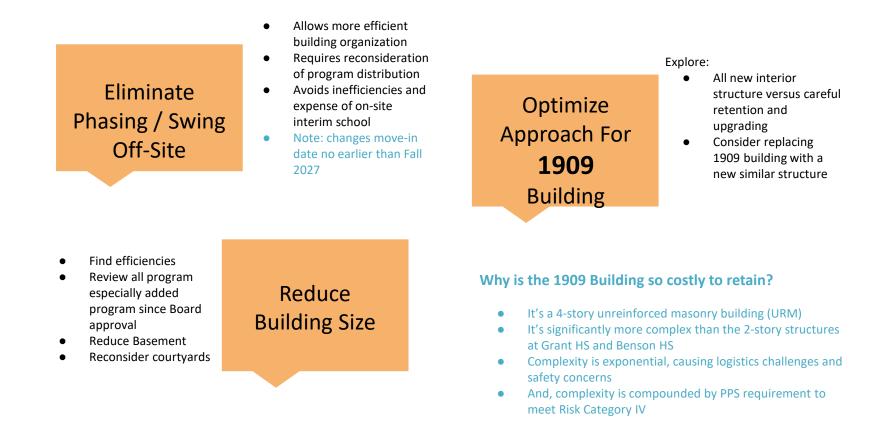

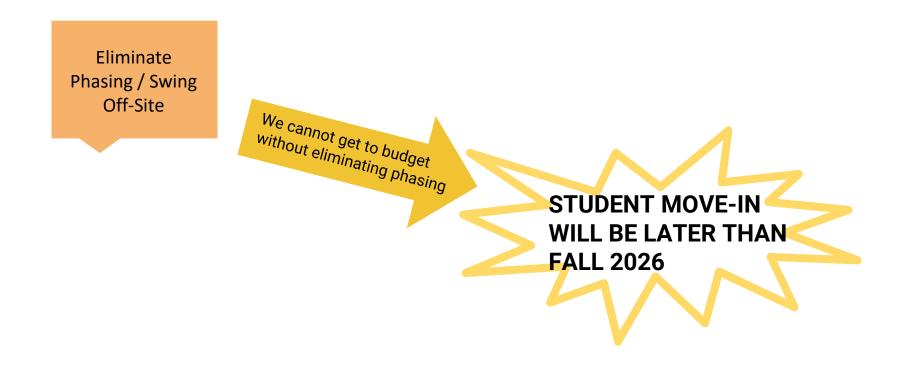

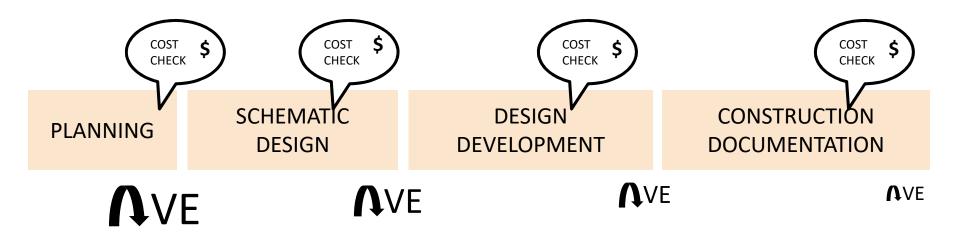

Schedule Implications of the Studies

"Value engineering" is **standard part of the process**, and happens at each design phase. It is a formal process for reviewing design & cost.

The difference between cost estimates and the project budget usually decreases as we progress through the design phases.

VE Workshop

July 10-14, 2023 Facilitated by an outside consultant

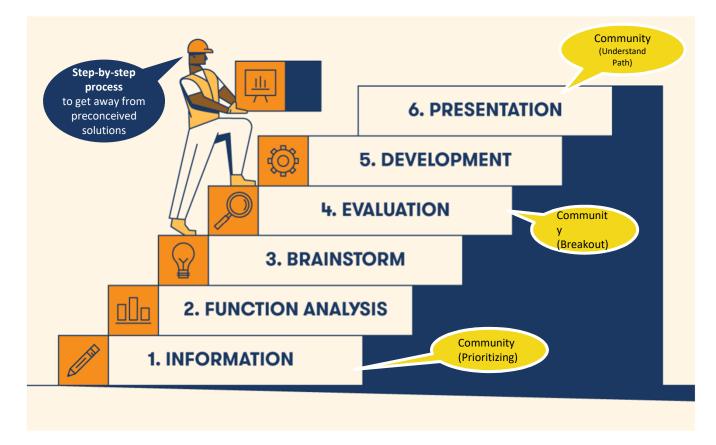

Roster of Attendees

- PPS leadership + stakeholders
- Design Team
 - Architectural
 - Structural engineers
 - MEP engineers
 - Landscape Architect
 - Other Design Consultants
 - Cost Estimator
- Construction Team
 - Project Manager
 - Cost Estimators
 - Consortium Partners
- Community Engagement team (Colloqate + CDOs)
- Members of the DAG

1 Korr

VE Workshop: Value Methodology

VE Workshop Objectives

- Align with Board-approved \$291M budget
- Identify essential values and functions
- Bring: active participation creative ideas open minds

1 16-

VE Workshop Performance Criteria

(filters to evaluate and score ideas)

Community Narrative Themes

1 Korr

Creative Ideas Generated During Workshop

Review Schemes

Reconsider:

- "Condensed"
 Current design, condensed to single phase
- "Rebuild 1909" Build replica of 1909, all new in single phase
- "New NewSouth" Full replacement on south, aka Lincoln approach
- "New NewNorth"

Full replacement on north, aka Lincoln approach

Threw away assumptions reconsider big ideas

against ...

- Swing Required
- Land Use & Permitting
- Seismic Upgrades
- Area Reductions
- Program Alignment
- Design Schedule
- Construction Schedule
- Potential for Cost Alignment

... for more detail

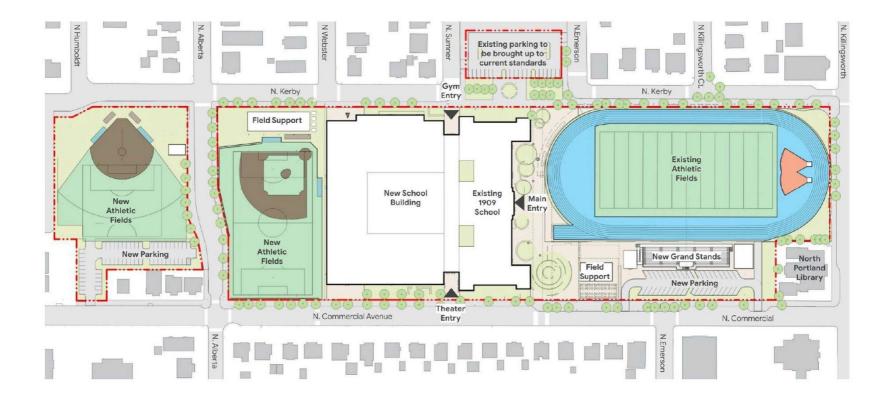

- "Condensed"
- "Rebuild 1909"
- "New NewSouth"
 - "New NewNorth"

These two offered more than the others

Value Engineering Workshop: Key Outcomes

Implications and process towards value alignment with \$291M Board-approved budget:

1

Move forward with Target Value Design Process

Retain + update 1909 existing main structure

Continuous estimating feedback as design elements, systems, equipment and materials are further defined

2

3

Condensed building footprint with renovation of 1909 and addition

Review + finetune space program to board approved area of 334,410 gsf

Revisit site design to meet outdoor space needs + desires

Refine building organizational layout to find more design efficiencies

Eliminate multiple phases to single phase project complete in 2027

Swing school evaluations + implications

JHS Swing Site Evaluation

| Variables | Marshall | Kenton | РСС | | | | | |

| Cost to project | ~ \$1.5MM | ~ \$3MM | ~ \$10MM | | | | | |

JHS Next Steps

- PCC Middle College Partnership development and communication of details on how this will be accessed from Marshall Campus
- Transportation continued work with PPS Transportation on details of busing, development of maps/flyers/web, communication to Jefferson families
- Design Development phase starts in two weeks

SCHOOL BUILDING IMPROVEMENT BO

Adjourn

Next meeting: November 29, 2023, 5:30-8:00pm location TBD (in person)
