Please come and share your thoughts

Over the last several weeks members of the Cleveland Conceptual Master Planning Committee (CMPC) have been working on ideas of what a future Cleveland High School would look like after a modernization. This forum provides an opportunity for the greater community to weigh in on those ideas and to share their feelings and concerns with the project team and their school board representative before they are finalized and presented to the full Board.

What Is Conceptual Master Planning?

The conceptual master planning process will determine each school's overall program needs, site layout, and estimated costs for historic modernization vs. new construction. The early planning effort will help us more accurately determine the cost estimates for the modernization or the rebuilding of that school. This information will help PPS in the planning of future capital improvement bonds.
