## A New Model for Middle Schools

Opening in the fall of 2021, the new Kellogg Middle School will represent the vision of Portland Public Schools for middle school education, offering expanded options and programs for students.

Designed through an extensive public engagement process, the Kellogg site includes over 100,000 sq. ft. of new construction, including a performing arts stage, a multi-purpose gym and assembly space, a large, flexible commons space, and dedicated outdoor learning spaces. The school will become a focal point of its Southeast Portland neighborhood, offering a resource hub for the community.

## Kellogg Design Highlights

### Cafeteria/Commons

The cafeteria/commons serve as the heart of this new middle school, offering space for student gatherings and after-hours community activities.

### Learning Suites

To promote greater collaboration, groups of classrooms will be connected together on each floor in an extended learning area.

### Performing Arts

The performing arts stage, located next to the music room, serves as a teaching space and opens to the gymnasium through an acoustic partition, for performances, assemblies and other community events.

### Community Resources

The design includes community partner and support spaces, providing a connection to the neighborhood.

### Athletic Facilities

The gymnasium allows two PE classes to use the space simultaneously, with a divider curtain. The multi-use field can be used for PE activities and after-hours community use.

### STEAM Lab/Learning Garden

The STEAM lab, located next to the student learning garden, will be used for maker space activities and project-based learning opportunities. The learning garden extends the classroom to the outdoors with areas for educational planting.

## Project Timeline

### SPRING 2017- SPRING 2019

#### Planning & Design

Master Planning / Schematic Design /  
 Design Development /  
 Construction Documents

### SUMMER 2019 - SUMMER 2021

#### Construction

Construction takes place over  
 two years.

### FALL 2021

 School opens**

Classroom

## Meet Kellogg's New Principal

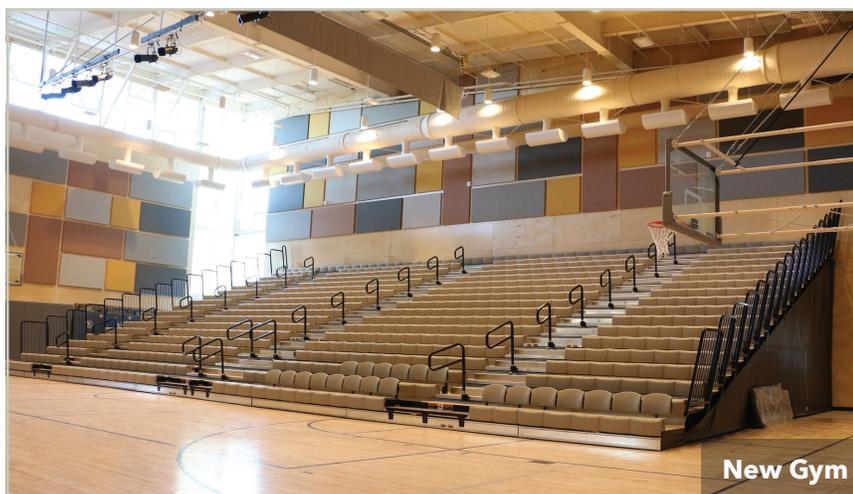

When Kellogg Middle School re-opens in the fall, veteran educator Richard Smith will lead the effort as principal. Smith has been principal of Lent K-8 School since 2018. At Lent, he took over a traditionally underserved campus and improved attendance, school culture and staff retention. Smith assumed his new position in January to get a jump on the many details involved in opening a brand new school.

## New Kellogg Feeder Schools

Under the approved enrollment boundaries, the neighborhood programs at Arleta, Marysville, Creston and Lent will convert from their kindergarten-to-8<sup>th</sup> grade (K-8) structure to a K-5 structure. Students in grades 6-8 in those schools will move to Kellogg starting in the 2021-22 school year. Students in grades 6-8 in Bridger and Lent's Spanish Dual Language Immersion Program will also feed into Kellogg.
