

# Madison Modernization

## Modernization Highlights

In 2021, a fully modernized, 292,000 square foot Madison High School will reopen with a capacity for 1,700 students. The 21<sup>st</sup> century learning environment will serve a diverse community of students who speak over 30 languages.

A multi-year planning and design effort gathered the ideas of hundreds of staff, students, and community stakeholders through a series of public meetings and hands-on interactive workshops. The Madison modernization will include over 170,000 square feet of new construction, including a theater, commons and gym, that will blend seamlessly with the historic mid-century modern building.

## Latest Updates

**Madison Modernization website:** <http://MadisonBond.pps.net>

## Cafeteria / Commons and Crossroads Atrium

The commons will serve as the heart of the modernized school and will act as a welcoming space at the main entrance. The Crossroads Atrium will connect all major wings of the building and all three classroom levels.

## Science Wing

Science labs will be consolidated near the front of the school and highlighted to serve as a shining example of the new Madison.

## Performing Arts

A brand new, state-of-the-art music & theater facility will serve the school and local community.

## Community Resources

A child care center, public health clinic, and community food pantry will continue to serve the community.

## Athletics Facilities

An entirely new gym building will include a 1,700 seat main gym, auxiliary gym, weight room, wrestling/dance room and a new softball field on site.

## Career Technical Education CTE

Students in the modernized Madison will have access to specialty labs for digital design, engineering, robotics, digital art, biomedical, sculpture, construction, and sustainable agriculture, in addition to a brand new maker space.

## Project Timeline

### SPRING 2016 – SPRING 2019

#### Planning & Design

Master Planning / Schematic Design / Design Development / Construction Documents
