

## CONSTRUCTION AT THE MARSHALL CAMPUS THIS FALL

## Madison students and staff,

This coming fall of 2020, the Marshall Campus will see the construction of a new building on the eastern edge of the campus next to 92<sup>nd</sup> Ave. There will also be limited renovation work that will take place this summer and next. This work is needed to prepare for the transition of the Benson Polytechnic program to the Marshall Campus in the summer of 2021.

Fall construction will impact parking on the east side of the school, primarily within the fenced area shown in the map below, but will have minimal impact in other areas. School Modernization staff will work closely with Madison administration to make sure construction has a minimal impact on school activities. Regular updates will be provided to Madison families and school community.

For the last five years, PPS has utilized the Marshall campus as a temporary home for high schools undergoing construction. Benson Polytechnic is the next school scheduled to move into Marshall in 2021. This work is necessary to accommodate Benson's intensive Career & Technical Education programs including a new building that will house their Automotive and Construction classrooms. We apologize for any inconvenience this work may cause and appreciate your understanding.
