UPCOMING MILESTONES

Project Schedule: March 2015 – Sept. 2017

- Area B2 interior seismic shearwalls are completing this month
- Area B2 MEP/F overhead rough in is in progress in the West Wing – Ground Floor
- Area B2 existing floor finish preparation is in progress this month
- Area B2 wall framing will begin in the West Wing – Ground Floor

Final push for 2016 produced turnover of the Auditorium, Kitchen, 2nd Floor Journalism area, and the new Commons. Some final finishes are being put on the Auditorium space for audio and visual controls in time for Family Night next week! Starting in the New Year the focus is on Area B2 completing seismic upgrades, starting MEP/F system overhead rough-in, getting existing floor finishes prepared, and starting interior wall framing. There are many activities ahead leading into the Summer turnover, but given the milestones met to date this will be another challenge that will be overcome!

Sincerely,

Michael C. Kingham
